FUND SUMMARY - SIMPLIFY DBi CTA MANAGED FUTURES INDEX ETF

Investment Objective: The Simplify DBi CTA Managed Futures Index ETF (the “Fund” or “SDMF”) seeks long-term capital appreciation.

Fees and Expenses of the Fund: This table describes the fees and expenses that you may pay if you buy, sell, and hold shares of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the table or examples below.**

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)	
Management Fees	0.20%
Distribution and Service (12b-1) Fees	0.00%
Other Expenses ⁽¹⁾	0.00%
Acquired Fund Fees and Expenses ⁽²⁾	0.15%
Total Annual Fund Operating Expenses	0.35%

(1) Other Expenses are estimated for the Fund’s initial fiscal year.

(2) Acquired Fund Fees and Expenses, which are estimated for the Fund’s initial fiscal year, are the indirect costs of investing in other investment companies. The operating expenses in this fee table will not correlate to the expense ratio in the Fund’s financial highlights because the financial statements include only the direct operating expenses incurred by the Fund.

Example: This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same. Although your actual costs may be higher or lower, based upon these assumptions your costs would be:

1 Year	3 Years
\$36	\$113

Portfolio Turnover: The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund’s performance. The Fund is a new fund and has no portfolio turnover information as of the date of this Prospectus.

Principal Investment Strategies:

The Fund is a passively managed fund. Under normal circumstances, the Fund invests at least 80% of its net assets (plus any borrowings for investment purposes) in instruments that, in total, have rate of return characteristics that are the economic equivalent of an investment in the components of the DBi CTA MF Index. The Fund’s 80% policy is non-fundamental.

The DBi CTA MF Index (“Index”) is a rules-based index that seeks to represent managed futures investment strategies. The Index is designed to reflect the performance of a diversified basket of futures contracts across major asset classes, including (i) equities, (ii) interest rates, (iii) currencies, and (iv) commodities. The composition and weighting of the underlying futures are determined systematically using a rules-based quantitative model that seeks to replicate both the risk and return characteristics of a representative universe of managed futures programs. The Index model does not select assets, but seeks futures contracts that align most closely with the holdings of representative universe of managed futures programs.

The Index is sponsored by Société Générale, S.A. which is a licensed French credit institution. Société Générale, S.A. is independent of the Fund and Simplify Asset Management, Inc., the Fund's investment adviser. The Index is calculated and published daily by an independent calculation agent. The Index reflects the hypothetical performance of a notional portfolio, including the daily mark-to-market of the underlying instruments and the reinvestment of any cash component. However, the Index does not represent an investable portfolio and does not hold any assets; rather, it serves as a transparent measure of the value and returns of the strategy as defined by the Index's governing rules. The Index is rebalanced weekly.

While the Fund does not engage a commodity trading adviser, by way of background, managed futures programs are run by commodity trading advisors ("CTAs") using a managed futures investment strategy. In general, CTAs employ a variety of proprietary investment strategies such as trend following, momentum, and macroeconomic analysis. CTAs invest long and short across a broad spectrum of futures representing asset classes including financial futures (foreign currencies, interest rates, and equity indexes) and commodity futures (energy, metals, and agricultural foodstuffs).

In seeking to replicate the returns of the Index, the adviser combines Index-linked swaps with cash-like instruments or high-quality short term fixed income securities. A portion of these cash-like instruments are pledged as collateral to swap counterparties. These short term instruments may consist of (i) U.S. Government securities, such as bills, notes and bonds issued by the U.S. Treasury; (ii) money market funds (including affiliated money market ETFs); (iii) fixed income ETFs; and/or (iv) corporate debt securities, such as commercial paper and other short-term unsecured promissory notes issued by companies that are rated investment grade or of comparable quality. The adviser considers an unrated security to be of comparable quality to a security rated investment grade if it believes it has a similar low risk of default. When the Fund enters into a swap, the Fund makes payments to the swap counterparty based on either a fixed or variable rate, and the swap counterparty makes payments to the Fund based on the return of Index. The adviser selects swap counterparties that it believes are creditworthy based on credit rating and financial strength. The adviser may employ a growing number of swap counterparties as Fund assets increase.

The Fund expects to gain exposure to a portion Index-linked swaps by investing up to 25% of its assets in a wholly-owned subsidiary of the Fund organized under the laws of the Cayman Islands (the "Subsidiary"). This part of the Index-linked swaps is related to futures contracts that, if held directly by the Fund, would not produce qualifying income under the tax rules and regulations that apply to the Fund. The Subsidiary is advised by the adviser. Unlike the Fund, the Subsidiary is not an investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act"). The Fund's investment in the Subsidiary is intended to provide the Fund with exposure to a portion of Index-linked swaps in accordance with applicable tax rules and regulations. The Subsidiary follows the same compliance policies and procedures, as the Fund and is subject to the same investment restrictions and limitations as the Fund when measured on a consolidated basis with the Fund. The Fund complies with the provisions of the 1940 Act governing investment policies, capital structure and leverage on an aggregate basis with the Subsidiary. In addition, the Subsidiary complies with the provisions of the 1940 Act relating to affiliated transactions, custody, and advisory agreements. The Subsidiary employs the same service providers (e.g. custodian) as the Fund.

The Fund is classified as a "non-diversified" investment company under the Investment Company Act of 1940, as amended, which means that the Fund may invest a higher percentage of its assets in a fewer number of issuers than is permissible for a "diversified" fund.

Principal Investment Risks: *As with all funds, there is the risk that you could lose money through your investment in the Fund. Many factors affect the Fund's net asset value and price of shares and performance. The following describes the risks the Fund bears with respect to its investments. As with any fund, there is no guarantee that the Fund will achieve its goal. Many of the risks presented below are born by the Fund indirectly through its Subsidiary.*

CTA Risk. The CTAs' judgments about the attractiveness, value and potential appreciation of particular commodity asset classes and futures may prove to be incorrect and may not produce the desired results.

Passive Investment Risk. The Fund is not actively managed, and the adviser will not sell a holding due to current or projected underperformance.

Futures Risk. The use of futures involves risks different from, or possibly greater than, the risks associated with investing directly in securities and other traditional investments. These risks include (i) leverage risk (ii) risk of mispricing or improper valuation; and (iii) the risk that changes in the value of the futures contract may not correlate perfectly with the underlying index or asset.

- *Currency Futures Risk:* Foreign currency contracts subject the Fund to currency trading risks that include market risk and country risk. Market risk results from adverse changes in exchange rates. Country risk arises because a government may interfere with transactions in its currency.
- *Debt Futures Risk:* Typically, a rise in interest rates causes a decline in the value of debt futures. Current conditions may result in a rise in interest rates, which in turn may result in a decline in the value of the debt futures held by the Fund.
- *Equity Futures Risk:* Equity futures are subject to general market risks and may not track the equity indices for which they are intended to serve as substitutes.
- *Energy Futures Risk:* Energy prices may be adversely affected by fluctuating commodity prices, weather, increased conservation or use of alternative fuel sources, increased governmental or environmental regulation, depletion, rising interest rates, declines in domestic or foreign production, accidents or catastrophic events, and economic conditions.
- *Metals Futures Risk:* Precious and industrial metals prices may be susceptible to financial, economic, political or market events, as well as government regulation, impacting the production costs of these metals. Precious metal prices may become volatile when they serve as a substitute for currencies.
- *Agriculture Commodity Futures Risk:* Commodity prices may be influenced by unfavorable weather, animal and plant disease, geologic and environmental factors as well as changes in government regulation such as tariffs, embargoes or burdensome production rules and restrictions.

Swaps Risk. The Fund's use of swaps involves risks different from, or possibly greater than, the risks associated with investing directly in securities and other traditional investments. These risks include (i) the risk that the counterparty to a swap transaction may not fulfill its contractual obligations and the Fund may not receive payments owed under the contract, or such payments may be delayed and the value of agreements with the counterparty may decline; (ii) risk of mispricing or improper valuation; (iii) the risk that changes in the value of the derivative may not correlate perfectly with the underlying asset or index; and (iv) swap fees will reduce Fund returns.

Market and Geopolitical Risk. The increasing interconnectivity between global economies and financial markets increases the likelihood that events or conditions in one region or financial market may adversely impact issuers in a different country, region or financial market. Assets in the Fund's portfolios may underperform due to inflation (or expectations for inflation), interest rates, global demand for particular products or resources, natural disasters, pandemics, epidemics, terrorism, international conflicts, regulatory events and governmental or quasi-governmental actions. The occurrence of global events similar to those in recent years may result in market volatility and may have long term effects on both the U.S. and global financial markets. The novel coronavirus (COVID-19) global pandemic and the lingering effects of aggressive responses taken by many governments, including closing borders, restricting international and domestic travel, and the imposition of prolonged quarantines or similar restrictions, as well as the forced or voluntary closure of, or operational changes to, many retail and other businesses had negative impacts, and in many cases severe negative impacts, on markets worldwide. It is not known how long such impacts, or any future impacts of other significant events described above, will or would last, but there could be a prolonged period of global economic slowdown, which may impact your Fund investment.

Index Provider Risk. The Fund seeks to achieve returns that generally correspond, before fees and expenses, to the performance of the Index. There is no assurance that the Index will be compiled, determined, composed or calculated accurately. While the Index provider gives descriptions of what the Index is designed to achieve, the Index provider does not offer any warranty nor accepts any liability in relation to the quality, accuracy or completeness of data in the Index; and does not guarantee that the Index will be in line with its methodology.

Tracking Error Risk. Tracking error is the divergence of the Fund's performance from that of the Index. Tracking error may occur because of imperfect correlation between the Fund's holdings and those in the Index, pricing differences, the Fund's holding of cash, changes to the Index or the need to meet various regulatory requirements. This risk may be heightened during times of increased market volatility or other unusual market conditions. Tracking error also may result because the Fund incurs operating fees and expenses while the Index does not.

Limited History Risk. The Fund is a new ETF and does not yet have a history of operations for investors to evaluate.

Non-Diversification Risk. Because the Fund is non-diversified and may invest a greater portion of its assets in fewer issuers than a diversified fund, changes in the market value of a single portfolio holding could cause greater fluctuations in the Fund's share price than would occur in a diversified fund.

Subsidiary Investment Risk. Changes in the laws of the United States and/or the Cayman Islands, under which the Fund and the Subsidiary are organized, respectively, could result in the inability of the Fund to operate as intended and could negatively affect the Fund and its shareholders. The Subsidiary is not registered under the 1940 Act and is not subject to all the investor protections of the 1940 Act. Thus, the Fund, as an investor in the Subsidiary, will not have all the protections offered to investors in registered investment companies.

U.S. Treasury and Agency Market Risk. The U.S. Treasury market can be volatile, and the value of instruments correlated with these markets may fluctuate dramatically from day to day. U.S. Treasury obligations may provide relatively lower returns than those of other securities. Similar to other debt instruments, U.S. Treasury obligations are subject to debt instrument risk and interest rate risk. In addition, changes to the financial condition or credit rating of the U.S. Government may cause the value of U.S. Treasury obligations to decline. U.S. Treasury obligations are backed by the "full faith and credit" of the U.S. government and are generally considered to have negligible credit risk. Securities issued or guaranteed by federal agencies or authorities and U.S. government-sponsored instrumentalities or enterprises may or may not be backed by the full faith and credit of the U.S. government.

Underlying Fund Risk. Other investment companies i.e. ETFs and money market funds ("Underlying Funds") in which the Fund invests are subject to investment advisory and other expenses, which will be indirectly paid by the Fund. Each of the Underlying Funds is subject to its own specific risks.

Affiliated Money Market ETF Conflict of Interest Risk. Because the Fund may invest in an affiliated ETF, the adviser is subject to conflicts of interest in allocating the Fund's assets to the affiliated ETF. The adviser will receive more revenue to the extent it selects an affiliated ETF rather than an unaffiliated ETF for inclusion in the Fund's portfolio.

Early Close/Trading Halt Risk. An exchange or market may close or issue trading halts on specific securities, or the ability to buy or sell certain securities or financial instruments may be restricted, which may prevent the Fund from buying or selling certain securities or financial instruments. In these circumstances, the Fund may be unable to rebalance its portfolio, may be unable to accurately price its investments and may incur substantial trading losses.

ETF Structure Risk. The Fund is structured as an ETF. As a result, the Fund is subject to special risks, including:

- *Not Individually Redeemable.* The Fund's Shares ("Shares") are not redeemable by retail investors and may be redeemed only by the Authorized Participant at net asset value ("NAV") and only in Creation Units. A retail investor generally incurs brokerage costs when selling shares.

- *Trading Issues.* Trading in Shares on the NYSE Arca, Inc. (the “Exchange”) may be halted due to market conditions or for reasons that, in the view of the Exchange, make trading in Shares inadvisable, such as extraordinary market volatility. There can be no assurance that Shares will continue to meet the listing requirements of the Exchange, which may result in the Fund’s shares being delisted. An active trading market for the Shares may not be developed or maintained. If the Shares are traded outside a collateralized settlement system, the number of financial institutions that can act as Authorized Participants that can post collateral on an agency basis is limited, which may limit the market for the Shares.
- *Market Price Variance Risk.* Individual Shares of the Fund that are listed for trading on the Exchange can be bought and sold in the secondary market at market prices. The market prices of Shares will fluctuate in response to changes in NAV and supply and demand for Shares. There may be times when the market price and the NAV vary significantly and you may pay more than NAV when buying Shares on the secondary market, and you may receive less than NAV when you sell those Shares. The market price of Shares, like the price of any exchange-traded security, includes a “bid-ask spread” charged by the exchange specialists, market makers or other participants that trade the particular security. In times of severe market disruption, the bid-ask spread often increases significantly. This means that Shares may trade at a discount to NAV and the discount is likely to be greatest when the price of Shares is falling fastest, which may be the time that you most want to sell your Shares. The Fund’s investment results are measured based upon the daily NAV of the Fund over a period of time. Investors purchasing and selling Shares in the secondary market may not experience investment results consistent with those experienced by those Authorized Participants creating and redeeming directly with the Fund.
 - In times of market stress, market makers may step away from their role market making in shares of ETFs and in executing trades, which can lead to differences between the market value of Shares and the Fund’s NAV.
 - The market price for the Shares may deviate from the Fund’s NAV, particularly during times of market stress, with the result that investors may pay significantly more or significantly less for Shares than the Fund’s NAV, which is reflected in the bid and ask price for Fund shares or in the closing price.
 - In stressed market conditions, the market for the Shares may become less liquid in response to the deteriorating liquidity of the Fund’s portfolio. This adverse effect on the liquidity of the Shares may, in turn, lead to differences between the market value of the Shares and the Fund’s NAV.
- *Authorized Participant Risk.* Only an Authorized Participant may engage in creation or redemption transactions directly with the Fund. The Fund has a limited number of institutions that may act as an Authorized Participant on an agency basis (*i.e.*, on behalf of other market participants). To the extent that Authorized Participants exit the business or are unable to proceed with creation or redemption orders with respect to the Fund and no other Authorized Participant is able to step forward to create or redeem Creation Units, the Fund’s shares may be more likely to trade at a premium or discount to NAV and possibly face trading halts or delisting. Authorized Participant concentration risk may be heightened for securities or instruments that have lower trading volumes.

Performance: Because the Fund has only recently commenced investment operations, no performance information is presented for the Fund at this time. In the future, performance information will be presented in this section of the Prospectus. Also, shareholder reports containing financial and performance information will be mailed to shareholder semi-annually. Updated performance information will be available at no cost by visiting www.simplify.us or by calling 1 (855) 772-8488.

Investment Adviser: Simplify Asset Management Inc. (“SAMI”).

Portfolio Managers: David Berns, Chief Investment Officer of the adviser; Ken Miller, Portfolio Manager of the adviser; and Paisley Nardini, Asset Allocation Strategist of the adviser serve as portfolio managers of the Fund. Each has served the Fund as a portfolio manager since it commenced operations in 2026. Dr. Berns, Mr. Miller, and Ms. Nardini are jointly and primarily responsible for the management of the Fund.

Purchase and Sale of Fund Shares: The Fund will issue and redeem Shares at NAV only in large blocks of 25,000 Shares (each block of Shares is called a “Creation Unit”). Creation Units are issued and redeemed primarily in-kind for securities but may include cash. Individual Shares may only be purchased and sold in secondary market transactions through brokers. Except when aggregated in Creation Units in transactions with Authorized Participants, the Shares are not redeemable securities of the Fund.

Shares of the Fund are listed for trading on the Exchange and trade at market prices rather than NAV. Shares of the Fund may trade at a price that is greater than, at, or less than NAV. An investor may incur costs attributable to the difference between the highest price a buyer is willing to pay to purchase shares of the Fund (bid) and the lowest price a seller is willing to accept for shares of the Fund (ask) when buying or selling shares in the secondary market. Recent information on the Fund’s NAV, market price, premiums and discounts, and bid-ask spreads is available at www.simplify.us/etfs.

Tax Information: The Fund’s distributions generally will be taxable as ordinary income or long-term capital gains. A sale of Shares may result in capital gain or loss.

Payments to Broker-Dealers and Other Financial Intermediaries: If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s website for more information.

ADDITIONAL INFORMATION ABOUT PRINCIPAL INVESTMENT STRATEGIES AND RELATED RISKS

INVESTMENT OBJECTIVE:

The Fund seeks long-term capital appreciation. The Fund's investment objective may be changed by the Board of Trustees (the "Board") without shareholder approval upon written notice to shareholders. The Fund's 80% investment policy may be changed by the Board without shareholder approval upon 60 days' written notice to shareholders.

PRINCIPAL INVESTMENT STRATEGIES:

The Fund is a passively managed fund. Under normal circumstances, the Fund invests at least 80% of its net assets (plus any borrowings for investment purposes) in instruments that, in total, have rate of return characteristics that are the economic equivalent of an investment in the components of the DBi CTA MF Index. The Fund's 80% policy is non-fundamental. The DBi CTA MF Index ("Index") is a rules-based index that seeks to represent managed futures investment strategies. The Index is sponsored by Société Générale, S.A. which is a licensed French credit institution. Société Générale, S.A. is independent of the Fund and Simplify Asset Management, Inc., the Fund's investment adviser.

Index Calculation and Construction Overview

- *Objective:* The Index is designed to measure the performance of a systematic, rules-based strategy that seeks to replicate the risk and return characteristics of a diversified group of managed futures programs.
- *Composition:* The Index provides exposure to a notional portfolio of futures contracts across major asset classes, including equities, fixed income, currencies, and commodities.
- *Model-Based Construction:* The composition and weightings of the underlying futures are determined using a quantitative model that analyzes historical and current market data to estimate exposures that most closely track the performance of a representative managed futures universe.
- *Rebalancing Frequency:* The Index is reviewed and rebalanced weekly, pursuant to predefined, nondiscretionary rules.
- *Calculation and Publication:* The Index is calculated and published daily by an independent calculation agent, using publicly available market data.
- *Return Computation:* The Index reflects the hypothetical performance of a notional portfolio, including daily mark-to-market of the underlying instruments and reinvestment of any cash component, net of applicable fees and costs which includes an imputed 0.65% management expense to reflect the expenses of CTA managed futures programs.
- *Nature of the Index:* The Index does not represent an investable portfolio and does not hold any assets. It serves solely as a transparent, rules-based measure of the strategy's value as defined by its governing methodology.

Generally, the Index is designed to reflect the performance of a diversified basket of futures contracts across major asset classes, including (i) equities, (ii) interest rates, (iii) currencies, and (iv) commodities. The composition and weighting of the underlying futures are determined systematically using a rules-based quantitative model that seeks to replicate both the risk and return characteristics of a representative universe of managed futures programs. The Index model does not select assets, but seeks futures contracts that align most closely with the holdings of representative universe of managed futures programs. While the Fund does not engage a commodity trading adviser, by way of background, managed futures programs are run by commodity trading advisors ("CTAs") using a managed futures investment strategy. In general, CTAs employ a variety of proprietary investment strategies such as trend following, momentum, and macroeconomic analysis. CTAs invest long and short across a broad spectrum of futures representing asset classes including financial futures (foreign currencies, interest rates, and equity indexes) and commodity futures (energy, metals, and agricultural foodstuffs).

In seeking to replicate the returns of the Index, the adviser combines Index-linked swaps with cash-like instruments or high-quality short term fixed income securities. A portion of these cash-like instruments are pledged as collateral to swap counterparties. These short term instruments may consist of (i) U.S. Government securities, such as bills, notes and bonds issued by the U.S. Treasury; (ii) money market funds (including affiliated money market ETFs); (iii) fixed income ETFs; and/or (iv) corporate debt securities, such as commercial paper and other short-term unsecured promissory notes issued by companies that are rated investment grade or of comparable quality. The adviser considers an unrated security to be of comparable quality to a security rated investment grade if it believes it has a similar low risk of default. When the Fund enters into a swap, the Fund makes payments to the swap counterparty based on either a fixed or variable rate, and the swap counterparty makes payments to the Fund based on the return of Index. The adviser selects swap counterparties that it believes are creditworthy based on credit rating and financial strength. The adviser may employ a growing number of swap counterparties as Fund assets increase.

The Fund expects to gain exposure to a portion Index-linked swaps by investing up to 25% of its assets in a wholly-owned subsidiary of the Fund organized under the laws of the Cayman Islands (the “Subsidiary”). This part of the Index-linked swaps is related to futures contracts that, if held directly by the Fund, would not produce qualifying income under the tax rules and regulations that apply to the Fund. The Subsidiary is advised by the adviser. Unlike the Fund, the Subsidiary is not an investment company registered under the Investment Company Act of 1940, as amended (the “1940 Act”). The Fund’s investment in the Subsidiary is intended to provide the Fund with exposure to a portion of Index-linked swaps in accordance with applicable tax rules and regulations. The Subsidiary follows the same compliance policies and procedures, as the Fund and is subject to the same investment restrictions and limitations as the Fund when measured on a consolidated basis with the Fund. The Fund complies with the provisions of the 1940 Act governing investment policies, capital structure and leverage on an aggregate basis with the Subsidiary. In addition, the Subsidiary complies with the provisions of the 1940 Act relating to affiliated transactions, custody, and advisory agreements. The Subsidiary employs the same service providers (e.g. custodian) as the Fund.

The Fund is classified as a “non-diversified” investment company under the Investment Company Act of 1940, as amended, which means that the Fund may invest a higher percentage of its assets in a fewer number of issuers than is permissible for a “diversified” fund.

MANAGER-OF-MANAGERS ORDER

Simplify Exchange Traded Funds (the “Trust”) and the adviser have received an exemptive order from the SEC that permits the adviser, subject to approval by the Board, to enter into sub-advisory agreements with one or more sub-advisers without obtaining shareholder approval. The exemptive order permits the adviser, subject to the approval of the Board, to replace sub-advisers or amend sub-advisory agreements, including fees, without shareholder approval whenever the adviser and the Board believe such action will benefit the Fund and its shareholders. The adviser, subject to the oversight of the Board, is responsible for overseeing a sub-adviser(s) and recommending their hiring, termination and replacement.

