Simplify US Equity PLUS Convexity ETF	\$53	0.50%

Management's Discussion of Fund Performance

For the year ended June 30, 2026, the Fund returned 11.77%, compared with 22.32% for its benchmark, the S&P 500 TR Index, underperforming by 10.55%.

U.S. equities maintained strong momentum during the period, supported by artificial intelligence and semiconductor technology. However, markets experienced periods of volatility, including the Iran conflict, as investors evaluated energy prices and labor market conditions.

The Fund's dual mandate of participating in upside markets while providing downside protection performed below expectations during the period. Looking ahead, the Fund will continue monetizing and exercising options when appropriate to participate in market gains while seeking to maintain meaningful downside protection.