PRINCIPAL INVESTMENT RISKS:

All funds take investment risks. Therefore, it is possible to lose money by investing in the Fund. Many of the risks presented below are born by the Fund indirectly through its Subsidiary. The principal risks that may reduce the Fund’s returns include the following:

CTA Risk. The CTA’s judgments about the attractiveness, value and potential appreciation of particular commodity asset classes and futures in which they invest may prove to be incorrect and may not produce the desired results.

Passive Investment Risk. The Fund is not actively managed, and the adviser will not sell a holding due to current or projected underperformance nor take temporary defensive positions. The Fund’s returns may lag those of actively managed funds.

Futures Risk. The Fund's indirect use of futures via swaps on the Index involves risks different from, or possibly greater than, the risks associated with investing directly in securities and other traditional investments. These risks include (i) leverage risk (ii) risk of mispricing or improper valuation; and (iii) the risk that changes in the value of the futures contract may not correlate perfectly with the underlying asset or index. Futures contracts may become mispriced or improperly valued when compared to the CTA's expectation and may not produce the desired investment results. Furthermore, changes in the value of futures contracts may not track or correlate perfectly with the underlying index or reference asset because of temporary, or even long-term, supply and demand imbalances.

- *Currency Futures Risk:* Foreign currency contracts subject the Fund to currency trading risks that include market risk and country risk. Market risk results from adverse changes in exchange rates. Country risk arises because virtually every country has interfered with international transactions in its currency. Interference has taken the form of regulation of the local exchange market, restrictions on foreign investment by residents or limits on inflows of investment funds from abroad. Restrictions on the exchange market or on international transactions are intended to affect the level or movement of the exchange rate.
- *Debt Futures Risk:* Typically, a rise in interest rates causes a decline in the value of debt futures. Current conditions may result in a rise in interest rates, which in turn may result in a decline in the value of the debt futures held by the Fund. If the U.S. Federal Reserve's Federal Open Market Committee ("FOMC") raises the federal funds interest rate target, interest rates across the U.S. financial system may rise. However, the magnitude of rate changes across maturities and borrower sectors is uncertain. Rising rates may decrease liquidity and increase volatility.
- *Equity Futures Risk:* Equity futures are subject to general market risks and may not track the equity indices for which they are intended to serve as substitutes. Equity futures are susceptible to volatile increases and decreases in value. Equity futures used by the CTAs may experience sudden, unpredictable drops in value or long periods of decline in value. This may occur because of factors affecting securities markets generally, the equity securities of a particular sector, or a particular company.
- *Energy Futures Risk:* Energy prices may be adversely affected by fluctuating commodity prices, weather, increased conservation or use of alternative fuel sources, increased governmental or environmental regulation, depletion, rising interest rates, declines in domestic or foreign production, accidents or catastrophic events, and economic conditions. Various governmental authorities have the power to enforce compliance with regulations and the permits issued under them, and violators are subject to administrative, civil and criminal penalties, including civil fines, injunctions or both. Stricter laws, regulations or enforcement policies could be enacted in the future which would likely increase compliance costs and may adversely affect the financial performance of energy prices.
- *Metals Futures Risk:* Precious and industrial metals prices may be susceptible to financial, economic, political or market events, as well as government regulation, impacting the production costs of these metals. Precious metal prices may become volatile when they serve as a substitute for currencies. Supplies of certain metals are concentrated in only a few countries such as Australia and South Africa, the governments of which may pass laws or regulations limiting metal investments for strategic or other policy reasons.
- *Agriculture Commodity Futures Risk:* Commodity prices may be influenced by unfavorable weather, animal and plant disease, geologic and environmental factors as well as changes in government regulation such as tariffs, embargoes or burdensome production rules and restrictions. Changes in inflation or commodity-specific production costs, or sectors affecting a particular industry may produce unexpected jumps in commodity prices.

Swaps Risk. The Fund's use of swaps involves risks different from, or possibly greater than, the risks associated with investing directly in securities and other traditional investments. These risks include (i) the risk that the counterparty to a swap transaction may not fulfill its contractual obligations and the Fund may not receive payments owed under the contract, or such payments may be delayed and the value of agreements with the counterparty may decline; (ii) risk of mispricing or improper valuation; (iii) the risk that changes in the value of the derivative may not correlate perfectly with the underlying asset or index; and (iv) swap fees will reduce Fund returns. Swap prices may be highly volatile and may fluctuate substantially during a short period of time. Such prices are influenced by numerous factors that affect the markets, including, but not limited to: changing supply and demand relationships; government programs and policies; national and international political and economic events, changes in interest rates, inflation and deflation and changes in supply and demand relationships. Trading swaps involves risks different from, or possibly greater than, the risks associated with investing directly in securities. Swap contracts ordinarily have leverage inherent in their terms. The low margin deposits normally required in trading swaps permit a high degree of leverage. Accordingly, a relatively small price movement may result in an immediate and substantial loss to the Fund. The use of leverage may also cause a Fund to liquidate portfolio positions when it would not be advantageous to do so in order to satisfy its obligations or to meet collateral segregation requirements.

Market and Geopolitical Risk. The increasing interconnectivity between global economies and financial markets increases the likelihood that events or conditions in one region or financial market may adversely impact issuers in a different country, region or financial market. Assets in the Fund's portfolios may underperform due to inflation (or expectations for inflation), interest rates, global demand for particular products or resources, natural disasters, pandemics, epidemics, terrorism, international conflicts, regulatory events and governmental or quasi-governmental actions. The occurrence of global events similar to those in recent years may result in market volatility and may have long term effects on both the U.S. and global financial markets. The novel coronavirus (COVID-19) global pandemic and the lingering effect of aggressive responses taken by many governments, including closing borders, restricting international and domestic travel, and the imposition of prolonged quarantines or similar restrictions, as well as the forced or voluntary closure of, or operational changes to, many retail and other businesses had negative impacts, and in many cases severe negative impacts, on markets worldwide. It is not known how long such impacts, or any future impacts of other significant events described above, will or would last, but there could be a prolonged period of global economic slowdown, which may impact your Fund investment.

Index Provider Risk. The Fund seeks to achieve returns that generally correspond, before fees and expenses, to the performance of the Index. There is no assurance that the Index will be compiled, determined, composed or calculated accurately. While the Index provider gives descriptions of what the Index is designed to achieve, the Index provider does not offer any warranty nor accepts any liability in relation to the quality, accuracy or completeness of data in the Index; and does not guarantee that the Index will be in line with its methodology. Neither the Fund nor the CTA programs are sponsored, endorsed, promoted, sold or supported by the Index provider in any way and the Index provider makes no express or implied representation, guarantee or assurance with regard to: (a) the advisability in investing in the Fund or CTA programs; (b) the quality, accuracy and/or completeness of the Index; and/or (c) the results obtained or to be obtained by any person or entity from the use of the Index. The Index provider does not guarantee the accuracy and/or the completeness of the Index and shall not have any liability for any errors or omissions with respect thereto.

Tracking Error Risk: Tracking error is the divergence of the Fund's performance from that of the Index. Tracking error may occur because of imperfect correlation between the Fund's holdings of portfolio securities and those in the Index, pricing differences, the Fund's holding of cash, difference in timing of the accrual of dividends, changes to the Index or the need to meet various regulatory requirements. This risk may be heightened during times of increased market volatility or other unusual market conditions. Tracking error also may result because the Fund incurs operating fees and expenses while the Index does not.

Limited History Risk. The Fund is a new ETF and does not yet have a history of operations for investors to evaluate. Investors in the Fund bear the risk that the Fund may not be successful in implementing its investment strategies, may be unable to implement certain of its investment strategies or may fail to attract sufficient assets, any of which could result in the Fund being liquidated and terminated at any time without shareholder approval and at a time that may not be favorable for all shareholders. Such a liquidation could have negative tax consequences for shareholders and will cause shareholders to incur expenses of liquidation. The adviser may not achieve its intended result in managing the Fund.

Non-Diversification Risk. Because the Fund is non-diversified and may invest a greater portion of its assets in fewer issuers than a diversified fund, changes in the market value of a single portfolio holding could cause greater fluctuations in the Fund's share price than would occur in a diversified fund. This may increase the Fund's volatility and cause the performance of a single portfolio holding or a relatively small number of portfolio holdings to have a greater impact on the Fund's performance.

Subsidiary Investment Risk. Changes in the laws of the United States and/or the Cayman Islands, under which the Fund and the Subsidiary are organized, respectively, could result in the inability of the Fund to operate as intended and could negatively affect the Fund and its shareholders. The Subsidiary is not registered under the 1940 Act and is not subject to all the investor protections of the 1940 Act. Thus, the Fund, as an investor in the Subsidiary, will not have all the protections offered to investors in registered investment companies.

U.S. Treasury and Agency Market Risk. The U.S. Treasury and agency market can be volatile, and the value of instruments correlated with these markets may fluctuate dramatically from day to day. U.S. Treasury and agency obligations may provide relatively lower returns than those of other securities. Similar to other debt instruments, U.S. Treasury and agency obligations are subject to debt instrument risk and interest rate risk. In addition, changes to the financial condition or credit rating of the U.S. Government may cause the value of U.S. Treasury and agency obligations to decline. U.S. Treasury obligations are backed by the "full faith and credit" of the U.S. government and are generally considered to have negligible credit risk. Securities issued or guaranteed by federal agencies or authorities and U.S. government-sponsored instrumentalities or enterprises may or may not be backed by the full faith and credit of the U.S. government.

Underlying Fund Risk. ETFs ("Underlying Funds") in which the Fund invests are subject to investment advisory and other expenses, which will be indirectly paid by the Fund. As a result, the cost of investing in a Fund will be higher than the cost of investing directly in the Underlying Funds and may be higher than other funds that invest directly in stocks and bonds. Each of the Underlying Funds is subject to its own specific risks, but the adviser expects the principal investments risks of such funds will be similar to the risks of investing in the Fund.

Affiliated Money Market ETF Conflict of Interest Risk. Because the Fund may invest in an affiliated ETF, the adviser is subject to conflicts of interest in allocating the Fund's assets to the affiliated ETF. The adviser will receive more revenue to the extent it selects an affiliated ETF rather than an unaffiliated ETF for inclusion in the Fund's portfolio.

Early Close/Trading Halt Risk. An exchange or market may close or issue trading halts on specific securities, or the ability to buy or sell certain securities or financial instruments may be restricted, which may prevent the Fund from buying or selling certain securities or financial instruments. In these circumstances, the Fund may be unable to rebalance its portfolio, may be unable to accurately price its investments and may incur substantial trading losses.

ETF Structure Risk. The Fund is structured as an ETF. As a result, the Fund is subject to special risks, including:

- *Not Individually Redeemable.* The Fund's Shares ("Shares") are not redeemable by retail investors and may be redeemed only by the Authorized Participant at net asset value ("NAV") and only in Creation Units. A retail investor generally incurs brokerage costs when selling shares.
- *Trading Issues.* Trading in Shares on the NYSE Arca, Inc. (the "Exchange") may be halted due to market conditions or for reasons that, in the view of the Exchange, make trading in Shares inadvisable, such as extraordinary market volatility. There can be no assurance that Shares will continue to meet the listing requirements of the Exchange, which may result in the Fund's shares being delisted. An active trading market for the Shares may not be developed or maintained. If the Shares are traded outside a collateralized settlement system, the number of financial institutions that can act as Authorized Participants that can post collateral on an agency basis is limited, which may limit the market for the Shares.

- *Market Price Variance Risk.* Individual Shares of the Fund that are listed for trading on the Exchange can be bought and sold in the secondary market at market prices. The market prices of Shares will fluctuate in response to changes in NAV and supply and demand for Shares. There may be times when the market price and the NAV vary significantly and you may pay more than NAV when buying Shares on the secondary market, and you may receive less than NAV when you sell those Shares. The market price of Shares, like the price of any exchange-traded security, includes a “bid-ask spread” charged by the exchange specialists, market makers or other participants that trade the particular security. In times of severe market disruption, the bid-ask spread often increases significantly. This means that Shares may trade at a discount to NAV and the discount is likely to be greatest when the price of Shares is falling fastest, which may be the time that you most want to sell your Shares. The Fund’s investment results are measured based upon the daily NAV of the Fund over a period of time. Investors purchasing and selling Shares in the secondary market may not experience investment results consistent with those experienced by those Authorized Participants creating and redeeming directly with the Fund.
 - In times of market stress, market makers may step away from their role market making in shares of ETFs and in executing trades, which can lead to differences between the market value of Shares and the Fund’s NAV.
 - The market price for the Shares may deviate from the Fund’s NAV, particularly during times of market stress, with the result that investors may pay significantly more or significantly less for Shares than the Fund’s NAV, which is reflected in the bid and ask price for Fund shares or in the closing price.
 - In stressed market conditions, the market for the Shares may become less liquid in response to the deteriorating liquidity of the Fund’s portfolio. This adverse effect on the liquidity of the Shares may, in turn, lead to differences between the market value of the Shares and the Fund’s NAV.
- *Authorized Participant Risk.* Only an Authorized Participant may engage in creation or redemption transactions directly with the Fund. The Fund has a limited number of institutions that may act as an Authorized Participant on an agency basis (*i.e.*, on behalf of other market participants). To the extent that Authorized Participants exit the business or are unable to proceed with creation or redemption orders with respect to the Fund and no other Authorized Participant is able to step forward to create or redeem Creation Units, the Fund’s shares may be more likely to trade at a premium or discount to NAV and possibly face trading halts or delisting. Authorized Participant concentration risk may be heightened for securities or instruments that have lower trading volumes.

PORTFOLIO HOLDINGS DISCLOSURE: A description of the Fund’s policies and procedures regarding the release of portfolio holdings information is available in the Fund’s Statement of Additional Information (“SAI”).

SUBSIDIARY

The Fund executes a portion of its strategy by investing up to 25% of its total assets in a wholly-owned and controlled Subsidiary. The Subsidiary invests the majority of its assets in derivatives subject to the same investment restrictions as the Fund, when viewed on a consolidated basis. The principal investment strategies and principal investment risks of the Subsidiary are also principal investment strategies and principal risks of the Fund and are reflected in this Prospectus. The financial statements of a Subsidiary are consolidated with those of the Fund. By investing in certain derivatives indirectly through the Subsidiary, the Fund obtains exposure to the commodities futures markets within the federal tax requirements that apply to the Fund. Specifically, the Subsidiary provides the Fund with exposure to the commodities futures markets within the limitations of the federal tax requirements of Subchapter M of the Internal Revenue Code of 1986, as amended (the “Code”). Sub-chapter M requires, among other things, that at least 90% of the Fund’s income be derived from securities or derived with respect to its business of investing in securities (typically referred to as “qualifying income”). The Fund will make investments in certain commodity-linked derivatives through the Subsidiary because income from these derivatives is not treated as “qualifying income” for purposes of the 90% income requirement if the Fund invests in the derivative directly. In the past, the Internal Revenue Service has issued a number of private letter rulings to other mutual funds (unrelated to the Fund), which indicate that certain income from a fund’s investment in a wholly-owned foreign subsidiary will constitute “qualifying income” for purposes of Subchapter M. The Fund does not have a private letter ruling. To satisfy the 90% income requirement, the Subsidiary will, no less than annually, declare and may distribute a dividend to the Fund, as the sole shareholder of a Subsidiary, in an amount approximately equal to the total amount of “Subpart F” income (as defined in Section 951 of the Code) generated by or expected to be generated by the Subsidiary’s investments during the fiscal year. Such dividend distributions are “qualifying income” pursuant to Subchapter M (Section 851(b)) of the Code.

Because the Fund may invest a substantial portion of its assets in a Subsidiary, which may hold some of the investments described in this Prospectus, the Fund may be considered to be investing indirectly in some of those investments through its Subsidiary. For that reason, references to the Fund may also include a Subsidiary.

CYBERSECURITY: The computer systems, networks and devices used by the Fund and its service providers to carry out routine business operations employ a variety of protections designed to prevent damage or interruption from computer viruses, network failures, computer and telecommunication failures, infiltration by unauthorized persons and security breaches. Despite the various protections utilized by the Fund and its service providers, systems, networks, or devices potentially can be breached. The Fund and its shareholders could be negatively impacted as a result of a cybersecurity breach.

Cybersecurity breaches can include unauthorized access to systems, networks, or devices; infection from computer viruses or other malicious software code; and attacks that shut down, disable, slow, or otherwise disrupt operations, business processes, or website access or functionality. Cybersecurity breaches may cause disruptions and impact the Fund's business operations, potentially resulting in financial losses; interference with the Fund's ability to calculate its NAV; impediments to trading; the inability of the Fund, the adviser, and other service providers to transact business; violations of applicable privacy and other laws; regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs; as well as the inadvertent release of confidential information.

Similar adverse consequences could result from cybersecurity breaches affecting issuers of securities in which the Fund invests; counterparties with which the Fund engages in transactions; governmental and other regulatory authorities; exchange and other financial market operators, banks, brokers, dealers, insurance companies, and other financial institutions (including financial intermediaries and service providers for the Fund's shareholders); and other parties. In addition, substantial costs may be incurred by these entities in order to prevent any cybersecurity breaches in the future.

MANAGEMENT

INVESTMENT ADVISER: Simplify Asset Management Inc., located at 10845 Griffith Peak Drive, 2/F, Las Vegas, NV 89135, serves as the Fund's investment adviser (the "Adviser" or "SAMI"). The Adviser is registered with the SEC as an investment adviser under the Investment Advisers Act of 1940, as amended, and manages the other series in the Trust.

Subject to the oversight of the Board, the Adviser provides or oversees the provision of investment advisory, portfolio management and administrative services to the Fund pursuant to an advisory agreement between the Fund and the Adviser.

The Fund pays the Adviser a monthly management fee at an annual rate of 0.20% of the average daily net assets of the Fund. The management agreement between the Fund and the Adviser provides that the Adviser pays substantially all operating expenses of the Fund, excluding interest expenses, taxes, brokerage expenses, Rule 12b-1 fees (if any), acquired fund fees and expenses, expenses incidental to a meeting of the Fund's shareholders and the management fee. In addition to the excluded operating expenses, the Fund also pays non-operating expenses such as litigation and indemnification expenses and other expenses determined to be extraordinary by the Trust.

A discussion regarding the basis for the Board's approval of the management agreement will be included in the Fund's next available Form N-CSR.

PORTFOLIO MANAGERS

David Berns, PhD, is the Chief Investment Officer and co-founder of the Adviser. Prior to co-founding the Adviser in 2020, he founded Portfolio Designer, LLC, a company that specializes in portfolio design and from 2018 to 2019 was a managing director at Nasdaq Dorsey Wright. Prior to joining Nasdaq Dorsey Wright, Inc., he founded and developed a company that specializes in proprietary trading. He has specialized in developing asset allocation, portfolio management, and risk management systems for managing private and institutional wealth. Dr. Berns has a PhD in Physics from the Massachusetts Institute of Technology in the field of Quantum Computation.

Ken Miller is a Managing Director and Portfolio Manager of the Adviser. Prior to joining the Adviser in June 2021, Mr. Miller was a Portfolio Manager at Longtail Alpha where he formulated both absolute return strategies for unconstrained accounts and tail-risk hedge solutions to add alpha versus passive hedge benchmarks. Prior to Longtail Alpha, LLC service from 2018 to 2021, Mr. Miller was an Executive Vice President at PIMCO from 2000 to 2018, where he managed G10 bond portfolios and traded equity, fixed income, and FX derivatives across the firm's accounts. Mr. Miller holds a Bachelor's degree in Applied Mathematics from UC Berkeley and a Master of Business Administration from the Marshall School at the University of Southern California.

Paisley Nardini is a Portfolio Manager and Asset Allocation Strategist at the Adviser, focusing on product innovation, thought leadership, and portfolio management. She has served in these roles since September 2024. Before joining the Adviser, she was a client portfolio manager (December 2023 to July 2024) and strategist (March 2020 to December 2023) at Invesco's Multi-Asset Solutions team. She also managed short-duration fixed income portfolios at Wells Capital and served as an institutional account manager at PIMCO. Ms. Nardini holds a BBA in financial markets from the University of Minnesota – Duluth, is a CFA charterholder, and a CAIA professional. She is also president of the CFA Society Orange County and serves on the investment committee for Second Harvest Food Bank of Orange County.

Messrs. Berns, Miller, and Ms. Nardini are jointly and primarily responsible for the management of the Fund.

The SAI provides additional information about the Portfolio Managers' compensation, other accounts managed and ownership of Fund shares.

HOW SHARES ARE PRICED

The NAV of the Fund is determined at the close of regular trading (normally 4:00 p.m. Eastern Time) on each day the Exchange is open for business. NAV is computed by determining, the aggregate market value of all assets of the Fund, less its liabilities, divided by the total number of shares outstanding ((assets-liabilities)/number of shares = NAV). The Exchange is closed on weekends and New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Juneteenth Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day ("Exchange Close"). The NAV takes into account, the expenses and fees of the Fund, including management, administration, and distribution fees, which are accrued daily. The determination of NAV for the Fund for a particular day is applicable to all applications for the purchase of shares, as well as all requests for the redemption of Creation Units, received by the Fund (or an authorized broker or agent, or its authorized designee) before the close of trading on the Exchange on that day.

Generally, the Fund's portfolio securities, including securities issued by ETFs, are valued each day at the last quoted sales price on each security's primary exchange. Securities traded or dealt in upon one or more securities exchanges (whether domestic or foreign) for which market quotations are readily available and not subject to restrictions against resale shall be valued at the last quoted sales price on the primary exchange or, in the absence of a sale on the primary exchange, at the mean between the current bid and ask prices on such exchange. Securities primarily traded in the National Association of Securities Dealers' Automated Quotation System ("NASDAQ") National Market System for which market quotations are readily available shall be valued using the NASDAQ Official Closing Price. Securities that are not traded on any securities exchange (whether domestic or foreign) and for which over-the-counter market quotations are readily available generally shall be valued at the last sale price or, in the absence of a sale, at the mean between the current bid and ask price on such over-the-counter market. Debt securities not traded on an exchange may be valued at prices supplied by a pricing agent(s) based on broker or dealer supplied valuations or matrix pricing, a method of valuing securities by reference to the value of other securities with similar characteristics, such as rating, interest rate and maturity.

If market quotations are not readily available, securities will be valued at their fair market value as determined using the “fair value” procedures approved by the Board. Fair value pricing involves subjective judgments and it is possible that the fair value determined for a security may be materially different than the value that could be realized upon the sale of that security. The fair value prices can differ from market prices when they become available or when a price becomes available. The Board has delegated execution of these procedures to a fair value committee composed of one or more representatives from the Adviser. The Adviser may enlist third party consultants such as an audit firm or financial officer of a security issuer on an as-needed basis to assist in determining a security-specific fair value. The Board reviews and ratifies the execution of this process and the resultant fair value prices at least quarterly to assure the process produces reliable results.

The Fund may use independent pricing services to assist in calculating the value of the Fund’s portfolio securities. In addition, market prices for foreign securities are not determined at the same time of day as the NAV for the Fund.

In computing the NAV, the Fund values foreign securities held by the Fund at the latest closing price on the exchange in which it is traded immediately prior to closing of the Exchange. Prices of foreign securities quoted in foreign currencies are translated into U.S. dollars at current rates. If events materially affecting the value of a security in the Fund’s portfolio, particularly foreign securities, occur after the close of trading on a foreign market but before the Fund prices its shares, the security will be valued at fair value. For example, if trading in a portfolio security is halted and does not resume before the Fund calculates its NAV, the Adviser may need to price the security using the Fund’s fair value pricing guidelines. Without a fair value price, short-term traders could take advantage of the arbitrage opportunity and dilute the NAV of long-term investors. Fair valuation of the Fund’s portfolio securities can serve to reduce arbitrage opportunities available to short-term traders, but there is no assurance that fair value pricing policies will prevent dilution of the Fund’s NAV by short term traders. The determination of fair value involves subjective judgments. As a result, using fair value to price a security may result in a price materially different from the prices used by other mutual funds to determine NAV, or from the price that may be realized upon the actual sale of the security.

HOW TO BUY AND SELL SHARES

Shares of the Fund are listed for trading on the NYSE Arca, Inc. Share prices are reported in dollars and cents per Share. Shares can be bought and sold on the secondary market throughout the trading day like other publicly traded shares, and Shares typically trade in blocks of less than a Creation Unit. There is no minimum investment required. Shares may only be purchased and sold on the secondary market when the Exchange is open for trading. The Exchange is open for trading Monday through Friday and is closed on weekends and the following holidays, as observed: New Year’s Day, Martin Luther King, Jr. Day, Presidents’ Day, Good Friday, Memorial Day, Juneteenth Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

When buying or selling Shares through a broker, you will incur customary brokerage commissions and charges, and you may pay some or all of the spread between the bid and the offered price in the secondary market on each leg of a round trip (purchase and sale) transaction.

Authorized Participants that have entered into a contract with the Fund’s distributor may acquire Shares from the Fund, and Authorized Participants may tender their Shares for redemption directly to the Fund, at NAV per Share only in large blocks, or Creation Units, of 25,000 Shares. Purchases and redemptions directly with the Fund must follow the Fund’s procedures, which are described in the SAI.

The Fund may be liquidated and terminated at any time without shareholder approval.

Share Trading Prices

The approximate value of Shares, an amount representing on a per share basis the sum of the current market price of the securities accepted by the Fund in exchange for Shares and an estimated cash component, will be disseminated every 15 seconds throughout the trading day through the facilities of the Consolidated Tape Association. This approximate value should not be viewed as a “real-time” update of the NAV per Share because the approximate value may not be calculated in the same manner as the NAV, which is computed once a day, generally at the end of the business day. The Fund is not involved in, or responsible for, the calculation or dissemination of the approximate value of the Shares, and the Fund does not make any warranty as to the accuracy of these values.

Book Entry

Shares are held in book entry form, which means that no stock certificates are issued. The Depository Trust Company (“DTC”) or its nominee is the record owner of all outstanding Shares and is recognized as the owner of all Shares for all purposes.

Investors owning Shares are beneficial owners as shown on the records of DTC or its participants. DTC serves as the securities depository for all Shares. Participants in DTC include securities brokers and dealers, banks, trust companies, clearing corporations and other institutions that directly or indirectly maintain a custodial relationship with DTC. As a beneficial owner of Shares, you are not entitled to receive physical delivery of stock certificates or to have Shares registered in your name, and you are not considered a registered owner of Shares. Therefore, to exercise any right as an owner of Shares, you must rely upon the procedures of DTC and its participants. These procedures are the same as those that apply to any other securities that you hold in book entry or “street name” form.

FREQUENT PURCHASES AND REDEMPTIONS OF FUND SHARES

Shares can only be purchased and redeemed directly from the Fund in Creation Units by Authorized Participants that have entered into a contract with the Fund’s distributor. The vast majority of trading in Shares occurs on the secondary market. Because the secondary market trades do not directly involve the Fund, it is unlikely those trades would cause the harmful effects of market timing, including dilution, disruption of portfolio management, increases in the Fund’s trading costs and the realization of capital gains. With regard to the purchase or redemption of Creation Units directly with the Fund, to the extent effected in-kind (*i.e.*, for securities), those trades do not cause the harmful effects that may result from frequent cash trades. To the extent trades are effected in whole or in part in cash, those trades could result in dilution to the Fund and increased transaction costs, which could negatively impact the Fund’s ability to achieve its investment objective. However, direct trading by Authorized Participants is critical to ensuring that Shares trade at or close to NAV. The Fund also employs fair valuation pricing to minimize potential dilution from market timing. In addition, the Fund imposes transaction fees on purchases and redemptions of Shares to cover the custodial and other costs incurred by the Fund in effecting trades. These fees increase if an investor substitutes cash in part or in whole for securities, reflecting the fact that a Fund’s trading costs increase in those circumstances. Given this structure, the Trust has determined that it is not necessary to adopt policies and procedures to detect and deter market timing of the Shares.

DISTRIBUTION AND SERVICE PLAN

The Fund has adopted a distribution and service plan (“Plan”) pursuant to Rule 12b-1 under the 1940 Act. Under the Plan, the Fund is authorized to pay distribution fees to the distributor and other firms that provide distribution and shareholder services (“Service Providers”). If a Service Provider provides these services, the Fund may pay fees at an annual rate not to exceed 0.25% of average daily net assets, pursuant to Rule 12b-1 under the 1940 Act.

No distribution or service fees are currently paid by the Fund and will not be paid by the Fund unless authorized by the Trust’s Board. There are no current plans to impose these fees. In the event Rule 12b-1 fees were charged, over time they would increase the cost of an investment in the Fund.

DIVIDENDS, OTHER DISTRIBUTIONS AND TAXES

Shares are traded throughout the day in the secondary market on a national securities exchange on an intra-day basis and are created and redeemed in-kind and/or for cash in Creation Units at each day's next calculated NAV. In-kind arrangements are designed to protect ongoing shareholders from the adverse effects on the Fund's portfolio that could arise from frequent cash redemption transactions. In a conventional mutual fund, redemptions can have an adverse tax impact on taxable shareholders if the mutual fund needs to sell portfolio securities to obtain cash to meet net fund redemptions. These sales may generate taxable gains for the ongoing shareholders of the mutual fund, whereas the Shares' in-kind redemption mechanism generally will not lead to a tax event for the Fund or its ongoing shareholders.

Ordinarily, dividends from net investment income, if any, are declared and paid quarterly by the Fund. The Fund distributes its net realized capital gains, if any, to shareholders annually. The Fund may also pay a special distribution at the end of a calendar year to comply with federal tax requirements.

No dividend reinvestment service is provided by the Fund. Broker-dealers may make available the DTC book-entry Dividend Reinvestment Service for use by beneficial owners of the Fund for reinvestment of their dividend distributions. Beneficial owners should contact their broker to determine the availability and costs of the service and the details of participation therein. Brokers may require beneficial owners to adhere to specific procedures and timetables. If this service is available and used, dividend distributions of both income and realized gains will be automatically reinvested in additional whole shares of the Fund purchased in the secondary market.

Distributions in cash may be reinvested automatically in additional whole Shares only if the broker through whom you purchased Shares makes such option available.

Taxes

As with any investment, you should consider how your investment in Shares will be taxed. The tax information in this Prospectus is provided as general information. You should consult your own tax professional about the tax consequences of an investment in Shares.

Unless your investment in Shares is made through a tax-exempt entity or tax-deferred retirement account, such as an individual retirement account, you need to be aware of the possible tax consequences when:

- The Fund makes distributions,
- You sell your Shares listed on the Exchange, and
- You purchase or redeem Creation Units.

Taxes on Distributions

Distributions from the Fund's net investment income, including net short-term capital gains, if any, are taxable to you as ordinary income, except that the Fund's dividends attributable to its "qualified dividend income" (*i.e.*, dividends received on stock of most domestic and certain foreign corporations with respect to which the Fund satisfies certain holding period and other restrictions), if any, generally are subject to federal income tax for non-corporate shareholders who satisfy those restrictions with respect to their Shares at the rate for net capital gain. A part of the Fund's dividends also may be eligible for the dividends-received deduction allowed to corporations — the eligible portion may not exceed the aggregate dividends the Fund receives from domestic corporations subject to federal income tax (excluding Real Estate Investment Trusts) and excludes dividends from foreign corporations — subject to similar restrictions. However, dividends a corporate shareholder deducts pursuant to that deduction are subject indirectly to the federal alternative minimum tax.

In general, your distributions are subject to federal income tax when they are paid, whether you take them in cash or reinvest them in the Fund (if that option is available). Distributions reinvested in additional Shares through the means of a dividend reinvestment service, if available, will be taxable to shareholders acquiring the additional Shares to the same extent as if such distributions had been received in cash. Distributions of net long-term capital gains, if any, in excess of net short-term capital losses are taxable as long-term capital gains, regardless of how long you have held the Shares.

Distributions in excess of the Fund's current and accumulated earnings and profits are treated as a tax-free return of capital to the extent of your basis in the Shares and as capital gain thereafter. A distribution will reduce the Fund's NAV per Share and may be taxable to you as ordinary income or capital gain (as described above) even though, from an investment standpoint, the distribution may constitute a return of capital.

By law, the Fund is required to withhold 28% of your distributions and redemption proceeds if you have not provided the Fund with a correct Social Security number or other taxpayer identification number and in certain other situations.

Taxes on Exchange-Listed Share Sales

Any capital gain or loss realized upon a sale of Shares is generally treated as long-term capital gain or loss if the Shares have been held for more than one year and as short-term capital gain or loss if the Shares have been held for one year or less. The ability to deduct capital losses from sales of Shares may be limited.

Taxes on Purchase and Redemption of Creation Units

An Authorized Participant who exchanges securities for Creation Units generally will recognize a gain or a loss equal to the difference between the market value of the Creation Units at the time of the exchange and the sum of the exchanger's aggregate basis in the securities surrendered plus any Cash Component it pays. An AP who exchanges Creation Units for securities will generally recognize a gain or loss equal to the difference between the exchanger's basis in the Creation Units and the sum of the aggregate market value of the securities received plus any cash equal to the difference between the NAV of the Shares being redeemed and the value of the securities. The Internal Revenue Service ("Service"), however, may assert that a loss realized upon an exchange of securities for Creation Units cannot be deducted currently under the rules governing "wash sales" or for other reasons. Persons exchanging securities should consult their own tax advisor with respect to whether wash sale rules apply and when a loss might be deductible.

Any capital gain or loss realized upon redemption of Creation Units is generally treated as long-term capital gain or loss if the Shares have been held for more than one year and as short-term capital gain or loss if the Shares have been held for one year or less.

If you purchase or redeem Creation Units, you will be sent a confirmation statement showing how many Shares you purchased or sold and at what price. See "Tax Status" in the SAI for a description of the newly effective requirement regarding basis determination methods applicable to Share redemptions and the Fund's obligation to report basis information to the Service.

The foregoing discussion summarizes some of the possible consequences under current federal tax law of an investment in the Fund. It is not a substitute for personal tax advice. Consult your personal tax advisor about the potential tax consequences of an investment in the Shares under all applicable tax laws. See "Tax Status" in the SAI for more information.

FUND SERVICE PROVIDERS

Bank of New York Mellon is the Fund's administrator, transfer agent, custodian and fund accountant. It has its principal office at 240 Greenwich St., New York, NY 10286, and is primarily in the business of providing administrative, fund accounting and transfer agent services to retail and institutional mutual funds.

Foreside Financial Services, LLC (the "Distributor"), located at Three Canal Plaza, Suite 100, Portland, ME 04101, is the distributor for the shares of the Fund. The Distributor is a registered broker-dealer and member of the Financial Industry Regulatory Authority, Inc. ("FINRA").

Thompson Hine LLP, 41 South High Street, 17th Floor, Columbus, OH 43215, serves as legal counsel to the Trust.

Cohen & Company, Ltd., 1350 Euclid Ave., Suite 800, Cleveland, OH 44115, serves as the Fund's independent registered public accounting firm. The independent registered public accounting firm is responsible for auditing the annual financial statements of the Fund.

OTHER INFORMATION

Continuous Offering

The method by which Creation Units of Shares are created and traded may raise certain issues under applicable securities laws. Because new Creation Units of Shares are issued and sold by the Fund on an ongoing basis, a “distribution,” as such term is used in the Securities Act of 1933, as amended (the “Securities Act”), may occur at any point. Broker-dealers and other persons are cautioned that some activities on their part may, depending on the circumstances, result in their being deemed participants in a distribution in a manner which could render them statutory underwriters and subject them to the prospectus delivery requirement and liability provisions of the Securities Act.

For example, a broker-dealer firm or its client may be deemed a statutory underwriter if it takes Creation Units after placing an order with the Distributor, breaks them down into constituent Shares and sells the Shares directly to customers or if it chooses to couple the creation of a supply of new Shares with an active selling effort involving solicitation of secondary market demand for Shares. A determination of whether one is an underwriter for purposes of the Securities Act must take into account all the facts and circumstances pertaining to the activities of the broker-dealer or its client in the particular case, and the examples mentioned above should not be considered a complete description of all the activities that could lead to a characterization as an underwriter.

Broker dealers who are not “underwriters” but are participating in a distribution (as contrasted to ordinary secondary trading transactions), and thus dealing with Shares that are part of an “unsold allotment” within the meaning of Section 4(3)(C) of the Securities Act, would be unable to take advantage of the prospectus delivery exemption provided by Section 4(3) of the Securities Act. This is because the prospectus delivery exemption in Section 4(3) of the Securities Act is not available in respect of such transactions as a result of Section 24(d) of the 1940 Act. As a result, broker dealer firms should note that dealers who are not underwriters but are participating in a distribution (as contrasted with ordinary secondary market transactions) and thus dealing with Shares that are part of an overallotment within the meaning of Section 4(3)(A) of the Securities Act would be unable to take advantage of the prospectus delivery exemption provided by Section 4(3) of the Securities Act. Firms that incur a prospectus delivery obligation with respect to Shares are reminded that, under Rule 153 of the Securities Act, a prospectus delivery obligation under Section 5(b)(2) of the Securities Act owed to an exchange member in connection with a sale on the Exchange is satisfied by the fact that the prospectus is available at the Exchange upon request. The prospectus delivery mechanism provided in Rule 153 is only available with respect to transactions on an exchange.

Dealers effecting transactions in the Shares, whether or not participating in this distribution, are generally required to deliver a Prospectus. This is in addition to any obligation of dealers to deliver a Prospectus when acting as underwriters.

Certain Conditions on Certain Shareholder Legal Actions

Pursuant to the Trust’s primary governing document, the Agreement and Declaration of Trust, shareholders wishing to pursue a derivative action (a suit brought by a shareholder on behalf of a Fund) are subject to various conditions including: (i) Trustees must have a reasonable amount of time to assess a request for action, (ii) at least 10% of shareholders must participate in the action, and (iii) expenses of a failed action are borne by the complaining shareholders. However, condition (iii) does not apply to actions brought under federal securities laws.

CONSOLIDATED FINANCIAL HIGHLIGHTS

Because the Fund has only recently commenced investment operations, no consolidated financial highlights are available for the Fund at this time. In the future, consolidated financial highlights will be presented in this section of the Prospectus.

DISCLAIMERS

Société Générale reserves all proprietary and intellectual property rights herein and in the Index rules.

The Index methodology is expected to be updated and revised from time to time as deemed advisable by Société Générale acting in its capacity as Index sponsor, pursuant to legal developments and/or for technical improvement or to cure ambiguities, errors and omissions.

Société Générale does not guarantee the accuracy and/or the completeness of the composition, calculation, dissemination or the adjustment of the Index, nor of any data included therein; it makes no warranty, whether, express or implied relating to (i) the merchantability or fitness for a particular purpose of the Index; or (ii) the results of the use of the Index or any data included therein. Subject to applicable law, Société Générale shall have no liability for any losses, damages, costs or expenses (including loss of profits) arising, directly or indirectly, from the use by any other person of the Index or any data included therein, or from any errors, omissions, interruptions or delays relating to such Index.

The levels of the Index do not represent a valuation or a price for any product referencing such Index. The use of the Index by any other person, without the express consent of Société Générale, is prohibited.

THE FUND

The Fund is a series of Simplify Exchange Traded Funds, a Delaware statutory trust organized on February 28, 2020 (the “Trust”). The Trust is registered as an open-end management investment company. The Trust is governed by its Board of Trustees (the “Board” or “Trustees”). The Simplify DBi CTA Managed Futures Index ETF is a non-diversified series of the Trust.

The Fund may issue an unlimited number of shares of beneficial interest (“Shares”). All Shares have equal rights and privileges. Each Share is entitled to one vote on all matters as to which Shares are entitled to vote. In addition, each Share is entitled to participate equally with other Shares (i) in dividends and distributions declared by the Fund and (ii) on liquidation to its proportionate share of the assets remaining after satisfaction of outstanding liabilities. Shares are fully paid, non-assessable and fully transferable when issued and have no pre-emptive, conversion or exchange rights.

The Fund is managed by Simplify Asset Management Inc. (the “Adviser”). The Fund seeks long-term capital appreciation. The Board may start other series and offer shares of a new fund under the Trust at any time.

The Fund is an exchange traded fund (“ETF”). ETFs are registered open-end management companies that issue (and redeem) creation units (“Creation Units”) to (and from) authorized participants (“Authorized Participants”) in exchange for a basket and a cash balancing amount (if any) and the shares of which are listed on a national securities exchange and traded at market-determined prices. An Authorized Participant is a financial institution that is a member or participant of a clearing agency registered with the Securities and Exchange Commission (“SEC”) which has a written agreement with the Fund or one of its service providers that allows the financial institution to place orders for the purchase and redemption of Creation Units. The Fund issues and redeems shares on a continuous basis at net asset value per share (“NAV”) in aggregations of a specified number of shares called “Creation Units.” Creation Units are a specified number of the Fund’s shares (e.g., 25,000 or 10,000) that the Fund will issue to (or redeem from) an Authorized Participant in exchange for the deposit (or delivery) of a basket and a cash balancing amount if any. Shares trade in the secondary market at market prices that may differ from the shares’ NAV. Shares are not individually redeemable, but are redeemable only in Creation Unit aggregations, and generally in exchange for portfolio securities and a specified cash payment. A Creation Unit of the Fund consists of a block of 10,000 shares. Shareholders who are not Authorized Participants will not be able to purchase or redeem shares directly with or from the Fund.

The Fund reserves the right to offer creations and redemptions of Shares for cash. In addition, Shares may be issued in advance of receipt of deposit securities subject to various conditions, including a requirement to maintain on deposit with the Trust cash equal to up to 115% of the market value of the missing deposit securities. In each instance of such cash creations or redemptions, transaction fees, may be imposed and may be higher than the transaction fees associated with in-kind creations or redemptions. See PURCHASE, REDEMPTION AND PRICING OF SHARES below.

Exchange Listing and Trading

There can be no assurance that the requirements of the NYSE Arca, Inc. (the “Arca Exchange”) necessary to maintain the listing of shares of the Fund will continue to be met. The Arca Exchange may, but is not required to, remove the shares of the Fund from listing if, among other things: (i) following the initial 12-month period beginning upon the commencement of trading of Fund shares, there are fewer than 50 record and/or beneficial owners of shares of the Fund for 30 or more consecutive trading days, or (ii) any other event shall occur or condition shall exist that, in the opinion of the Arca Exchange, makes further dealings on the Arca Exchange inadvisable. The Arca Exchange will also remove shares of the Fund from listing and trading upon termination of the Fund.

TYPES OF INVESTMENTS

A discussion of the risks associated with an investment in the Fund is contained in the Prospectus under the headings “Fund Summary — Principal Investment Strategies” with respect to the Fund, and “Additional Information About the Principal Investment Strategies and Risks.” The discussion below supplements, and should be read in conjunction with, such sections of the Prospectus.

General Risks and Considerations

An investment in the Fund should be made with an understanding of the risks inherent in an investment in securities, including the risk that the general condition of the securities market may deteriorate. Securities are susceptible to general securities market fluctuations and to volatile increases and decreases in value as market confidence change. These investor perceptions are based on various and unpredictable factors, including expectations regarding government, economic, monetary and fiscal policies, inflation and interest rates, economic expansion or contraction, and global or regional political, economic or banking crises.

The existence of a liquid trading market for certain securities may depend on whether dealers will make a market in such securities. There can be no assurance that a market will be made or maintained or that any such market will be or remain liquid. The price at which securities may be sold and the value of the Shares will be adversely affected if trading markets for the Fund’s portfolio securities are limited or absent, or if bid/ask spreads are wide.

Securities of Other Investment Companies

Investments in closed-end investment companies, exchange traded funds and mutual funds involve certain additional expenses and certain tax results, which would not be present in a direct investment in such funds. The Fund intends to limit its investments in accordance with Section 12(d)(1) of the Investment Company Act of 1940 (the “1940 Act”) or as permitted by Rule 12d1-1, Rule 12d1-3 and Rule 12d1-4. Among other things, Section 12(d)(1) would limit these investments so that, as determined immediately after a securities purchase is made by the Fund: (a) not more than 5% of the value of its total assets will be invested in the securities of any one investment company (the “5% Limitation”); (b) not more than 10% of the value of its total assets will be invested in the aggregate in securities of investment companies as a group (the “10% Limitation”); (c) not more than 3% of the outstanding voting stock of any one investment company will be owned by the Fund (the 3% Limitation”); and (d) not more than 10% of the outstanding voting stock of any one closed-end investment company will be owned by the Fund together with all other investment companies that have the same adviser. Under certain sets of conditions, different sets of restrictions may be applicable. The Adviser is subject to an indirect conflict of interest in allocating a Fund’s assets to an affiliated ETF because the Adviser receives management fees on the affiliated ETF. As a shareholder of another investment company, the Fund would bear, along with other shareholders, its pro rata portion of that investment company’s expenses, including advisory fees. These expenses would be in addition to the advisory and other expenses that the Funds bears directly in connection with its own operations. Investment companies in which the Fund may invest may also impose a sales or distribution charge in connection with the purchase or redemption of their Shares and other types of commissions or charges. Such charges will be payable by the Fund and, therefore, will be borne directly by Shareholders.

The Fund also intend to rely on Section 12(d)(1)(F) under the 1940 Act which in conjunction with one another allow registered investment companies (such as the Fund) to exceed the 5% and 10% Limitations, provided the aggregate sales loads any investor pays (i.e., the combined distribution expenses of both the acquiring fund and the acquired funds) does not exceed the limits on sales loads established by Financial Industry Regulatory Authority (“FINRA”) for funds of funds, and the registered investment company “mirror votes” any securities purchased pursuant to Section 12(d)(1)(F). The Fund may rely on Rule 12d1-4 to exceed the 3%, 5%, and 10% Limitations, subject to the conditions of Rule 12d1-4.

Investments in ETFs and mutual funds involve certain additional expenses and certain tax results, which would not be present in a direct investment in such funds. Due to legal limitations the Fund will be prevented from: (1) purchasing more than 3% of an investment company's (including ETFs) outstanding shares; (2) investing more than 5% of the Fund's assets in any single such investment company, and (3) investing more than 10% of the Fund's assets in investment companies overall; unless: (i) the underlying investment company and/or the Fund has received an order for exemptive relief from such limitations from the SEC; and (ii) the underlying investment company and the Fund take appropriate steps to comply with any conditions in such order. In the alternative, the Fund may rely on Section 12(d)(1)(F) and Rule 12d1-3, which allows unaffiliated mutual funds to exceed the 5% limitation and the 10% limitation, provided the aggregate sales loads any investor pays (i.e., the combined distribution expenses of both the acquiring fund and the acquired fund) does not exceed the limits on sales loads established by FINRA for funds of funds. In addition to ETFs, the Fund may invest in other investment companies such as open-end mutual funds or exchange-traded funds, within the limitations described above. Each investment company is subject to specific risks, depending on the nature of the Fund. ETFs and mutual funds may employ leverage, which magnifies the changes in the underlying stock or other index upon which they are based. The Fund may also rely upon Rule 12d1-4 which under certain circumstances allows the Fund to exceed the 3%, 5%, and 10% limitations described above.

Business Development Companies ("BDCs")

To qualify as a BDC, a company must be organized under the laws of, and have its principal place of business in, the United States, be registered with the Securities and Exchange Commission and have elected to be regulated as a BDC under the Investment Company Act of 1940 (the "1940 Act"). BDCs are a type of closed-end fund regulated under the 1940 Act, which typically invest in and lend to small-and medium-sized private companies that may lack access to public equity markets for capital raising or thinly traded U.S. public companies. Under the 1940 Act, BDCs must invest at least 70% of the value of their total assets in certain asset types, which are typically the securities of private U.S. businesses. Additionally, BDCs must make available significant managerial assistance to the issuers of such securities. BDCs are not taxed on income distributed to shareholders provided they qualify as a regulated investment company under the Internal Revenue Code of 1986, as amended (the "Code"). The Fund will indirectly bear their proportionate share of any management and other expenses charged by the BDCs in which it invests.

Risk of Investing in BDCs

Because BDCs typically invest in small and medium-sized companies, a BDC's portfolio is subject to the risks inherent in investing in smaller companies, including that portfolio companies may be dependent on a small number of products or services and may be more adversely affected by poor economic or market conditions. Some BDCs invest substantially, or even exclusively, in one sector or industry group and therefore the BDC may be susceptible to adverse conditions and economic or regulatory occurrences affecting the sector or industry group, which tends to increase volatility and result in higher risk. Investments in BDCs are also subject to management risk, including management's ability to meet the BDC's investment objective, and management's ability to manage the BDC's portfolio during periods of market turmoil and as investors' perceptions regarding a BDC or its underlying investments change.

BDCs generally invest in less mature U.S. private companies or thinly traded U.S. public companies which involve greater risk than well-established publicly-traded companies. The Fund will indirectly bear its proportionate share of any management fees and other operating expenses incurred by the BDCs and of any performance-based or incentive fees payable by the BDCs in which it invests, in addition to the expenses paid by the Fund. A BDC's incentive fee may be very high, vary from year to year and be payable even if the value of the BDC's portfolio declines in a given time period. Incentive fees may create an incentive for a BDC's manager to make investments that are risky or more speculative than would be the case in the absence of such compensation arrangements, and may also encourage the BDC's manager to use leverage to increase the return on the BDC's investments. Any incentive fee payable by a BDC that relates to its net investment income may be computed and paid on income that may include interest that has been accrued but not yet received. If a portfolio company defaults on a loan that is structured to provide accrued interest income, it is possible that accrued interest income previously included in the calculation of the incentive fee will become

uncollectible. A BDC's manager may not be obligated to reimburse the BDC's shareholder for any part of the incentive fee it received that was based on accrued interest income that was never received as a result of a subsequent default, and such circumstances would result in the BDC's shareholders (including the Fund) paying an incentive fee on income that was never received by the BDC. Such incentive fees may also create an incentive for a BDC's manager to make investments in securities with deferred interest features. The use of leverage by BDCs magnifies gains and losses on amounts invested and increases the risks associated with investing in BDCs. A BDC may make investments with a larger amount of risk of volatility and loss of principal than other investment options and may also be highly speculative and aggressive.

Additionally, a BDC may only incur indebtedness in amounts such that the BDC's asset coverage ratio of total assets to total senior securities equals at least 150% after such incurrence. These limitations on asset mix and leverage may affect the way that the BDC raises capital. BDCs compete with other entities for the types of investments they make, and such entities are not necessarily subject to the same investment constraints as BDCs.

To comply with provisions of the 1940 Act and Securities and Exchange Commission regulations thereunder, the Adviser may be required to vote BDC shares in the same general proportion as shares held by other shareholders of the BDC.

To qualify and remain eligible for the special tax treatment accorded to regulated investment companies and their shareholders under the Code, the BDCs in which the Fund invests must meet certain source-of-income, asset diversification and annual distribution requirements. If a BDC in which the Fund invests fails to qualify as a regulated investment company, such BDC would be liable for federal, and possibly state, corporate taxes on its taxable income and gains. Such failure by a BDC could substantially reduce the BDC's net assets and the amount of income available for distribution to the Fund, which would in turn decrease the total return of the Fund.

Open-End Investment Companies

The Fund and any "affiliated persons," as defined by the 1940 Act may purchase in the aggregate only up to 3% of the total outstanding securities of any underlying fund. Accordingly, when affiliated persons hold shares of any of the underlying fund, the Fund's ability, respectively, to invest fully in shares of those funds is restricted, and the Adviser must then, in some instances, select alternative investments that would not have been its first preference. The 1940 Act also provides that an underlying fund whose shares are purchased by the Fund will be obligated to redeem shares held by the Fund only in an amount up to 1% of the underlying fund's outstanding securities during any period of less than 30 days. Shares in excess of 1% of an underlying fund's outstanding securities therefore, will be considered not readily marketable securities, which, together with other such securities, may not exceed 15% of the Fund's total assets.

Under certain circumstances an underlying fund may determine to make payment of a redemption by the Fund wholly or partly by a distribution in kind of securities from its portfolio, in lieu of cash, in conformity with the rules of the SEC. In such cases, the Fund may hold securities distributed by an underlying fund until the Adviser determines that it is appropriate to dispose of such securities.

Investment decisions by the investment advisers of the underlying fund(s) are made independently of the Fund and the Adviser. Therefore, the investment adviser of one underlying fund may be purchasing shares of the same issuer whose shares are being sold by the investment adviser of another such fund. The result would be an indirect expense to the Fund without accomplishing any investment purpose.

Exchange Traded Funds

ETFs are often passive funds that track their related index and have the flexibility of trading like a security. They are managed by professionals and typically provide the investor with diversification, cost and tax efficiency, liquidity, marginability, are useful for hedging, have the ability to go long and short, and some provide quarterly dividends. Actively managed ETFs do not seek to track the performance of a particular market index. Additionally, some ETFs are unit investment trusts. Under certain circumstances, the Adviser may invest in ETFs, known as "inverse funds," which are designed to produce results opposite to market trends. Inverse ETFs are funds designed to rise in price when stock prices are falling.

ETFs have two markets. The primary market is where institutions swap “creation units” in block-multiples of, for example, 25,000 or 10,000 shares for in-kind securities and cash in the form of dividends. The secondary market is where individual investors can trade as little as a single share during trading hours on the exchange. This is different from open-ended mutual funds that are traded after hours once the NAV is calculated. ETFs share many similar risks with open-end and closed-end funds.

Closed-End Investment Companies

The Fund may invest its assets in closed-end investment companies (or “closed-end funds”), subject to the investment restrictions set forth above. Shares of closed-end funds are typically offered to the public in a one-time initial public offering by a group of underwriters who retain a spread or underwriting commission of between 4% or 6% of the initial public offering price. Such securities are then listed for trading on the NYSE Arca, Inc. the National Association of Securities Dealers Automated Quotation System (commonly known as “NASDAQ”) or, in some cases, may be traded in other over-the-counter markets. Because the shares of closed-end funds cannot be redeemed upon demand to the issuer like the shares of an open-end investment company (such as the Fund), investors seek to buy and sell shares of closed-end funds in the secondary market.

The Fund generally will purchase shares of closed-end funds only in the secondary market. The Fund will incur normal brokerage costs on such purchases similar to the expenses the Fund would incur for the purchase of securities of any other type of issuer in the secondary market. The Fund may, however, also purchase securities of a closed-end fund in an initial public offering when, in the opinion of the Adviser, based on a consideration of the nature of the closed-end fund’s proposed investments, the prevailing market conditions and the level of demand for such securities, they represent an attractive opportunity for growth of capital. The initial offering price typically will include a dealer spread, which may be higher than the applicable brokerage cost if the Fund purchased such securities in the secondary market.

The shares of many closed-end funds, after their initial public offering, frequently trade at a price per share, which is less than the net asset value per share, the difference representing the “market discount” of such shares. This market discount may be due in part to the investment objective of long-term appreciation, which is sought by many closed-end funds, as well as to the fact that the shares of closed-end funds are not redeemable by the holder upon demand to the issuer at the next determined net asset value but rather are subject to the principles of supply and demand in the secondary market. A relative lack of secondary market purchasers of closed-end fund shares also may contribute to such shares trading at a discount to their net asset value.

The Fund may invest in shares of closed-end funds that are trading at a discount to net asset value or at a premium to NAV. There can be no assurance that the market discount on shares of any closed-end fund purchased by the Fund will ever decrease. In fact, it is possible that this market discount may increase and the Fund may suffer realized or unrealized capital losses due to further decline in the market price of the securities of such closed-end funds, thereby adversely affecting the net asset value of the Fund’s shares. Similarly, there can be no assurance that any shares of a closed-end fund purchased by the Fund at a premium will continue to trade at a premium or that the premium will not decrease subsequent to a purchase of such shares by the Fund.

Closed-end funds may issue senior securities (including preferred stock and debt obligations) for the purpose of leveraging the closed-end fund’s common shares in an attempt to enhance the current return to such closed-end fund’s common shareholders. The Fund’s investment in the common shares of closed-end funds that are financially leveraged may create an opportunity for greater total return on its investment, but at the same time may be expected to exhibit more volatility in market price and net asset value than an investment in shares of investment companies without a leveraged capital structure.

Foreign Securities

Investing in securities of foreign companies and countries involves certain considerations and risks that are not typically associated with investing in U.S. government securities and securities of domestic companies. There may be less publicly available information about a foreign issuer than a domestic one, and foreign companies are not generally subject to uniform accounting, auditing and financial standards and requirements comparable to those applicable to U.S. companies. There may also be less government supervision and regulation of foreign securities exchanges, brokers and listed companies than exists in the United States. Interest and dividends paid by foreign issuers may be subject to withholding and other foreign taxes, which may decrease the net return on such investments as compared to dividends and interest paid to the Fund by domestic companies or the U.S. government. There may be the possibility of expropriations, seizure or nationalization of foreign deposits, confiscatory taxation, political, economic or social instability or diplomatic developments that could affect assets of the Fund held in foreign countries. Finally, the establishment of exchange controls or other foreign governmental laws or restrictions could adversely affect the payment of obligations.

To the extent currency exchange transactions do not fully protect the Fund against adverse changes in currency exchange rates, decreases in the value of currencies of the foreign countries in which the Fund will invest relative to the U.S. dollar will result in a corresponding decrease in the U.S. dollar value of the Fund's assets denominated in those currencies (and possibly a corresponding increase in the amount of securities required to be liquidated to meet distribution requirements). Conversely, increases in the value of currencies of the foreign countries in which the Fund invests relative to the U.S. dollar will result in a corresponding increase in the U.S. dollar value of the Fund's assets (and possibly a corresponding decrease in the amount of securities to be liquidated).

Short Sales

The Fund may sell securities short as an outright investment strategy and to offset potential declines in long positions in similar securities. A short sale is a transaction in which the Fund sells a security it does not own or have the right to acquire (or that it owns but does not wish to deliver) in anticipation that the market price of that security will decline.

When the Fund makes a short sale, the broker-dealer through which the short sale is made must borrow the security sold short and deliver it to the party purchasing the security. The Fund is required to make a margin deposit in connection with such short sales; the Fund may have to pay a fee to borrow particular securities and will often be obligated to pay over any dividends and accrued interest on borrowed securities.

If the price of the security sold short increases between the time of the short sale and the time the Fund covers its short position, the Fund will incur a loss; conversely, if the price declines, the Fund will realize a capital gain. Any gain will be decreased, and any loss increased, by the transaction costs described above. The successful use of short selling may be adversely affected by imperfect correlation between movements in the price of the security sold short and the securities being hedged.

To the extent the Fund sells securities short, it may provide collateral to the broker-dealer and (except in the case of short sales "against the box") may maintain additional asset coverage in the form of cash, U.S. government securities or other liquid securities with its custodian in a segregated account. A short sale is "against the box" to the extent the Fund contemporaneously owns, or has the right to obtain at no added cost, securities identical to those sold short.

Equity Stock

Equity securities include common stocks, preferred stocks, and securities convertible into common stocks, such as convertible securities, warrants, rights, and options. The value of equity securities varies in response to many factors, including the activities and financial condition of individual companies, the business market in which investment companies compete and general market and economic conditions. Equity securities fluctuate in value, often based on factors unrelated to the value of the issuer of the securities, and such fluctuations can be significant.

Common Stock

Common stock represents an equity (ownership) interest in a company, and usually possesses voting rights and earns dividends. Dividends on common stock are not fixed but are declared at the discretion of the issuer. Common stock generally represents the riskiest investment in a company. In addition, common stock generally has the greatest appreciation and depreciation potential because increases and decreases in earnings are usually reflected in a company's stock price.

Preferred Stock

Preferred stock is a class of stock having a preference over common stock as to the payment of dividends and the recovery of investment should a company be liquidated, although preferred stock is usually junior to the debt securities of the issuer. Preferred stock typically does not possess voting rights and its market value may change based on changes in interest rates.

A fundamental risk of investing in common and preferred stock is the risk that the value of the stock might decrease. Stock values fluctuate in response to the activities of an individual company or in response to general market and/or economic conditions. Historically, common stocks have provided greater long-term returns and have entailed greater short-term risks than preferred stocks, fixed-income securities and money market investments. The market value of all securities, including common and preferred stocks, is based upon the market's perception of value and not necessarily the book value of an issuer or other objective measures of a company's worth.

Convertible Securities

Convertible securities include fixed income securities that may be exchanged or converted into a predetermined number of shares of the issuer's underlying common stock at the option of the holder during a specified period. Convertible securities may take the form of convertible preferred stock, convertible bonds or debentures, units consisting of "usable" bonds and warrants or a combination of the features of several of these securities. Convertible securities are senior to common stocks in an issuer's capital structure, but are usually subordinated to similar non-convertible securities. While providing a fixed-income stream (generally higher in yield than the income derivable from common stock but lower than that afforded by a similar nonconvertible security), a convertible security also gives an investor the opportunity, through its conversion feature, to participate in the capital appreciation of the issuing company depending upon a market price advance in the convertible security's underlying common stock.

Bonds

A bond is an interest-bearing security issued by a U.S. or non-U.S. company, or U.S. or non-U.S. governmental unit. The issuer of a bond has a contractual obligation to pay interest at a stated rate on specific dates and to repay principal (the bond's face value) periodically or on a specified maturity date. Bonds generally are used by corporations and governments to borrow money from investors.

An issuer may have the right to redeem or "call" a bond before maturity, in which case the Fund may have to reinvest the proceeds at lower market rates. Similarly, the Fund may have to reinvest interest income or payments received when bonds mature, sometimes at lower market rates. Most bonds bear interest income at a "coupon" rate that is fixed for the life of the bond. The value of a fixed-rate bond usually rises when market interest rates fall, and falls when market interest rates rise. Accordingly, a fixed-rate bond's yield (income as a percent of the bond's current value) may differ from its coupon rate as its value rises or falls. When an investor purchases a fixed-rate bond at a price that is greater than its face value, the investor is purchasing the bond at a premium. Conversely, when an investor purchases a fixed-rate bond at a price that is less than its face value, the investor is purchasing the bond at a discount. Fixed-rate bonds that are purchased at a discount pay less current income than securities with comparable yields that are purchased at face value, with the result that prices for such fixed-rate securities can be more volatile than prices for such securities that are purchased at face value. Other types of bonds bear interest at an interest rate that is adjusted periodically. Interest rates on "floating rate" or "variable rate" bonds may be higher or lower than current market rates for fixed-rate bonds of comparable quality with similar final maturities.

Because of their adjustable interest rates, the value of “floating rate” or “variable rate” bonds fluctuates much less in response to market interest rate movements than the value of fixed-rate bonds, but their value may decline if their interest rates do not rise as much, or as quickly, as interest rates in general. The Fund may treat some of these bonds as having a shorter maturity for purposes of calculating the weighted average maturity of its investment portfolio. Generally, prices of higher quality issues tend to fluctuate less with changes in market interest rates than prices of lower quality issues and prices of longer maturity issues tend to fluctuate more than prices of shorter maturity issues. Bonds may be senior or subordinated obligations. Senior obligations generally have the first claim on a corporation’s earnings and assets and, in the event of liquidation, are paid before subordinated obligations. Bonds may be unsecured (backed only by the issuer’s general creditworthiness) or secured (backed by specified collateral).

Corporate Bonds

The investment return of corporate bonds reflects interest earned on the security and changes in the market value of the security. The market value of a corporate bond may be affected by changes in the market rate of interest, the credit rating of the corporation, the corporation’s performance and perceptions of the corporation in the marketplace. There is a risk that the issuers of the securities may not be able to meet their obligations on interest or principal payments at the time called for by an instrument.

Real Estate Investment Trusts

The Fund may invest in securities of real estate investment trusts (“REITs”). REITs are publicly traded corporations or trusts that specialize in acquiring, holding and managing residential, commercial or industrial real estate. A REIT is not taxed at the entity level on income distributed to its shareholders or unitholders if it distributes to shareholders or unitholders at least 95% of its taxable income for each taxable year and complies with regulatory requirements relating to its organization, ownership, assets and income.

REITs generally can be classified as “Equity REITs”, “Mortgage REITs” and “Hybrid REITs.” An Equity REIT invests the majority of its assets directly in real property and derives its income primarily from rents and from capital gains on real estate appreciation, which are realized through property sales. A Mortgage REIT invests the majority of its assets in real estate mortgage loans and services its income primarily from interest payments. A Hybrid REIT combines the characteristics of an Equity REIT and a Mortgage REIT. Although the Fund can invest in all three kinds of REITs, its emphasis is expected to be on investments in Equity REITs.

Investments in the real estate industry involve particular risks. The real estate industry has been subject to substantial fluctuations and declines on a local, regional and national basis in the past and may continue to be in the future. Real property values and income from real property continue to be in the future. Real property values and income from real property may decline due to general and local economic conditions, overbuilding and increased competition, increases in property taxes and operating expenses, changes in zoning laws, casualty or condemnation losses, regulatory limitations on rents, changes in neighborhoods and in demographics, increases in market interest rates, or other factors. Factors such as these may adversely affect companies that own and operate real estate directly, companies that lend to such companies, and companies that service the real estate industry.

Investments in REITs also involve risks. Equity REITs will be affected by changes in the values of and income from the properties they own, while Mortgage REITs may be affected by the credit quality of the mortgage loans they hold. In addition, REITs are dependent on specialized management skills and on their ability to generate cash flow for operating purposes and to make distributions to shareholders or unitholders. REITs may have limited diversification and are subject to risks associated with obtaining financing for real property, as well as to the risk of self-liquidation. REITs also can be adversely affected by their failure to qualify for tax-free pass-through treatment of their income under the Internal Revenue Code of 1986, as amended, or their failure to maintain an exemption from registration under the 1940 Act. By investing in REITs indirectly through the Fund, a shareholder bears not only a proportionate share of the expenses of the Fund, but also may indirectly bear similar expenses of some of the REITs in which it invests.

Warrants

Warrants are options to purchase common stock at a specific price (usually at a premium above the market value of the optioned common stock at issuance) valid for a specific period of time. Warrants may have a life ranging from less than one year to twenty years, or they may be perpetual. However, most warrants have expiration dates after which they are worthless. In addition, a warrant is worthless if the market price of the common stock does not exceed the warrant's exercise price during the life of the warrant. Warrants have no voting rights, pay no dividends, and have no rights with respect to the assets of the corporation issuing them. The percentage increase or decrease in the market price of the warrant may tend to be greater than the percentage increase or decrease in the market price of the optioned common stock.

Depository Receipts

Sponsored and unsponsored American Depositary Receipts ("ADRs"), are receipts issued by an American bank or trust company evidencing ownership of underlying securities issued by a foreign issuer. ADRs, in registered form, are designed for use in U.S. securities markets. Unsponsored ADRs may be created without the participation of the foreign issuer. Holders of these ADRs generally bear all the costs of the ADR facility, whereas foreign issuers typically bear certain costs in a sponsored ADR. The bank or trust company depository of an unsponsored ADR may be under no obligation to distribute shareholder communications received from the foreign issuer or to pass through voting rights. Many of the risks described below regarding foreign securities apply to investments in ADRs.

Emerging Markets Securities

Investing in emerging market securities imposes risks different from, or greater than, risks of investing in foreign developed countries. These risks include: smaller market capitalization of securities markets, which may suffer periods of relative illiquidity; significant price volatility; restrictions on foreign investment; possible repatriation of investment income and capital. In addition, foreign investors may be required to register the proceeds of sales; future economic or political crises could lead to price controls, forced mergers, expropriation or confiscatory taxation, seizure, nationalization, or creation of government monopolies. The currencies of emerging market countries may experience significant declines against the U.S. dollar, and devaluation may occur subsequent to investments in these currencies by the Fund. Inflation and rapid fluctuations in inflation rates have had, and may continue to have, negative effects on the economies and securities markets of certain emerging market countries.

Additional risks of emerging markets securities may include: greater social, economic and political uncertainty and instability; more substantial governmental involvement in the economy; less governmental supervision and regulation; unavailability of currency hedging techniques; companies that are newly organized and small; differences in auditing and financial reporting standards, which may result in unavailability of material information about issuers; and less developed legal systems. In addition, emerging securities markets may have different clearance and settlement procedures, which may be unable to keep pace with the volume of securities transactions or otherwise make it difficult to engage in such transactions. Settlement problems may cause the Fund to miss attractive investment opportunities, hold a portion of its assets in cash pending investment, or be delayed in disposing of a portfolio security. Such a delay could result in possible liability to a purchaser of the security.

Certificates of Deposit and Bankers' Acceptances

Certificates of deposit are receipts issued by a depository institution in exchange for the deposit of funds. The issuer agrees to pay the amount deposited plus interest to the bearer of the receipt on the date specified on the certificate. The certificate usually can be traded in the secondary market prior to maturity. Bankers' acceptances typically arise from short-term credit arrangements designed to enable businesses to obtain funds to finance commercial transactions. Generally, an acceptance is a time draft drawn on a bank by an exporter or an importer to obtain a stated amount of funds to pay for specific merchandise. The draft is then "accepted" by a bank that, in effect, unconditionally guarantees to pay the face value of the instrument on its maturity date. The acceptance may then be held by the accepting bank as an earning asset or it may be sold in the secondary market at the going rate of discount for a specific maturity. Although maturities for acceptances can be as long as 270 days, most acceptances have maturities of six months or less.

Commercial Paper

Commercial paper consists of short-term (usually from 1 to 270 days) unsecured promissory notes issued by corporations in order to finance their current operations. It may be secured by letters of credit, a surety bond or other forms of collateral. Commercial paper is usually repaid at maturity by the issuer from the proceeds of the issuance of new commercial paper. As a result, investment in commercial paper is subject to the risk the issuer cannot issue enough new commercial paper to satisfy its outstanding commercial paper, also known as rollover risk. Commercial paper may become illiquid or may suffer from reduced liquidity in certain circumstances. Like all fixed income securities, commercial paper prices are susceptible to fluctuations in interest rates. If interest rates rise, commercial paper prices will decline. The short-term nature of a commercial paper investment makes it less susceptible to interest rate risk than many other fixed income securities because interest rate risk typically increases as maturity lengths increase. Commercial paper tends to yield smaller returns than longer-term corporate debt because securities with shorter maturities typically have lower effective yields than those with longer maturities. As with all fixed income securities, there is a chance that the issuer will default on its commercial paper obligation.

Information on Time Deposits and Variable Rate Notes

Time deposits are issued by a depository institution in exchange for the deposit of funds. The issuer agrees to pay the amount deposited plus interest to the depositor on the date specified with respect to the deposit. Time deposits do not trade in the secondary market prior to maturity. However, some time deposits may be redeemable prior to maturity and may be subject to withdrawal penalties.

The commercial paper obligations are typically unsecured and may include variable rate notes. The nature and terms of a variable rate note (i.e., a “Master Note”) permit the Fund to invest fluctuating amounts at varying rates of interest pursuant to a direct arrangement between the Fund and the issuer. It permits daily changes in the amounts invested. The Fund, typically, has the right at any time to increase, up to the full amount stated in the note agreement, or to decrease the amount outstanding under the note. The issuer may prepay at any time and without penalty any part of or the full amount of the note. The note may or may not be backed by one or more bank letters of credit. Because these notes are direct investment arrangements between the Fund and the issuer, it is not generally contemplated that they will be traded; moreover, there is currently no secondary market for them. Except as specifically provided in the Prospectus, there is no limitation on the type of issuer from whom these notes may be purchased; however, in connection with such purchase and on an ongoing basis, the Adviser will consider the earning power, cash flow and other liquidity ratios of the issuer, and its ability to pay principal and interest on demand, including a situation in which all holders of such notes made demand simultaneously. Variable rate notes are subject to the Fund’s investment restriction on illiquid securities unless such notes can be put back to the issuer (redeemed) on demand within seven days.

Insured Bank Obligations

The Federal Deposit Insurance Corporation (“FDIC”) insures the deposits of federally insured banks and savings and loan associations (collectively referred to as “banks”) up to \$250,000. The Fund may elect to purchase bank obligations in small amounts so as to be fully insured as to principal by the FDIC. Currently, to remain fully insured as to principal, these investments must be limited to \$250,000 per bank; if the principal amount and accrued interest together exceed \$250,000, the excess principal and accrued interest will not be insured. Insured bank obligations may have limited marketability.

United States Government Obligations

These consist of various types of marketable securities issued by the United States Treasury, i.e., bills, notes and bonds. Such securities are direct obligations of the United States government and differ mainly in the length of their maturity. Treasury bills, the most frequently issued marketable government security, have a maturity of up to one year and are issued on a discount basis.

U.S. Treasury Inflation-Protected Securities (“TIPS”), are debt instruments issued by the by the United States Department of the Treasury. The principal of TIPS increases with inflation and decreases with deflation, as measured by the Consumer Price Index. When TIPS mature, investors are paid the adjusted principal or original principal, whichever is greater. Interest payments on TIPS are unpredictable and will fluctuate as the principal and corresponding interest payments are adjusted for inflation. Inflation-indexed bonds generally pay a lower nominal interest rate than a comparable non-inflation-indexed bond. There can be no assurance that the CPI will accurately measure the real rate of inflation in the prices of goods and services. Any increases in the principal amount of TIPS will be considered taxable ordinary income, even though the Fund or applicable underlying ETF will not receive the principal until maturity. As a result, the Fund may make income distributions to shareholders that exceed the cash it receives. In addition, TIPS are subject to credit risk, interest rate risk, and maturity risk.

Debt Issued by United States Government Agencies

These consist of debt securities issued by agencies and instrumentalities of the United States government, including the various types of instruments currently outstanding or which may be offered in the future. Agencies include, among others, the Federal Housing Administration, Government National Mortgage Association (“Ginnie Mae”), Farmer’s Home Administration, Export-Import Bank of the United States, Maritime Administration, and General Services Administration. Instrumentalities include, for example, each of the Federal Home Loan Banks, the National Bank for Cooperatives, the Federal Home Loan Mortgage Corporation (“Freddie Mac”), the Farm Credit Banks, the Federal National Mortgage Association (“Fannie Mae”), and the United States Postal Service. These securities are either: (i) backed by the full faith and credit of the United States government (e.g., United States Treasury Bills); (ii) guaranteed by the United States Treasury (e.g., Ginnie Mae mortgage-backed securities); (iii) supported by the issuing agency’s or instrumentality’s right to borrow from the United States Treasury (e.g., Fannie Mae Discount Notes); or (iv) supported only by the issuing agency’s or instrumentality’s own credit (e.g., Tennessee Valley Association).

Government-related guarantors (i.e. not backed by the full faith and credit of the United States Government) include Fannie Mae and Freddie Mac. Fannie Mae is a government-sponsored corporation owned entirely by private stockholders. It is subject to general regulation by the Secretary of Housing and Urban Development. Fannie Mae purchases conventional (i.e., not insured or guaranteed by any government agency) residential mortgages from a list of approved seller/servicers which include state and federally chartered savings and loan associations, mutual savings banks, commercial banks and credit unions and mortgage bankers. Pass-through securities issued by Fannie Mae are guaranteed as to timely payment of principal and interest by Fannie Mae but are not backed by the full faith and credit of the United States Government.

Freddie Mac was created by Congress in 1970 for the purpose of increasing the availability of mortgage credit for residential housing. It is a government-sponsored corporation formerly owned by the twelve Federal Home Loan Banks and now owned entirely by private stockholders. Freddie Mac issues participation certificates (“PCs”), which represent interests in conventional mortgages from Freddie Mac’s national portfolio. Freddie Mac guarantees the timely payment of interest and ultimate collection of principal, but PCs are not backed by the full faith and credit of the United States Government. Commercial banks, savings and loan institutions, private mortgage insurance companies, mortgage bankers and other secondary market issuers also create pass-through pools of conventional residential mortgage loans. Such issuers may, in addition, be the originators and/or servicers of the underlying mortgage loans as well as the guarantors of the mortgage-related securities. Pools created by such nongovernmental issuers generally offer a higher rate of interest than government and government-related pools because there are no direct or indirect government or agency guarantees of payments in the former pools. However, timely payment of interest and principal of these pools may be supported by various forms of insurance or guarantees, including individual loan, title, pool and hazard insurance and letters of credit. The insurance and guarantees are issued by governmental entities, private insurers and the mortgage poolers.

Mortgage-Backed Securities

The Fund may invest in mortgage-backed securities, such as those issued by the Government National Mortgage Association (“GNMA”), Federal National Mortgage Association (“FNMA”), Federal Home Loan Mortgage Corporation (“FHLMC”) or certain foreign issuers. Mortgage-backed securities represent direct or indirect participations in, or are secured by and payable from, mortgage loans secured by real property. The mortgages backing these securities include, among other mortgage instruments, conventional 30-year fixed-rate mortgages, 15-year fixed-rate mortgages, graduated payment mortgages and adjustable rate mortgages. The government or the issuing agency typically guarantees the payment of interest and principal of these securities. However, the guarantees do not extend to the securities’ yield or value, which are likely to vary inversely with fluctuations in interest rates, nor do the guarantees extend to the yield or value of the Fund’s shares. These securities generally are “pass-through” instruments, through which the holders receive a share of all interest and principal payments from the mortgages underlying the securities, net of certain fees. Yields on pass-through securities are typically quoted by investment dealers and vendors based on the maturity of the underlying instruments and the associated average life assumption. The average life of pass-through pools varies with the maturities of the underlying mortgage loans. A pool’s term may be shortened by unscheduled or early payments of principal on the underlying mortgages. The occurrence of mortgage prepayments is affected by various factors, including the level of interest rates, general economic conditions, the location, scheduled maturity and age of the mortgage and other social and demographic conditions. Because prepayment rates of individual pools vary widely, it is not possible to predict accurately the average life of a particular pool. For pools of fixed-rate 30-year mortgages in a stable interest rate environment, a common industry practice in the U.S. has been to assume that prepayments will result in a 12-year average life, although it may vary depending on numerous factors. At present, pools, particularly those with loans with other maturities or different characteristics, are priced on an assumption of average life determined for each pool. In periods of falling interest rates, the rate of prepayment tends to increase, thereby shortening the actual average life of a pool of mortgage-related securities. Conversely, in periods of rising rates the rate of prepayment tends to decrease, thereby lengthening the actual average life of the pool. However, these effects may not be present, or may differ in degree, if the mortgage loans in the pools have adjustable interest rates or other special payment terms, such as a prepayment charge. Actual prepayment experience may cause the yield of mortgage-backed securities to differ from the assumed average life yield. Reinvestment of prepayments may occur at higher or lower interest rates than the original investment, thus affecting the Fund’s yield.

The rate of interest on mortgage-backed securities is lower than the interest rates paid on the mortgages included in the underlying pool due to the annual fees paid to the servicer of the mortgage pool for passing through monthly payments to certificate holders and to any guarantor, such as GNMA, and due to any yield retained by the issuer. Actual yield to the holder may vary from the coupon rate, even if adjustable, if the mortgage-backed securities are purchased or traded in the secondary market at a premium or discount. In addition, there is normally some delay between the time the issuer receives mortgage payments from the servicer and the time the issuer makes the payments on the mortgage-backed securities, and this delay reduces the effective yield to the holder of such securities.

Asset-Backed Securities

The Fund may invest in asset-backed securities, which represent participations in, or are secured by and payable from, assets such as motor vehicle installment sales, installment loan contracts, leases of various types of real and personal property and receivables from revolving credit (credit card) agreements. Such assets are securitized through the use of trusts and special purpose corporations. Payments or distributions of principal and interest may be guaranteed up to certain amounts and for a certain time period by a letter of credit or a pool insurance policy issued by a financial institution unaffiliated with the trust or corporation.

Asset-backed securities present certain risks that are not presented by other securities in which the Fund may invest. Automobile receivables generally are secured by automobiles. Most issuers of automobile receivables permit the loan servicers to retain possession of the underlying obligations. If the servicer were to sell these obligations to another party, there is a risk that the purchaser would acquire an interest superior to that of the holders of the asset-backed securities. In addition, because of the large number of vehicles involved in a typical issuance and technical requirements under state laws, the trustee for the holders of the automobile receivables may not have a proper security interest in the underlying automobiles. Therefore, there is the possibility that recoveries on repossessed collateral may not, in some cases, be available to support payments on these securities. Credit card receivables are generally unsecured, and the debtors are entitled to the protection of a number of state and federal consumer credit laws, many of which give such debtors the right to set off certain amounts owed on the credit cards, thereby reducing the balance due. In addition, there is no assurance that the security interest in the collateral can be realized.

Asset-backed securities in which the Fund may invest also include collateralized debt obligations (“CDOs”), collateralized loan obligations (“CLOs”) and privately-offered collateralized loans. CDOs and CLOs are securities backed by an underlying portfolio of debt and loan obligations, respectively. CDOs and CLOs issue classes or “tranches” that vary in risk and yield and may experience substantial losses due to actual defaults, decrease of market value due to collateral defaults and removal of subordinate tranches, market anticipation of defaults and investor aversion to CDO and CLO securities as a class. The risks of investing in CDOs and CLOs depend largely on the tranche invested in and the type of the underlying debts and loans in the tranche of the CDO or CLO, respectively, in which the Fund invests. CDOs and CLOs also carry risks including, but not limited to, interest rate risk and credit risk.

Securities Options

The Fund may purchase and write (*i.e.*, sell) put and call options. Such options may relate to particular securities or stock indices, and may or may not be listed on a domestic or foreign securities exchange and may or may not be issued by the Options Clearing Corporation. Options trading is a highly specialized activity that entails greater than ordinary investment risk. Options may be more volatile than the underlying instruments, and therefore, on a percentage basis, an investment in options may be subject to greater fluctuation than an investment in the underlying instruments themselves.

A call option for a particular security gives the purchaser of the option the right to buy, and the writer (seller) the obligation to sell, the underlying security at the stated exercise price at any time prior to the expiration of the option, regardless of the market price of the security. The premium paid to the writer is in consideration for undertaking the obligation under the option contract. A put option for a particular security gives the purchaser the right to sell the security at the stated exercise price at any time prior to the expiration date of the option, regardless of the market price of the security.

Stock index options are put options and call options on various stock indices. In most respects, they are identical to listed options on common stocks. The primary difference between stock options and index options occurs when index options are exercised. In the case of stock options, the underlying security, common stock, is delivered. However, upon the exercise of an index option, settlement does not occur by delivery of the securities comprising the index. The option holder who exercises the index option receives an amount of cash if the closing level of the stock index upon which the option is based is greater than, in the case of a call, or less than, in the case of a put, the exercise price of the option. This amount of cash is equal to the difference between the closing price of the stock index and the exercise price of the option expressed in dollars times a specified multiple. A stock index fluctuates with changes in the market value of the stocks included in the index. For example, some stock index options are based on a broad market index, such as the Standard & Poor’s 500® Index or the Value Line Composite Index or a narrower market index, such as the Standard & Poor’s 100®. Indices may also be based on an industry or market segment, such as the NYSE Arca Oil and Gas Index or the Computer and Business Equipment Index. Options on stock indices are currently traded on the Chicago Board Options Exchange, the New York Stock Exchange and the NASDAQ PHLX.

The Fund's obligation to sell an instrument subject to a call option written by it, or to purchase an instrument subject to a put option written by it, may be terminated prior to the expiration date of the option by the Fund's execution of a closing purchase transaction, which is effected by purchasing on an exchange an option of the same series (*i.e.*, same underlying instrument, exercise price and expiration date) as the option previously written. A closing purchase transaction will ordinarily be effected to realize a profit on an outstanding option, to prevent an underlying instrument from being called, to permit the sale of the underlying instrument or to permit the writing of a new option containing different terms on such underlying instrument. The cost of such a liquidation purchase plus transactions costs may be greater than the premium received upon the original option, in which event the Fund will have paid a loss in the transaction. There is no assurance that a liquid secondary market will exist for any particular option. An option writer unable to effect a closing purchase transaction will not be able to sell the underlying instrument or liquidate the assets held in a segregated account, as described below, until the option expires or the optioned instrument is delivered upon exercise. In such circumstances, the writer will be subject to the risk of market decline or appreciation in the instrument during such period.

If an option purchased by the Fund expires unexercised, the Fund realizes a loss equal to the premium paid. If the Fund enters into a closing sale transaction on an option purchased by it, the Fund will realize a gain if the premium received by the Fund on the closing transaction is more than the premium paid to purchase the option, or a loss if it is less. If an option written by the Fund expires on the stipulated expiration date or if the Fund enters into a closing purchase transaction, it will realize a gain (or loss if the cost of a closing purchase transaction exceeds the net premium received when the option is sold). If an option written by the Fund is exercised, the proceeds of the sale will be increased by the net premium originally received and the Fund will realize a gain or loss.

Certain Risks Regarding Options

There are several risks associated with transactions in options. For example, there are significant differences between the securities and options markets that could result in an imperfect correlation between these markets, causing a given transaction not to achieve its objectives. In addition, a liquid secondary market for particular options, whether traded over-the-counter or on an exchange, may be absent for reasons which include the following: there may be insufficient trading interest in certain options; restrictions may be imposed by an exchange on opening transactions or closing transactions or both; trading halts, suspensions or other restrictions may be imposed with respect to particular classes or series of options or underlying securities or currencies; unusual or unforeseen circumstances may interrupt normal operations on an exchange; the facilities of an exchange or the Options Clearing Corporation may not at all times be adequate to handle current trading value; or one or more exchanges could, for economic or other reasons, decide or be compelled at some future date to discontinue the trading of options (or a particular class or series of options), in which event the secondary market on that exchange (or in that class or series of options) would cease to exist, although outstanding options that had been issued by the Options Clearing Corporation as a result of trades on that exchange would continue to be exercisable in accordance with their terms.

Successful use by the Fund of options on stock indices will be subject to the ability of the Adviser to correctly predict movements in the directions of the stock market. This requires different skills and techniques than predicting changes in the prices of individual securities. In addition, the Fund's ability to effectively hedge all or a portion of the securities in its portfolio, in anticipation of or during a market decline, through transactions in put options on stock indices, depends on the degree to which price movements in the underlying index correlate with the price movements of the securities held by the Fund. In as much as the Fund's securities will not duplicate the components of an index, the correlation will not be perfect. Consequently, the Fund bears the risk that the prices of its securities being hedged will not move in the same amount as the prices of its put options on the stock indices. It is also possible that there may be a negative correlation between the index and the Fund's securities that would result in a loss on both such securities and the options on stock indices acquired by the Fund.

The hours of trading for options may not conform to the hours during which the underlying securities are traded. To the extent that the options markets close before the markets for the underlying securities, significant price and rate movements can take place in the underlying markets that cannot be reflected in the options markets. The purchase of options is a highly specialized activity that involves investment techniques and risks different from those associated with ordinary portfolio securities transactions. The purchase of stock index options involves the risk that the premium and transaction costs paid by the Fund in purchasing an option will be lost as a result of unanticipated movements in prices of the securities comprising the stock index on which the option is based.

There is no assurance that a liquid secondary market on an options exchange will exist for any particular option, or at any particular time, and for some options no secondary market on an exchange or elsewhere may exist. If the Fund is unable to close out a call option on securities that it has written before the option is exercised, the Fund may be required to purchase the optioned securities in order to satisfy its obligation under the option to deliver such securities. If the Fund is unable to effect a closing sale transaction with respect to options on securities that it has purchased, it would have to exercise the option in order to realize any profit and would incur transaction costs upon the purchase and sale of the underlying securities.

Options on Futures Contracts

The Fund may purchase and sell options on the same types of futures in which it may invest. Options on futures are similar to options on underlying instruments except that options on futures give the purchaser the right, in return for the premium paid, to assume a position in a futures contract (a long position if the option is a call and a short position if the option is a put), rather than to purchase or sell the futures contract, at a specified exercise price at any time during the period of the option. Upon exercise of the option, the delivery of the futures position by the writer of the option to the holder of the option will be accompanied by the delivery of the accumulated balance in the writer's futures margin account which represents the amount by which the market price of the futures contract, at exercise, exceeds (in the case of a call) or is less than (in the case of a put) the exercise price of the option on the futures contract. Purchasers of options who fail to exercise their options prior to the exercise date suffer a loss of the premium paid.

Dealer and Exchange-Traded Options

The Fund may engage in transactions involving dealer options as well as exchange-traded options. Certain additional risks are specific to dealer options. While the Fund might look to a clearing corporation to exercise exchange-traded options, if the Fund were to purchase a dealer option it would need to rely on the dealer from which it purchased the option to perform if the option were exercised. Failure by the dealer to do so would result in the loss of the premium paid by the Fund as well as loss of the expected benefit of the transaction.

Exchange traded options generally have a continuous liquid market while dealer options may not. Consequently, the Fund may generally be able to realize the value of a dealer option it has purchased only by exercising or reselling the option to the dealer who issued it. Similarly, when the Fund writes a dealer option, it may generally be able to close out the option prior to its expiration only by entering into a closing purchase transaction with the dealer to whom the Fund originally wrote the option. While the Fund will seek to enter into dealer options only with dealers who will agree to and which are expected to be capable of entering into closing transactions with the Fund, there can be no assurance that the Fund will at any time be able to liquidate a dealer option at a favorable price at any time prior to expiration. Unless the Fund, as a covered dealer call option writer, is able to effect a closing purchase transaction, it will not be able to liquidate securities (or other assets) used as cover until the option expires or is exercised. In the event of insolvency of the other party, the Fund may be unable to liquidate a dealer option. With respect to options written by the Fund, the inability to enter into a closing transaction may result in material losses to the Fund. For example, because the Fund must maintain a secured position with respect to any call option on a security it writes, the Fund may not sell the assets, which it has segregated to secure the position while it is obligated under the option. This requirement may impair the Fund's ability to sell portfolio securities at a time when such sale might be advantageous.

The Staff of the SEC has taken the position that purchased dealer options are illiquid securities. The Fund may treat the cover used for written dealer options as liquid if the dealer agrees that the Fund may repurchase the dealer option it has written for a maximum price to be calculated by a predetermined formula. In such cases, the dealer option would be considered illiquid only to the extent the maximum purchase price under the formula exceeds the intrinsic value of the option. Accordingly, the Fund will treat dealer options as subject to the Fund's limitation on illiquid securities. If the SEC changes its position on the liquidity of dealer options, the Fund will change its treatment of such instruments accordingly.

Spread Transactions

The Fund may purchase covered spread options from securities dealers. These covered spread options are not presently exchange-listed or exchange-traded. The purchase of a spread option gives the Fund the right to put securities that it owns at a fixed dollar spread or fixed yield spread in relationship to another security that the Fund does not own, but which is used as a benchmark. The risk to the Fund, in addition to the risks of dealer options described above, is the cost of the premium paid as well as any transaction costs. The purchase of spread options will be used to protect the Fund against adverse changes in prevailing credit quality spreads, *i.e.*, the yield spread between high quality and lower quality securities. This protection is provided only during the life of the spread options.

Option Overlay Strategy

The Fund may purchase exchange-traded and over the counter ("OTC") put and call options on various indexes. When the Fund purchases a call option, the Fund has the right, but not the obligation, to buy an asset at a specified price (strike price) within a specific time period. When the Fund purchases a put option, the Fund has the right, but not the obligation, to sell an asset at a specified price (strike price) within a specific time period. The options are meant to hedge against market moves. The Adviser selects options based upon its evaluation of relative value based on cost, strike price (price that the option can be bought or sold by the option holder) and maturity (the last date the option contract is valid) and will exercise or close the options based on maturity or portfolio rebalancing requirements. While the option overlay is intended to improve the Fund's performance, there is no guarantee that it will do so.

MLP and MLP-Related Securities

Investments in MLPs and MLP-related securities involve risks different from those of investing in common stock including risks related to limited control and limited rights to vote on matters affecting the MLP or MLP-related security, risks related to potential conflicts of interest between an MLP and the MLP's general partner, cash flow risks, dilution risks (which could occur if the MLP raises capital and then invests it in projects whose return fails to exceed the cost of capital raised) and risks related to the general partner's limited call right. MLPs and MLP-related securities are generally considered interest-rate sensitive investments. During periods of interest rate volatility, these investments may not provide attractive returns. Depending on the state of interest rates in general, the use of MLPs or MLP-related securities could enhance or harm the overall performance of the Fund.

MLP Tax Risk

MLPs, typically, do not pay U.S. federal income tax at the partnership level. Instead, each partner is allocated a share of the partnership's income, gains, losses, deductions and expenses. A change in current tax law or in the underlying business mix of a given MLP could result in an MLP being treated as a corporation for U.S. federal income tax purposes, which would result in such MLP being required to pay U.S. federal income tax on its taxable income. The classification of an MLP as a corporation for U.S. federal income tax purposes would have the effect of reducing the amount of cash available for distribution by the MLP. Thus, if any of the MLPs owned by the Fund were treated as corporations for U.S. federal income tax purposes, it could result in a reduction of the value of your investment in the Fund and lower income, as compared to an MLP that is not taxed as a corporation.

Repurchase Agreements

The Fund may enter into repurchase agreements. In a repurchase agreement, an investor (such as the Fund) purchases a security (known as the “underlying security”) from a securities dealer or bank. Any such dealer or bank must be deemed creditworthy by the Adviser. At that time, the bank or securities dealer agrees to repurchase the underlying security at a mutually agreed upon price on a designated future date. The repurchase price may be higher than the purchase price, the difference being income to the Fund, or the purchase and repurchase prices may be the same, with interest at an agreed upon rate due to the Fund on repurchase. In either case, the income to the Fund generally will be unrelated to the interest rate on the underlying securities. Repurchase agreements must be “fully collateralized,” in that the market value of the underlying securities (including accrued interest) must at all times be equal to or greater than the repurchase price. Therefore, a repurchase agreement can be considered a loan collateralized by the underlying securities.

Repurchase agreements are generally for a short period of time, often less than a week, and will generally be used by the Fund to invest excess cash or as part of a temporary defensive strategy. Repurchase agreements that do not provide for payment within seven days will be treated as illiquid securities. In the event of a bankruptcy or other default by the seller of a repurchase agreement, the Fund could experience both delays in liquidating the underlying security and losses. These losses could result from: (a) possible decline in the value of the underlying security while the Fund is seeking to enforce its rights under the repurchase agreement; (b) possible reduced levels of income or lack of access to income during this period; and (c) expenses of enforcing its rights.

Reverse Repurchase Transactions

The Fund may enter into reverse repurchase transactions. In a reverse repurchase transaction, the Fund concurrently agrees to sell portfolio securities to financial institutions such as banks and broker-dealers, and to repurchase the same securities at a later date at a mutually agreed upon price. The repurchase price generally is equal to the original sales price plus interest. The Fund retains record ownership of the securities and the right to receive interest and principal payments. The Fund will enter into a reverse repurchase transaction in order to obtain funds to pursue additional investment opportunities with a return that may be in excess of the cost of the reverse repurchase transaction. Such transactions may increase fluctuations in the market value of Fund assets and are viewed as a form of leverage. Reverse purchase transactions also involve the risk that the market value of the securities sold by the Fund may decline below the price at which the Fund is obligated to repurchase the securities. In the event of bankruptcy or other default by the purchaser, the Fund could experience both delays in repurchasing the portfolio securities and losses. The Fund will enter into reverse purchase transactions only with parties whose creditworthiness has been reviewed and found satisfactory by the Adviser. Reverse purchase transactions are considered by the SEC to be borrowings by the Fund under the 1940 Act or a form of derivative governed by Rule 18f-4.

Trading in Futures Contracts

A futures contract provides for the future sale by one party and purchase by another party of a specified amount of a specific financial instrument (e.g., units of a stock index) for a specified price, date, time and place designated at the time the contract is made. Brokerage fees are paid when a futures contract is bought or sold and margin deposits must be maintained. Entering into a contract to buy is commonly referred to as buying or purchasing a contract or holding a long position. Entering into a contract to sell is commonly referred to as selling a contract or holding a short position.

Unlike when the Fund purchases or sells a security, no price would be paid or received by the Fund upon the purchase or sale of a futures contract. Upon entering into a futures contract, and to maintain the Fund’s open positions in futures contracts, the Fund may be required to deposit with its custodian or futures broker in a segregated account in the name of the futures broker an amount of cash, U.S. government securities, suitable money market instruments, or other liquid securities, known as “initial margin.” The margin required for a particular futures contract is set by the exchange on which the contract is traded, and may be significantly modified from time to time by the exchange during the term of the contract. Futures contracts are customarily purchased and sold on margins that may range upward from less than 5% of the value of the contract being traded.

If the price of an open futures contract changes (by increase in underlying instrument or index in the case of a sale or by decrease in the case of a purchase) so that the loss on the futures contract reaches a point at which the margin on deposit does not satisfy margin requirements, the broker will require an increase in the margin. However, if the value of a position increases because of favorable price changes in the futures contract so that the margin deposit exceeds the required margin, the broker will pay the excess to the Fund.

These subsequent payments, called “variation margin,” to and from the futures broker, are made on a daily basis as the price of the underlying assets fluctuate making the long and short positions in the futures contract more or less valuable, a process known as “marking to the market.” The Fund expects to earn interest income on margin deposits.

Although certain futures contracts, by their terms, require actual future delivery of and payment for the underlying instruments, in practice most futures contracts are usually closed out before the delivery date. Closing out an open futures contract purchase or sale is effected by entering into an offsetting futures contract sale or purchase, respectively, for the same aggregate amount of the identical underlying instrument or index and the same delivery date. If the offsetting purchase price is less than the original sale price, the Fund realizes a gain; if it is more, the Fund realizes a loss. Conversely, if the offsetting sale price is more than the original purchase price, the Fund realizes a gain; if it is less, the Fund realizes a loss. The transaction costs must also be included in these calculations. There can be no assurance, however, that the Fund will be able to enter into an offsetting transaction with respect to a particular futures contract at a particular time. If the Fund is not able to enter into an offsetting transaction, the Fund will continue to be required to maintain the margin deposits on the futures contract.

For example, one contract in the Financial Times Stock Exchange 100 Index future is a contract to buy 25 pounds sterling multiplied by the level of the UK Financial Times 100 Share Index on a given future date. Settlement of a stock index futures contract may or may not be in the underlying instrument or index. If not in the underlying instrument or index, then settlement will be made in cash, equivalent over time to the difference between the contract price and the actual price of the underlying asset at the time the stock index futures contract expires.

Swap Agreements

The Fund may enter into swap agreements for purposes of attempting to gain exposure to equity, debt, commodities or other asset markets without actually purchasing those assets, or to hedge a position. Swap agreements are typically two-party contracts entered into primarily by institutional investors for periods ranging from a day to more than one year. In a standard “swap” transaction, two parties agree to exchange the returns (or differentials in rates of return) earned or realized on particular predetermined investments or instruments. The gross returns to be exchanged or “swapped” between the parties are calculated with respect to a “notional amount,” i.e., the return on or increase in value of a particular dollar amount invested in a “basket” of securities representing a particular index or other reference asset.

Most swap agreements entered into by the Fund calculate the obligations of the parties to the agreement on a “net basis.” Consequently, the Fund’s current obligations (or rights) under a swap agreement will generally be equal only to the net amount to be paid or received under the agreement based on the relative values of the positions held by each party to the agreement (the “net amount”). Payments may be made at the conclusion of a swap agreement or periodically during its term. Swap agreements do not involve the delivery of securities or other underlying assets. Accordingly, if a swap is entered into on a net basis, if the other party to a swap agreement defaults, the Fund’s risk of loss consists of the net amount of payments that the Fund is contractually entitled to receive, if any.

Because they are two-party contracts and if they may have termination features greater than seven days, amounts owed to the Fund under swap agreements may be considered to be illiquid for the Fund’s illiquid investment limitations. The Fund will not enter into any swap agreement unless the Adviser believes that the other party to the transaction is creditworthy. The Fund bears the risk of loss of the amount expected to be received under a swap agreement in the event of the default or bankruptcy of a swap agreement counterparty.

The Fund may also enter into a swap agreement in circumstances where the Adviser believes that it may be more cost effective or practical than buying the reference assets such as securities represented by an index or a futures contract or an option on such index. The counterparty to any swap agreement will typically be a bank, investment banking firm or broker/dealer. The counterparty will generally agree to pay the Fund the amount, if any, by which the notional amount of the swap agreement would have increased in value had it been invested in, for example, the particular stocks represented in the index, plus the dividends that would have been received on those stocks. The Fund will agree to pay to the counterparty a floating rate of interest on the notional amount of the swap agreement plus the amount, if any, by which the notional amount would have decreased in value had it been invested, for example, stocks in an index. Therefore, the return to the Fund on any swap agreement should be the gain or loss on the notional amount plus dividends on the stocks, for example, less the interest paid by the Fund on the notional amount. The swap market has grown substantially in recent years with a large number of banks and investment banking firms acting both as principals and as agents utilizing standardized swap documentation. As a result, the swap market has become relatively liquid in comparison with the markets for other similar instruments that are traded in the OTC market.

Regulation as a Commodity Pool Operator

The Fund and the Subsidiary are “commodity pools” under the U.S. Commodity Exchange Act (“CEA”), and the Adviser is registered as a “commodity pool operator” with the Commodity Futures Trading Commission (“CFTC”) and is a member of the National Futures Association (“NFA”). As a registered commodity pool operator with respect to the Fund and the Subsidiary, the Adviser must comply with various regulatory requirements under the CEA, and the rules and regulations of the CFTC and the NFA, including investor protection requirements, antifraud prohibitions, disclosure requirements, and reporting and recordkeeping requirements. The Adviser is also subject to periodic inspections and audits by the CFTC and NFA. The Adviser also claims exemption from certain of the CFTC’s disclosure and reporting requirements in accordance with Part 4 of the CFTC regulations, which provide relief relating to CFTC disclosure and reporting requirements for commodity pools, such as the Subsidiary, that are operated by a commodity pool operator that is the same as, controls, is controlled by or is under common control with the commodity pool operator of an offered pool (such as the Fund).

When-Issued, Forward Commitments and Delayed Settlements

The Fund may purchase and sell securities on a when-issued, forward commitment or delayed settlement basis. In this event, the Custodian (as defined under the section entitled “Custodian”) may segregate liquid assets equal to the amount of the commitment in a separate account. Normally, the Custodian will set aside portfolio securities to satisfy a purchase commitment. In such a case, the Fund may be required subsequently to segregate additional assets in order to assure that the value of the account remains equal to the amount of the Fund’s commitment. It may be expected that the Fund’s net assets will fluctuate to a greater degree when it sets aside portfolio securities to cover such purchase commitments than when it sets aside cash.

The Fund does not intend to engage in these transactions for speculative purposes but only in furtherance of their investment objectives. Because the Fund may segregate liquid assets to satisfy purchase commitments in the manner described, the Fund’s liquidity and the ability of the Adviser to manage them may be affected in the event the Fund’s forward commitments, commitments to purchase when-issued securities and delayed settlements ever exceeded 15% of the value of its net assets.

The Fund will purchase securities on a when-issued, forward commitment or delayed settlement basis only with the intention of completing the transaction. If deemed advisable as a matter of investment strategy, however, the Fund may dispose of or renegotiate a commitment after it is entered into, and may sell securities it has committed to purchase before those securities are delivered to the Fund on the settlement date. In these cases the Fund may realize a taxable capital gain or loss. When the Fund engages in when-issued, forward commitment and delayed settlement transactions, it relies on the other party to consummate the trade. Failure of such party to do so may result in the Fund incurring a loss or missing an opportunity to obtain a price credited to be advantageous.

The market value of the securities underlying a when-issued purchase, forward commitment to purchase securities, or a delayed settlement and any subsequent fluctuations in their market value is taken into account when determining the market value of the Fund starting on the day the Fund agrees to purchase the securities. The Fund does not earn interest on the securities it has committed to purchase until it has paid for and delivered on the settlement date.

Illiquid and Restricted Securities

The Fund may invest up to 15% of its net assets in illiquid securities. Illiquid securities include securities subject to contractual or legal restrictions on resale (e.g., because they have not been registered under the Securities Act of 1933, as amended (the “Securities Act”)) and securities that are otherwise not readily marketable (e.g., because trading in the security is suspended or because market makers do not exist or will not entertain bids or offers). Securities that have not been registered under the Securities Act are referred to as private placements or restricted securities and are purchased directly from the issuer or in the secondary market. Foreign securities that are freely tradable in their principal markets are not considered to be illiquid.

Restricted and other illiquid securities may be subject to the potential for delays on resale and uncertainty in valuation. The Fund might be unable to dispose of illiquid securities promptly or at reasonable prices and might thereby experience difficulty in satisfying redemption requests from shareholders. The Fund might have to register restricted securities in order to dispose of them, resulting in additional expense and delay. Adverse market conditions could impede such a public offering of securities.

A large institutional market exists for certain securities that are not registered under the Securities Act, including foreign securities. The fact that there are contractual or legal restrictions on resale to the general public or to certain institutions may not be indicative of the liquidity of such investments. Rule 144A under the Securities Act allows such a broader institutional trading market for securities otherwise subject to restrictions on resale to the general public. Rule 144A establishes a “safe harbor” from the registration requirements of the Securities Act for resale of certain securities to qualified institutional buyers. Rule 144A has produced enhanced liquidity for many restricted securities, and market liquidity for such securities may continue to expand as a result of this regulation and the consequent existence of the PORTAL system, which is an automated system for the trading, clearance and settlement of unregistered securities of domestic and foreign issuers sponsored by NASDAQ.

Under guidelines adopted by the Board, the Adviser may determine that particular Rule 144A securities, and commercial paper issued in reliance on the private placement exemption from registration afforded by Section 4(a)(2) of the Securities Act, are liquid even though they are not registered. A determination of whether such a security is liquid or not is a question of fact. In making this determination, the Adviser will consider, as it deems appropriate under the circumstances and among other factors: (1) the frequency of trades and quotes for the security; (2) the number of dealers willing to purchase or sell the security; (3) the number of other potential purchasers of the security; (4) dealer undertakings to make a market in the security; (5) the nature of the security (e.g., debt or equity, date of maturity, terms of dividend or interest payments, and other material terms) and the nature of the marketplace trades (e.g., the time needed to dispose of the security, the method of soliciting offers, and the mechanics of transfer); and (6) the rating of the security and the financial condition and prospects of the issuer. In the case of commercial paper, the Adviser will also determine that the paper (1) is not traded flat or in default as to principal and interest, and (2) is rated in one of the two highest rating categories by at least two Nationally Recognized Statistical Rating Organizations (“NRSROs”) or, if only one NRSRO rates the security, by that NRSRO, or, if the security is unrated, the Adviser determines that it is of equivalent quality.

Rule 144A securities and Section 4(a)(2) commercial paper that have been deemed liquid as described above will continue to be monitored by the Adviser to determine if the security is no longer liquid as the result of changed conditions. Investing in Rule 144A securities or Section 4(a)(2) commercial paper could have the effect of increasing the amount of the Fund's assets invested in illiquid securities if institutional buyers are unwilling to purchase such securities.

Lending Portfolio Securities

For the purpose of achieving income, the Fund may lend its portfolio securities, provided (1) the loan is secured continuously by collateral consisting of U.S. Government securities or cash or cash equivalents (cash, U.S. Government securities, negotiable certificates of deposit, bankers' acceptances or letters of credit) maintained on a daily mark-to-market basis in an amount at least equal to the current market value of the securities loaned, (2) the Fund may at any time call the loan and obtain the return of securities loaned, (3) the Fund will receive any interest or dividends received on the loaned securities, and (4) the aggregate value of the securities loaned will not at any time exceed one-third of the total assets of the Fund.

INVESTMENT RESTRICTIONS

The Fund has adopted the following investment restrictions that may not be changed without approval by a "majority of the outstanding shares" of the Fund, which, as used in this SAI, means the vote of the lesser of (a) 67% or more of the shares of the Fund represented at a meeting, if the holders of more than 50% of the outstanding shares of the Fund are present or represented by proxy, or (b) more than 50% of the outstanding shares of the Fund. The Fund may not:

1. Issue senior securities, except as otherwise permitted under the 1940 Act, and the rules and regulations promulgated thereunder;
2. Borrow money, except (a) from a bank, provided that immediately after such borrowing there is an asset coverage of 300% for all borrowings of the Fund; or (b) from a bank or other persons for temporary purposes only, provided that such temporary borrowings are in an amount not exceeding 5% of the Fund's total assets at the time when the borrowing is made. This limitation does not preclude the Fund from entering into reverse repurchase transactions;
3. Engage in the business of underwriting securities issued by others, except to the extent that the Fund may be considered an underwriter within the meaning of the Securities Act, in the disposition of restricted securities or in connection with its investments in other investment companies;
4. Purchase or sell real estate or interests in real estate. This limitation is not applicable to investments in marketable securities that are secured by or represent interests in real estate. This limitation does not preclude the Fund from investing in mortgage-related securities or investing in companies engaged in the real estate business or that have a significant portion of their assets in real estate (including REITs);
5. Invest more than 25% of the market value of its net assets in the securities of companies engaged in any one industry or group of industries. This limitation does not apply to investment in the securities of the U.S. Government, its agencies or instrumentalities.
6. Purchase or sell commodities (unless acquired as a result of ownership of securities or other investments) or commodity futures contracts, except that the Fund may purchase and sell futures contracts and options to the full extent permitted under the 1940 Act, sell foreign currency contracts in accordance with any rules of the Commodity Futures Trading Commission, invest in securities or other instruments backed by commodities, and invest in companies that are engaged in a commodities business or have a significant portion of their assets in commodities; or

7. Make loans to others, except that the Fund may, in accordance with its investment objective and policies, (i) lend portfolio securities, (ii) purchase and hold debt securities or other debt instruments, including but not limited to loan participations and sub-participations, assignments, and structured securities, (iii) make loans secured by mortgages on real property, (iv) enter into repurchase agreements, (v) enter into transactions where each loan is represented by a note executed by the borrower, and (vi) make time deposits with financial institutions and invest in instruments issued by financial institutions. For purposes of this limitation, the term “loans” shall not include the purchase of a portion of an issue of publicly distributed bonds, debentures or other securities.

If a restriction on the Fund’s investments is adhered to at the time an investment is made, a subsequent change in the percentage of Fund assets invested in certain securities or other instruments of the Fund’s investment portfolio, resulting from changes in the value of the Fund’s total assets, will not be considered a violation of the restriction; provided, however, that the asset coverage requirement applicable to borrowings shall be maintained in the manner contemplated by applicable law.

With respect to fundamental investment restriction #2 above, if the Fund’s asset coverage falls below 300%, the Fund will reduce borrowing within 3 days in order to ensure that the Fund has 300% asset coverage.

Non Fundamental Policy

The Fund adopted a non-fundamental policy to invest, under normal circumstances, at least 80% of the Fund’s net assets (plus any borrowings for investment purposes) in instruments as described in the Fund’s prospectus.

This policy is non-fundamental and may be changed by the Board without shareholder approval. Shareholders will be provided with at least sixty days’ written notice of such change.

POLICIES AND PROCEDURES FOR DISCLOSURE OF PORTFOLIO HOLDINGS

The Trust has adopted a policy regarding the disclosure of information about the Fund’s portfolio holdings. The Fund and its service providers may not receive compensation or any other consideration (which includes any agreement to maintain assets in the Fund or in other investment companies or accounts managed by the Adviser or any affiliated person of the Adviser) in connection with the disclosure of portfolio holdings information of the Fund, except pursuant to Section 21F of the Securities Exchange Act of 1934, as amended, commonly referred to as the Securities Whistleblower Incentives and Protection. The Trust’s policy is implemented and overseen by the Chief Compliance Officer of the Trust, subject to the oversight of the Board. Periodic reports regarding these procedures will be provided to the Board. The Trust, the Adviser and the Distributor (as defined below) will not disseminate non-public information concerning the Trust. The Board must approve all material amendments to this policy.

Each business day, the Fund’s portfolio holdings information will generally be provided for dissemination through the facilities of the National Securities Clearing Corporation (“NSCC”) and/or other fee-based subscription services to NSCC members and/or subscribers to those other fee-based subscription services, including Authorized Participants (as defined below), and to entities that publish and/or analyze such information in connection with the process of purchasing or redeeming Creation Units or trading shares of the Fund in the secondary market. This information typically reflects the Fund’s anticipated holdings as of the next Business Day (as defined below).

Access to information concerning the Fund’s portfolio holdings may be permitted to personnel of third-party service providers, including the Fund’s custodian, transfer agent, auditors and counsel, as may be necessary to conduct business in the ordinary course in a manner consistent with such service providers’ agreements with the Trust on behalf of the Fund.

Portfolio holdings information made available in connection with the creation/redemption process may be provided to other entities that provide services to the Fund in the ordinary course of business after it has been disseminated to the NSCC. From time to time, information concerning portfolio holdings other than portfolio holdings information made available in connection with the creation/redemption process, as discussed above, may be provided to other entities that provide services to the Fund, including rating or ranking organizations, in the ordinary course of business, no earlier than one business day following the date of the information.

The Fund discloses on the Adviser's website at www.simplify.us/etfs at the start of each Business Day the identities and quantities of the securities and other assets held by the Fund that will form the basis of the Fund's calculation of its NAV on that Business Day. The portfolio holdings so disclosed will be based on information as of the close of business on the prior Business Day and/or trades that have been completed prior to the opening of business on that Business Day and that are expected to settle on that Business Day. The Fund may also concurrently disclose this portfolio holdings information directly to ratings agencies on a daily basis.

Quarterly Portfolio Schedule. The Trust is required to disclose the complete schedule of the Fund's portfolio holdings with the SEC on Form N-PORT. The Trust also discloses a complete schedule of the Fund's portfolio holdings with the SEC on Form N-CSR after its second and fourth quarters. Form N-PORT and Form N-CSR for the Fund are available on the SEC's website at www.sec.gov. The Fund's Form N-PORT and Form N-CSR are available without charge, upon request, by calling 1 (855) 772-8488 or by writing to: Simplify Exchange Traded Funds 10845 Griffith Peak Drive, 2/F, Las Vegas, NV 89135.

Other Service Providers

Adviser. Personnel of the Adviser, including personnel responsible for managing the Fund's portfolio, may have full daily access to Fund portfolio holdings since that information is necessary in order for the Adviser to provide its management, administrative, and investment services to the Fund. As required for purposes of analyzing the impact of existing and future market changes on the prices, availability, as demand and liquidity of such securities, as well as for the assistance of portfolio managers in the trading of such securities, Adviser personnel may also release and discuss certain portfolio holdings with various broker-dealers.

Bank of New York Mellon. Bank of New York Mellon is the fund accountant, administrator, transfer agent and custodian for the Fund; therefore, its personnel have full daily access to the Fund's portfolio holdings since that information is necessary in order for them to provide the agreed-upon services for the Trust.

Cohen & Company, Ltd. Cohen & Company, Ltd. is the Fund's independent registered public accounting firm; therefore, its personnel have access to the Fund's portfolio holdings in connection with auditing of the Fund's annual financial statements and providing assistance and consultation in connection with SEC filings.

Thompson Hine LLP. Thompson Hine LLP is counsel to the Fund; therefore, its personnel have access to the Fund's portfolio holdings in connection with review of the Fund's annual and semi-annual shareholder reports and SEC filings.

Additions to List of Approved Recipients

The Trust's Chief Compliance Officer is the person responsible, and whose prior approval is required, for any disclosure of the Fund's portfolio securities at any time or to any persons other than those described above. In such cases, the recipient must have a legitimate business need for the information and must be subject to a duty to keep the information confidential. There are no ongoing arrangements in place with respect to the disclosure of portfolio holdings. In no event shall the Fund, Fund affiliates, the Adviser, affiliated persons of the Adviser or any other party receive any direct or indirect compensation in connection with the disclosure of information about the Fund's portfolio holdings, except pursuant to Section 21F of the Securities Exchange Act of 1934, as amended, commonly referred to as the Securities Whistleblower Incentives and Protection.

Compliance with Portfolio Holdings Disclosure Procedures

The Trust's Chief Compliance Officer will report periodically to the Board with respect to compliance with the Fund's portfolio holdings disclosure procedures, and from time to time will provide the Board any updates to the portfolio holdings disclosure policies and procedures.

There is no assurance that the Trust's policies on disclosure of portfolio holdings will protect the Fund from the potential misuse of holdings information by individuals or firms in possession of that information.

MANAGEMENT

The business of the Trust is managed under the direction of the Board in accordance with the Agreement and Declaration of Trust and the Trust's By-laws (the "Governing Documents"), which have been filed with the SEC and are available upon request. The Board consists of four (4) individuals, three of whom are not "interested persons" (as defined under the 1940 Act) of the Trust or any investment adviser to any series of the Trust ("Independent Trustees"). One Board member is an interested person Trustee (as defined under the 1940 Act) ("Interested Trustee") pursuant to his ownership of and officer status with the Adviser. Pursuant to the Governing Documents, the Trustees shall elect officers including a President, a Secretary, a Treasurer, a Principal Executive Officer and a Principal Accounting Officer. The Board retains the power to conduct, operate and carry on the business of the Trust and has the power to incur and pay any expenses, which, in the opinion of the Board, are necessary or incidental to carry out any of the Trust's purposes. The Board, officers, employees and agents of the Trust, when acting in such capacities, shall not be subject to any personal liability except for his or her own bad faith, willful misfeasance, gross negligence or reckless disregard of his or her duties.

Board Leadership Structure

The Trust is led by Paul Kim, who has served as the Chairman of the Board since June 2020. The Board is comprised of three Independent Trustees and one interested Trustee. Under certain 1940 Act governance guidelines that apply to the Trust, the Independent Trustees will meet in executive session, at least quarterly. Under the Governing Documents, the Chairman of the Board is responsible for (a) presiding at board meetings, (b) calling special meetings on an as-needed basis, (c) executing and administering of Trust policies including (i) setting the agendas for board meetings and (ii) providing information to board members in advance of each board meeting and between board meetings. The Trust believes that its Chairman, the independent chair of the Audit Committee, and, as an entity, the full Board, provide effective leadership that is in the best interests of the Trust, its funds and each shareholder.

Board Risk Oversight

The Board has a standing independent Audit Committee. The Board is responsible for overseeing risk management, and the full Board regularly engages in discussions of risk management and receives compliance reports that inform its oversight of risk management from its Chief Compliance Officer at quarterly meetings and on an ad hoc basis, when and if necessary. The Audit Committee considers financial and reporting risk within its area of responsibilities. Generally, the Board believes that its oversight of material risks is adequately maintained through the compliance-reporting chain where the Chief Compliance Officer is the primary recipient and communicator of such risk-related information.

Trustee Qualifications

Generally, the Trust believes that each Trustee is competent to serve because of their individual overall merits including: (i) experience, (ii) qualifications, (iii) attributes and (iv) skills.

Craig Enders has over 22 years of experience as a professor at two major universities. Mr. Enders' study of multiple imputation and maximum likelihood and Bayesian estimation with incomplete data enables him to provide oversight for the Trust.

Paul Kim has worked as a senior director and vice president in ETF strategy and product management for over ten years. His expertise in developing ETF strategies and actively managed ETFs provides him unique insight on the formation and regulatory oversight of ETFs.

Zung Nguyen has more than 22 years' experience in the investment management industry and has extensive investment adviser experience. During the course of his career, Mr. Zung has served as a senior managing director and executive wealth adviser for a large advisory firm. Mr. Zung has excellent communications skills, as well as an ability to work effectively with others. Mr. Zung brings a diversity of viewpoint, background and experience to the Board.

Christina Stauffer worked for major financial service providers including investment managers, mutual funds, and ETFs for more than two decades. Her experience in highly regulated areas of the financial services industry allows her to bring a deep perspective to the formation and regulatory oversight of an ETF family. She also has experience in the design and execution of derivatives, which aligns with the strategies employed by many of the ETFs in the Trust. As a CFA charterholder, she possesses an advanced understanding of GAAP-based financial statements, valuation, portfolio accounting, internal controls, and complex investment structures. In addition, her service on other boards has given her insight into communications skills and collaboration with others. Overall, Ms. Stauffer brings a diversity of viewpoint, background and experience to the Board.

The Trust does not believe any one factor is determinative in assessing a Trustee's qualifications, but that the collective experience of each Trustee makes them each highly qualified.

The following is a list of the Trustees and executive officers of the Trust and each person's principal occupation over the last five years. The business address of each Trustee and Officer is Simplify Exchange Traded Funds 10845 Griffith Peak Drive, 2/F, Las Vegas, NV 89135. All correspondence to the Trustees and Officers should be directed to c/o Simplify Exchange Traded Funds 10845 Griffith Peak Drive, 2/F, Las Vegas, NV 89135.

** The term "Fund Complex" applies only to the operational series of the Trust.

Board Committees

Audit Committee

The Board has an Audit Committee that consists of all the Independent Trustees. The Audit Committee's responsibilities include: (i) recommending to the Board the selection, retention or termination of the Trust's independent auditors; (ii) reviewing with the independent auditors the scope, performance and anticipated cost of their audit; (iii) discussing with the independent auditors certain matters relating to the Trust's financial statements, including any adjustment to such financial statements recommended by such independent auditors, or any other results of any audit; (iv) reviewing on a periodic basis a formal written statement from the independent auditors with respect to their independence, discussing with the independent auditors any relationships or services disclosed in the statement that may impact the objectivity and independence of the Trust's independent auditors and recommending that the Board take appropriate action in response thereto to satisfy itself of the auditor's independence; and (v) considering the comments of the independent auditors and management's responses thereto with respect to the quality and adequacy of the Trust's accounting and financial reporting policies and practices and internal controls. The Audit Committee operates pursuant to an Audit Committee Charter. The Audit Committee is also responsible for reviewing and setting Independent Trustee compensation from time to time when considered necessary or appropriate. During the most recent fiscal year, the Audit Committee met four times.

Nominating and Corporate Governance Committee

The Board has a Nominating and Governance Corporate Committee that consists of all the Independent Trustees. The Committee's responsibilities (which may also be conducted by the Board) include: (i) recommend persons to be nominated or re-nominated as Trustees in accordance with the Independent Trustee's Statement of Policy on Criteria for Selecting Independent Trustees; (ii) review the Fund's officers, and conduct Chief Compliance Officer searches, as needed, and provide consultation regarding other CCO matters, as requested; (iii) reviewing trustee qualifications, performance, and compensation; (iv) review periodically with the Board the size and composition of the Board as a whole; (v) annually evaluate the operations of the Board and its Committees and assist the Board in conducting its annual self-evaluation; (vi) make recommendations on the requirements for, and means of, Board orientation and training; (vii) periodically review the Board's corporate governance policies and practices and recommend, as it deems appropriate, any changes to the Board; (ix) considering any corporate governance issues that arise from time to time, and to develop appropriate recommendations for the Board; and (x) supervising counsel for the independent Trustees. The Nominating and Corporate Governance Committee generally will not consider shareholder nominees. Zung Nguyen serves as the Chairman of the Committee. The Nominating and Governance Corporate Committee operates pursuant to a Nominating and Governance Committee Charter. During the most recent fiscal year, the Nominating and Corporate Governance Committee met one time.

Compensation

Each Trustee who is not affiliated with the Trust or an investment adviser to any series of the Trust (each an "Independent Trustee") receives a yearly fee of \$100,000 paid \$25,000 quarterly by the Trust within 10 days of the commencement of each calendar quarter for his or her service as a Trustee of the Board and for serving in his or her respective capacity as Chair of the Audit Committee, Nomination and Corporate Governance Committee, as well as reimbursement for any reasonable expenses incurred for attending regularly scheduled Board and Committee meetings.

None of the executive officers nor the interested Trustee receive compensation from the Trust.

The table below details the amount of compensation the Trustees are expected to indirectly receive from the funds through the Adviser for the fiscal year ended June 30, 2026. During the fiscal year ended June 30, 2025, Mr. Enders earned \$101,000; Mr. Caltagirone, who concluded his service effective December 31, 2025, earned \$100,500; and Mr. Nguyen earned \$101,000. Each Independent Trustee is expected to attend all quarterly meetings during the period. The Trust does not have a bonus, profit sharing, pension or retirement plan. The table below details the amount of compensation the Trustees are expected to indirectly receive from the funds through the Adviser for the fiscal year ended June 30, 2026. Each Independent Trustee is expected to attend all quarterly meetings during the period. The Trust does not have a bonus, profit sharing, pension or retirement plan.

Name and Position	Aggregate Fiscal Year Compensation from the Fund	Pension or Retirement Benefits Accrued as Part of Fund Expenses	Annual Benefits Upon Retirement	Total Compensation From Trust and Fund Complex** Paid to Trustees
Craig Enders	\$*	\$0	\$0	\$100,000
Christina Stauffer	\$*	\$0	\$0	\$50,000***
Zung Nguyen	\$*	\$0	\$0	\$100,000

* Since the Fund has not yet commenced operations, no allocation of compensation is feasible.

** There are currently numerous series comprising the Trust. The term "Fund Complex" refers only to the operational series of the Trust.

*** Ms. Stauffer joined the Board December 31, 2025, and thus will only have served for one half of the fiscal year ended June 30, 2026.

Management and Trustee Ownership

As of December 31, 2025, the Trustees and officers, as a group, owned the following shares of the Fund or any of the Fund Complex's outstanding shares.

Board Member Name	Owned in Fund	Aggregate Dollar Range of Shares Owned in Trust
Interested Board Member		
Paul Kim	None	Over \$100,000
Independent Board Members		
Christina Stauffer	None	\$1 – \$10,000
Craig Enders	None	None
Zung Nguyen	None	Over \$100,000

DIVIDENDS AND DISTRIBUTIONS

The following information supplements and should be read in conjunction with the section in the Prospectus entitled “Dividends, Other Distributions, and Taxes.”

General Policies

The Fund expects to declare and distribute all of its net investment income, if any, to shareholders as dividends quarterly. The Fund may distribute such income dividends and capital gains more frequently, if necessary, in order to reduce or eliminate federal excise or income taxes on the Fund.

Dividend Distributions

Dividends and other distributions on Shares are distributed, as described below, on a pro rata basis to Beneficial Owners of such Shares. Dividend payments are made through DTC Participants and Indirect Participants to Beneficial Owners then of record with proceeds received from the Trust.

Dividend Reinvestment Service

The Trust will not make the DTC book-entry dividend reinvestment service available for use by Beneficial Owners for reinvestment of their cash proceeds, but certain individual broker-dealers may make available the DTC book-entry Dividend Reinvestment Service for use by Beneficial Owners of the Fund through DTC Participants for reinvestment of their dividend distributions. Investors should contact their brokers to ascertain the availability and description of these services. Beneficial Owners should be aware that each broker may require investors to adhere to specific procedures and timetables in order to participate in the dividend reinvestment service and investors should ascertain from their brokers such necessary details. If this service is available and used, dividend distributions of both income and realized gains will be automatically reinvested in additional whole Shares issued by the Trust of the same Fund at NAV per Share. Distributions reinvested in additional Shares of the Fund will nevertheless be taxable to Beneficial Owners acquiring such additional Shares to the same extent as if such distributions had been received in cash.

CONTROL PERSONS AND PRINCIPAL HOLDERS

A principal shareholder is any person who owns (either of record or beneficially) 5% or more of the outstanding shares of the Fund. A control person is one who owns, either directly or indirectly more than 25% of the voting securities of a company or acknowledges the existence of control.

The DTC or its nominee is the record owner of all outstanding shares and is recognized as the owner of all shares for all purposes. Investors owning shares are beneficial owners as shown on the records of DTC or its participants.

INVESTMENT ADVISER

Investment Adviser and Advisory Agreement

Simplify Asset Management Inc., located at 10845 Griffith Peak Drive, 2/F, Las Vegas, NV 89135, serves as the Fund's investment adviser pursuant to an investment advisory agreement between the Trust and the Adviser (the "Management Agreement"). The Adviser is registered with the SEC as an investment adviser under the Investment Advisers Act of 1940, as amended.

Subject to the supervision of the Board, the Adviser provides or arranges to provide to the Fund such investment advice as the Adviser in its discretion deems advisable and furnishes or arranges to furnish a continuous investment program for the Fund consistent with the Fund's investment objective and policies. The Adviser determines or arranges for others to determine the securities to purchase for the Fund, the portfolio securities held or sold by the Fund and the portion of Fund's assets held uninvested, subject always to the Fund's investment objective, policies and restrictions, as each of the same shall be from time to time in effect, and subject further to such policies and instructions as the Board may from time to time establish. The Adviser furnishes such reports, evaluations, information or analyses to the Trust as the Board may request from time to time or as the Adviser may deem to be desirable. The Adviser also advises and assists the officers of the Trust in taking such steps as are necessary or appropriate to carry out the decisions of the Board and the appropriate committees of the Board regarding the conduct of the business of the Trust.

The Fund pays the Adviser a unitary fee ("Management Fee") under the Management Agreement in return for providing its services. The Adviser is paid a monthly Management Fee at an annual rate of 0.20% of the average daily net assets of the Fund.

Under a unitary fee structure, the Adviser is responsible for paying substantially all the operating expenses of the Fund, excluding interest expenses, taxes, brokerage expenses, Rule 12b-1 fees (if any), acquired fund fees and expenses, expenses incidental to a meeting of the Fund's shareholders and the Management Fee. In addition to the excluded operating expenses, the Fund also pay non-operating expenses such as litigation and indemnification expenses and other expenses determined to be extraordinary by the Trust.

The Fund may enter into swap agreements with counterparties where the reference asset of the swap agreement or the composition of the underlying portfolio is provided by Wolfe Research, LLC ("Wolfe"). These counterparties compensate Wolfe for its reference asset or portfolio composition. Because Wolfe is a non-voting minority owner of the Adviser, the payments made by counterparties could be deemed to create an indirect conflict of interest for the Adviser. However, neither the Fund nor the Adviser directly compensate Wolfe, nor does the Adviser have any role in determining the compensation paid by counterparties to Wolfe.

The Management Agreement is in effect for two (2) years initially and shall continue from year to year provided such continuance is approved at least annually by (a) a vote of the majority of the Independent Trustees, cast in person at a meeting specifically called for the purpose of voting on such approval and by (b) the majority vote of either all of the Trustees or the vote of a majority of the outstanding shares of the Fund. The Management Agreement may be terminated without penalty on 60 days written notice by a vote of a majority of the Trustees or by the Adviser, or by holders of a majority of the Fund's outstanding shares. The Management Agreement shall terminate automatically in the event of its assignment.

The Management Agreement was approved by the Board, including by a majority of the Independent Trustees, at a meeting held on January 9, 2026. A discussion regarding the basis for the Board's approval of the Management Agreement with respect to the Fund, will be available in the Fund's first published financial statements (commonly known as a semi-annual or annual report to shareholders) contained in Form N-CSR.

The Trust's Agreement and Declaration of Trust (the "Declaration") provides that by virtue of becoming a shareholder of the Trust, each shareholder is bound by the provisions of the Declaration. The Declaration provides a detailed process for the bringing of derivative actions by shareholders for claims other than federal securities law claims. Prior to bringing a derivative action, a written demand by the complaining shareholder must first be made on the Trustees. The Declaration details conditions that must be met with respect to the demand. Following receipt of the demand, the Trustees must be afforded a reasonable amount of time to investigate and consider the demand. If the demand is rejected, the complaining shareholder must reimburse the Fund. The foregoing summary of the derivatives claims process is qualified in its entirety by the Declaration, which is incorporated herein by reference.

Codes of Ethics

The Trust, the Adviser, and Distributor have each adopted codes of ethics (each a "Code") under Rule 17j-1 under the 1940 Act that governs the personal securities transactions of their board members, officers and employees who may have access to current trading information of the Trust. Under the Codes, the Trustees are permitted to invest in securities that may also be purchased by the Fund.

In addition, the Trust has adopted a code of ethics (the "Trust Code"), which applies only to the Trust's executive officers to ensure that these officers promote professional conduct in the practice of corporate governance and management. The purpose behind these guidelines is to promote (i) honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest between personal and professional relationships; (ii) full, fair, accurate, timely, and understandable disclosure in reports and documents that the Trust files with, or submits to, the SEC and in other public communications made by the Fund; (iii) compliance with applicable governmental laws, rule and regulations; (iv) the prompt internal reporting of violations of the Trust Code to an appropriate person or persons identified in the Trust Code; and (v) accountability for adherence to the Trust Code.

Proxy Voting Policies

The Board has adopted Proxy Voting Policies and Procedures ("Policies") on behalf of the Trust, which delegate the responsibility for voting proxies to the Adviser or its designee, subject to the Board's continuing oversight. The Policies require that the Adviser or its designee vote proxies received in a manner consistent with the best interests of the Fund and shareholders. The Policies also require the Adviser or its designee to present to the Board, at least annually, the Adviser's Proxy Policies, or the proxy policies of the Adviser's designee, and a record of each proxy voted by the Adviser or its designee on behalf of the Fund, including a report on the resolution of all proxies identified by the Adviser as involving a conflict of interest.

Where a proxy proposal raises a material conflict between the Adviser's interests (or its designee's interests) and the Fund's interests, the Adviser or its designee will resolve the conflict by voting in accordance with the policy guidelines or at the client's directive using the recommendation of an independent third party. If the third party's recommendations are not received in a timely fashion, the Adviser or its designee will abstain from voting the securities held by that client's account. A copy of the Adviser's proxy voting policies is attached hereto as Appendix A.

More information. Information regarding how the Fund voted proxies relating to portfolio securities held by the Fund during the most recent 12-month period ended June 30 is available (1) without charge, upon request, by calling the Fund at 1 (855) 772-8488; (2) on the SEC's website at <http://www.sec.gov>, and on the Fund's website at www.simplify.us/etfs. In addition, a copy of the Fund's proxy voting policies and procedures are also available by calling 877.658.9473 and will be sent within three business days of receipt of a request.

THE DISTRIBUTOR

Foreside Financial Services, LLC (the “Distributor”), serves as the principal underwriter and national distributor for the shares of the Fund pursuant to an ETF Distribution Agreement with the Trust (the “Distribution Agreement”). The Distributor is registered as a broker-dealer under the Securities Exchange Act of 1934 and each state’s securities laws and is a member of FINRA. The offerings of the Shares are continuous and the Distributor acts as an agent for the Trust. The Distributor will deliver a Prospectus to persons purchasing Shares in Creation Units and will maintain records of both orders placed with it and confirmations of acceptance furnished by it. The Distributor has no role in determining the investments or investment policies of the Fund.

The Distribution Agreement provides that, unless sooner terminated, it will continue in effect for two years initially and thereafter shall continue from year to year, subject to annual approval by (a) the Board or a vote of a majority of the outstanding shares, and (b) by a majority of the Trustees who are not parties to the Distribution Agreement or the Trust’s distribution plan or interested persons of the Trust or of the Distributor (“Qualified Trustees”) by vote cast in person or in reliance on the SEC order at a meeting called for the purpose of voting on such approval.

The Distribution Agreement may at any time be terminated, without penalty by the Trust, by vote of a majority of the Qualified Trustees or by vote of a majority of the outstanding shares of the Trust on 60 days’ written notice to the other party. The Distribution Agreement will automatically terminate in the event of its assignment.

The Fund does not pay the Distributor any fees under the Distribution Agreement. However, the Adviser pays an annual fee to the Distributor plus reasonable out-of-pocket expenses incurred by Distributor in connection with activities performed for the Fund, including, without limitation, printing and distribution of prospectuses and shareholder reports, out of its own resources.

Rule 12b-1 Plans

The Trust, with respect to the Fund, has adopted the Trust’s Master Distribution and Shareholder Servicing Plans pursuant to Rule 12b-1 under the 1940 Act (the “Plan”) for Shares pursuant to which the Fund is authorized to pay the Distributor, as compensation for Distributor’s account maintenance services under the Plans. The Board has approved a distribution and shareholder servicing fee at the rate of up to 0.25% of Fund’s average daily net assets. Such fees are to be paid by the Fund monthly, or at such other intervals as the Board shall determine. Such fees shall be based upon the Fund’s average daily net assets during the preceding month, and shall be calculated and accrued daily. The Fund may pay fees to the Distributor at a lesser rate, as agreed upon by the Board and the Distributor. The Plan authorizes payments to the Distributor as compensation for providing account maintenance services to Fund shareholders, including arranging for certain securities dealers or brokers, administrators and others (“Recipients”) to provide these services and paying compensation for these services. The Fund will bear its own costs of distribution with respect to its shares. The Plan was adopted in order to permit the implementation of the Fund’s method of distribution. No fees are currently paid by the Fund under the Plan, and there are no current plans to impose such fees. In the event such fees were to be charged, over time they would increase the cost of an investment in the Fund.

The services to be provided by Recipients may include, but are not limited to, the following: assistance in the offering and sale of Fund shares and in other aspects of the marketing of the shares to clients or prospective clients of the respective recipients; answering routine inquiries concerning the Fund; assisting in the establishment and maintenance of accounts or sub-accounts in the Fund and in processing purchase and redemption transactions; making the Fund’s investment plan and shareholder services available; and providing such other information and services to investors in shares of the Fund as the Distributor or the Trust, on behalf of the Fund, may reasonably request. The distribution services shall also include any advertising and marketing services provided by or arranged by the Distributor with respect to the Fund.

The Distributor is required to provide a written report, at least quarterly to the Board, specifying in reasonable detail the amounts expended pursuant to the Plan and the purposes for which such expenditures were made. Further, the Distributor will inform the Board of any Rule 12b-1 fees to be paid by the Distributor to Recipients.

The Plan may not be amended to increase materially the amount of the Distributor's compensation to be paid by the Fund, unless such amendment is approved by the vote of a majority of the outstanding voting securities of the Fund (as defined in the 1940 Act). All material amendments must be approved by a majority of the Board and a majority of the Rule 12b-1 Trustees by votes cast in person at a meeting called for the purpose of voting on the Plan. During the term of the Plan, the selection and nomination of non-interested Trustees of the Trust will be committed to the discretion of current non-interested Trustees. The Distributor will preserve copies of the Plan, any related agreements, and all reports, for a period of not less than six years from the date of such document and for at least the first two years in an easily accessible place.

Any agreement related to the Plan will be in writing and provide that: (a) it may be terminated by the Trust or the Fund at any time upon sixty days written notice, without the payment of any penalty, by vote of a majority of the respective Rule 12b-1 Trustees, or by vote of a majority of the outstanding voting securities of the Trust or the Fund; (b) it will automatically terminate in the event of its assignment (as defined in the 1940 Act); and (c) it will continue in effect for a period of more than one year from the date of its execution or adoption only so long as such continuance is specifically approved at least annually by a majority of the Board and a majority of the Rule 12b-1 Trustees by votes cast in person at a meeting called for the purpose of voting on such agreement.

Securities Lending

For the purpose of achieving income, the Fund may lend its portfolio securities, provided (1) the loan is secured continuously by collateral consisting of U.S. Government securities or cash or cash equivalents (cash, U.S. Government securities, negotiable certificates of deposit, bankers' acceptances or letters of credit) maintained on a daily mark-to-market basis in an amount at least equal to the current market value of the securities loaned, (2) the Fund may at any time call the loan and obtain the return of securities loaned, (3) the Fund will receive any interest or dividends received on the loaned securities, and (4) the aggregate value of the securities loaned will not at any time exceed one-third of the total assets of the Fund.

PORTFOLIO MANAGERS

As of November 14, 2025, the portfolio managers are responsible for the portfolio management of the following types of accounts in addition to the Fund:

David Berns

Total Other Accounts By Type	Total Number of Accounts by Account Type	Total Assets By Account Type (in millions)	Number of Accounts by Type Subject to a Performance Fee	Total Assets By Account Type Subject to a Performance Fee (in millions)
Registered Investment Companies	36	\$11,597	0	\$0

Other Pooled Investment Vehicles	0	\$0	0	\$0
Other Accounts	0	\$0	0	\$0

Paisley Nardini

Total Other Accounts By Type	Total Number of Accounts by Account Type	Total Assets By Account Type (in millions)	Number of Accounts by Type Subject to a Performance Fee	Total Assets By Account Type Subject to a Performance Fee (in millions)
Registered Investment Companies	4	\$1,711	0	\$0
Other Pooled Investment Vehicles	0	\$0	0	\$0
Other Accounts	0	\$0	0	\$0

Conflicts of Interest

As a general matter, certain conflicts of interest may arise in connection with a portfolio manager's management of the Fund's investments, on the one hand, and the investments of other accounts for which a portfolio manager is responsible, on the other. For example, it is possible that the various accounts managed could have different investment strategies that, at times, might conflict with one another to the possible detriment of the Fund. Alternatively, to the extent that the same investment opportunities might be desirable for more than one account, possible conflicts could arise in determining how to allocate them. Other potential conflicts might include conflicts created by specific portfolio manager compensation arrangements, and conflicts relating to selection of brokers or dealers to execute the Fund's portfolio trades and/or specific uses of commissions from the Fund's portfolio trades (for example, research, or "soft dollars", if any). The Adviser has adopted policies and procedures and has structured the portfolio managers' compensation in a manner reasonably designed to safeguard the Fund from being negatively affected as a result of any such potential conflicts.

Compensation

Dr. Berns, Mr. Miller, and Ms. Nardini are compensated through a salary and equity participation in the Adviser.

Ownership of Securities

The following table shows the dollar range of equity securities beneficially owned by the portfolio managers in the Fund as of the date of this SAI.

Dollar Range of Equity Securities in the Fund		
David Berns	Ken Miller	Paisley Nardini
None	None	None

ALLOCATION OF PORTFOLIO BROKERAGE

Specific decisions to purchase or sell securities for the Fund is made by the portfolio managers. The Adviser is authorized by the Board to allocate the orders placed on behalf of the Fund to brokers or dealers who may, but need not, provide research or statistical material or other services to the Fund or the Adviser for the Fund's use. Such allocation is to be in such amounts and proportions as the Adviser may determine.

In selecting a broker or dealer to execute each particular transaction, the Adviser will take the following into consideration:

- the best net price available;
- the reliability, integrity and financial condition of the broker or dealer;
- the size of and difficulty in executing the order; and
- the value of the expected contribution of the broker or dealer to the investment performance of the Fund on a continuing basis.

Brokers or dealers executing a portfolio transaction on behalf of the Fund may receive a commission in excess of the amount of commission another broker or dealer would have charged for executing the transaction if the Adviser determines in good faith that such commission is reasonable in relation to the value of brokerage and research services provided to the Fund. In allocating portfolio brokerage, the Adviser may select brokers or dealers who also provide brokerage, research and other services to other accounts over which the Adviser exercises investment discretion. Some of the services received as the result of Fund transactions may primarily benefit accounts other than the transacting Fund, while services received as the result of portfolio transactions effected on behalf of those other accounts may primarily benefit the Fund.

PORTFOLIO TURNOVER

The Fund's portfolio turnover rate is calculated by dividing the lesser of purchases or sales of portfolio securities for the fiscal year by the monthly average of the value of the portfolio securities owned by the Fund during the fiscal year. The calculation excludes from both the numerator and the denominator securities with maturities at the time of acquisition of one year or less. High portfolio turnover involves correspondingly greater brokerage commissions and other transaction costs, which will be borne directly by the Fund. A 100% turnover rate would occur if all of the Fund's portfolio securities were replaced once within a one-year period.

OTHER SERVICE PROVIDERS

Fund Administration

Bank of New York Mellon (the "Administrator"), which has its principal office at 240 Greenwich St., New York, NY 10286, is primarily in the business of providing administrative, fund accounting and transfer agent services to retail and institutional mutual funds.

Pursuant to the Fund Services Agreement with the Fund, the Administrator provides administrative services to the Fund, subject to the supervision of the Board. The Administrator may provide persons to serve as officers of the Fund. Such officers may be directors, officers or employees of the Administrator or its affiliates.

The Fund Services Agreement became effective on July 14, 2020, will remain in effect for two years from the effective date, and will continue thereafter in for successive twelve month periods that such continuance if specifically approved at least annually by a majority of the Board. The agreement is terminable by the Board or the Administrator on ninety days' written notice and may be assigned provided the non-assigning party provides prior written consent. This agreement provides that in the absence of willful misfeasance, bad faith or gross negligence on the part of the Administrator or reckless disregard of its obligations thereunder, the Administrator shall not be liable for any action or failure to act in accordance with its duties thereunder.

Under the Fund Services Agreement, the Administrator provides facilitating administrative services, including: (i) providing services of persons competent to perform such administrative and clerical functions as are necessary to provide effective administration of the Fund; (ii) facilitating the performance of administrative and professional services to the Fund by others, including the Custodian; (iii) preparing, but not paying for, the periodic updating of the Fund's Registration Statement, Prospectuses and Statements of Additional Information in conjunction with Fund counsel, including the printing of such documents for the purpose of filings with the SEC and state securities administrators, and preparing reports to Fund shareholders and the SEC; (iv) preparing in conjunction with Fund counsel, but not paying for, all filings under the securities or "Blue Sky" laws of such states or countries as are designated by the Distributor, which may be required to register or qualify, or continue the registration or qualification, of the Fund and/or its shares under such laws; (v) preparing notices and agendas for meetings of the Board and minutes of such meetings in all matters required by the 1940 Act to be acted upon by the Board; and (vi) monitoring daily and periodic compliance with respect to all requirements and restrictions of the 1940 Act, the Internal Revenue Code and the Prospectus.

The Administrator also provides the Fund with accounting services, including: (i) daily computation of net asset value; (ii) maintenance of security ledgers and books and records as required by the 1940 Act; (iii) production of the Fund's listing of portfolio securities and general ledger reports; (iv) reconciliation of accounting records; (v) calculation of yield and total return for the Fund; (vi) maintenance of certain books and records described in Rule 31a-1 under the 1940 Act, and reconciliation of account information and balances among the Custodian and Adviser; and (vii) monitoring and evaluation of daily income and expense accruals, and sales and redemptions of shares of the Fund.

For administrative services rendered to the Fund under the agreement, the Administrator receives the greater of an annual minimum fee or an asset-based fee, which scales downward based upon net assets. For the fund accounting services rendered to the Fund under the Agreement, the Administrator receives the greater of an annual minimum fee or an asset-based fee, which scales downward based upon net assets. The Administrator is also reimbursed for any out-of-pocket expenses.

Transfer Agent

Bank of New York Mellon, located at 240 Greenwich St., New York, NY 10286, acts as transfer, dividend disbursing, and shareholder servicing agent for the Fund pursuant to written agreement with Fund (the "Transfer Agent"). Under the agreement, the Transfer Agent is responsible for administering and performing transfer agent functions, dividend distribution, shareholder administration, and maintaining necessary records in accordance with applicable rules and regulations.

Custodian

Bank of New York Mellon, located at 240 Greenwich St., New York, NY 10286 (the "Custodian"), serves as the custodian of the Fund's assets pursuant to a Custodian and Transfer Agent Agreement by and between the Custodian and the Trust on behalf of the Fund. The Custodian's responsibilities include safeguarding and controlling the Fund's cash and securities, handling the receipt and delivery of securities, and collecting interest and dividends on the Fund's investments. Pursuant to the Custodian and Transfer Agent Agreement, the Custodian also maintains original entry documents and books of record and general ledgers; posts cash receipts and disbursements; and records purchases and sales based upon communications from the Adviser. The Fund may employ foreign sub-custodians that are approved by the Board to hold foreign assets.

Compliance Officer

Foreside Fund Officer Services, LLC ("Foreside"), Three Canal Plaza, Suite 100, Portland, ME 04101, provides a Chief Compliance Officer to the Trust as well as related compliance services pursuant to a consulting agreement between Foreside and the Trust. Foreside's compliance services consist primarily of reviewing and assessing the policies and procedures of the Trust and its service providers pertaining to compliance with applicable federal securities laws, including Rule 38a-1 under the 1940 Act. For the compliance services rendered to the Fund, Foreside receives a fixed annual fund fee and an additional fee per fund; and any out-of-pocket expenses.

DESCRIPTION OF SHARES

Each share of beneficial interest of the Trust has one vote in the election of Trustees. Cumulative voting is not authorized for the Trust. This means that the holders of more than 50% of the shares voting for the election of Trustees can elect 100% of the Trustees if they choose to do so, and, in that event, the holders of the remaining shares will be unable to elect any Trustees.

Shareholders of the current series of the Trust and any other future series of the Trust will vote in the aggregate and not by series except as otherwise required by law or when the Board determines that the matter to be voted upon affects only the interest of the shareholders of a particular series or classes. Matters such as election of Trustees are not subject to separate voting requirements and may be acted upon by shareholders of the Trust voting without regard to series.

The Trust is authorized to issue an unlimited number of shares of beneficial interest. Each share has equal, dividend, distribution and liquidation rights. There are no conversion or preemptive rights applicable to any shares of the Fund. All shares issued are fully paid and non-assessable.

ANTI-MONEY LAUNDERING PROGRAM

The Trust has established an Anti-Money Laundering Compliance Program (the “Program”) as required by the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (“USA PATRIOT Act”). To ensure compliance with this law, the Trust’s Program provides for the development of internal practices, procedures and controls, designation of anti-money laundering compliance officers, an ongoing training program and an independent audit function to determine the effectiveness of the Program. The Trust’s secretary serves as its Anti-Money Laundering Compliance Officer.

Procedures to implement the Program include, but are not limited to, determining that the Distributor and Transfer Agent have established proper anti-money laundering procedures, reporting suspicious and/or fraudulent activity and a providing a complete and thorough review of all new opening account applications. The Trust will not transact business with any person or entity whose identity cannot be adequately verified under the provisions of the USA PATRIOT Act.

As a result of the Program, the Trust may be required to “freeze” the account of a shareholder if the shareholder appears to be involved in suspicious activity or if certain account information matches information on government lists of known terrorists or other suspicious persons, or the Trust may be required to transfer the account or proceeds of the account to a governmental agency.

PURCHASE, REDEMPTION AND PRICING OF SHARES

Calculation of Share Price

As indicated in the Prospectus under the heading “How Shares are Priced,” the NAV of the Fund’s shares is determined by dividing the total value of the Fund’s portfolio investments and other assets, less any liabilities, by the total number of shares outstanding of the Fund.

Generally, the Fund’s domestic securities (including underlying ETFs which hold portfolio securities primarily listed on foreign (non-U.S.) exchanges) are valued each day at the last quoted sales price on each security’s primary exchange. Securities traded or dealt in upon one or more securities exchanges for which market quotations are readily available and not subject to restrictions against resale shall be valued at the last quoted sales price on the primary exchange or, in the absence of a sale on the primary exchange, at the mean between the current bid and ask prices on such exchange. Securities primarily traded in the NASDAQ National Market System for which market quotations are readily available shall be valued using the NASDAQ Official Closing Price. If market quotations are not readily available, securities will be valued at their fair market value as determined in good faith by the Fund’s Adviser as the Board’s valuation designee in accordance with procedures approved by the Board and as further described below. Securities that are not traded or dealt in any securities exchange (whether domestic or foreign) and for which over-the-counter market quotations are readily available generally shall be valued at the last sale price or, in the absence of a sale, at the mean between the current bid and ask price on such over-the-counter market.

Certain securities or investments for which daily market quotes are not readily available may be valued, pursuant to guidelines established by the Board, with reference to other securities or indices. Debt securities not traded on an exchange may be valued at prices supplied by a pricing agent(s) based on broker or dealer supplied valuations or matrix pricing, a method of valuing securities by reference to the value of other securities with similar characteristics, such as rating, interest rate and maturity. Short-term investments having a maturity of 60 days or less may be generally valued at amortized cost when it approximated fair value.

Exchange traded options are valued at the last quoted sales price or, in the absence of a sale, at the mean between the current bid and ask prices on the exchange on which such options are traded. Futures and options on futures are valued at the settlement price determined by the exchange, or, if no settlement price is available, at the last sale price as of the close of business prior to when the Fund calculates NAV. Other securities for which market quotes are not readily available are valued at fair value as determined in good faith by the Adviser acting as the Board's valuation designee. Swap agreements and other derivatives are generally valued daily depending on the type of instrument and reference assets based upon market prices, the mean between bid and asked prices quotations from market makers or by a pricing service or other parties in accordance with the valuation procedures of the Adviser as valuation designee.

Under certain circumstances, the Fund may use an independent pricing service to calculate the fair market value of foreign equity securities on a daily basis by applying valuation factors to the last sale price or the mean price as noted above. The fair market values supplied by the independent pricing service will generally reflect market trading that occurs after the close of the applicable foreign markets of comparable securities or the value of other instruments that have a strong correlation to the fair-valued securities. The independent pricing service will also take into account the current relevant currency exchange rate. A security that is fair valued may be valued at a price higher or lower than actual market quotations or the value determined by other funds using their own fair valuation procedures. Because foreign securities may trade on days when Shares are not priced, the value of securities held by the Fund can change on days when Shares cannot be redeemed or purchased. In the event that a foreign security's market quotations are not readily available or are deemed unreliable (for reasons other than because the foreign exchange on which it trades closed before the Fund's calculation of NAV), the security will be valued at its fair market value as determined in good faith by the Adviser as the Board's valuation designee in accordance with procedures approved by the Board as discussed below. Without fair valuation, it is possible that short-term traders could take advantage of the arbitrage opportunity and dilute the NAV of long-term investors. Fair valuation of the Fund's portfolio securities can serve to reduce arbitrage opportunities available to short-term traders, but there is no assurance that it will prevent dilution of the Fund's NAV by short-term traders. In addition, because the Fund may invest in underlying ETFs which hold portfolio securities primarily listed on foreign (non-U.S.) exchanges, and these exchanges may trade on weekends or other days when the underlying ETFs do not price their shares, the value of these portfolio securities may change on days when you may not be able to buy or sell Shares.

Investments initially valued in currencies other than the U.S. dollar are converted to U.S. dollars using exchange rates obtained from pricing services or other parties in accordance with the valuation procedures of the Adviser as the Board's valuation designee. As a result, the NAV of the Shares may be affected by changes in the value of currencies in relation to the U.S. dollar. The value of securities traded in markets outside the United States or denominated in currencies other than the U.S. dollar may be affected significantly on a day that the Exchange is closed and an investor is not able to purchase, redeem or exchange Shares.

Shares are valued at the close of regular trading on each Exchange (normally 4:00 p.m., Eastern time) (the "Exchange Close") on each day that each Exchange is open. For purposes of calculating the NAV, the Fund normally use pricing data for domestic equity securities received shortly after the Exchange Close and does not normally take into account trading, clearances or settlements that take place after the Exchange Close. Domestic fixed income and foreign securities are normally priced using data reflecting the earlier closing of the principal markets for those securities. Information that becomes known to the Fund or its agents after the NAV has been calculated on a particular day will not generally be used to retroactively adjust the price of the security or the NAV determined earlier that day.

When market quotations are insufficient or not readily available, the Fund may value securities at fair value or estimate their value as determined in good faith by the Adviser as the Board's valuation designee, pursuant to procedures approved by the Board. Fair valuation may also be used by the Adviser if extraordinary events occur after the close of the relevant market but prior to the Exchange Close.

Creation Units

The Fund sells and redeems Shares in Creation Units on a continuous basis through the Distributor, without a sales load, at the NAV next determined after receipt of an order in proper form on any Business Day. A “Business Day” is any day on which each Exchange is open for business. As of the date of this SAI, each Exchange observes the following holidays: New Year’s Day, Martin Luther King, Jr. Day, Presidents’ Day, Good Friday, Memorial Day, Juneteenth, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

A Creation Unit is an aggregation of 25,000 Shares. The Board may declare a split or a consolidation in the number of Shares outstanding of the Fund or Trust and make a corresponding change in the number of Shares in a Creation Unit.

Authorized Participants

Only Authorized Participants that have entered into agreements with the Trust or the Distributor may purchase or redeem Creation Units. In order to be an Authorized Participant, a firm must be either a broker-dealer or other participant (“Participating Party”) in the Continuous Net Settlement System (“Clearing Process”) of the National Securities Clearing Corporation (“NSCC”) or a participant in DTC with access to the DTC system (“DTC Participant”), and you must execute an agreement (“Participant Agreement”) with the Distributor that governs transactions in the Fund’s Creation Units.

Investors who are not Authorized Participants but want to transact in Creation Units may contact the Distributor for the names of Authorized Participants. An Authorized Participant may require investors to enter into a separate agreement to transact through it for Creation Units and may require orders for purchases of shares placed with it to be in a particular form. Investors transacting through a broker that is not itself an Authorized Participant and therefore must still transact through an Authorized Participant may incur additional charges. There are expected to be a limited number of Authorized Participants at any one time.

Orders must be transmitted by an Authorized Participant by telephone or other transmission method acceptable to the Distributor. Market disruptions and telephone or other communication failures may impede the transmission of orders.

Transaction Fees

A fixed fee payable to the Custodian is imposed on each creation and redemption transaction regardless of the number of Creation Units involved in the transaction (“Fixed Fee”). Purchases and redemptions of Creation Units for cash or involving cash-in-lieu (as defined below) are required to pay an additional variable charge to compensate the Fund and its ongoing shareholders for brokerage and market impact expenses relating to Creation Unit transactions (“Variable Charge,” and together with the Fixed Fee, the “Transaction Fees”). With the approval of the Board, the Adviser may waive or adjust the Transaction Fees, including the Fixed Fee and/or Variable Charge (shown in the table below), from time to time. In such cases, the Authorized Participant will reimburse the Fund for, among other things, any difference between the market value at which the securities and/or financial instruments were purchased by the Fund and the cash-in-lieu amount, applicable registration fees, brokerage commissions and certain taxes. In addition, purchasers of Creation Units are responsible for the costs of transferring the deposit securities to the account of the Fund.

Investors who use the services of a broker, or other such intermediary may be charged a fee for such services. The Transaction Fees for the Fund are listed in the table below.

Name of Fund	Fee for In-Kind and Cash Purchases	Maximum Additional Variable Charge for Cash Purchases*
Simplify DBi CTA Managed Futures Index ETF	\$500	3%

The Clearing Process

Transactions by an Authorized Participant that is a Participating Party using the NSCC system are referred to as transactions “through the Clearing Process.” Transactions by an Authorized Participant that is a DTC Participant using the DTC system are referred to as transactions “outside the Clearing Process.” The Clearing Process is an enhanced clearing process that is available only for certain securities and only to DTC participants that are also participants in the Continuous Net Settlement System of the NSCC. In-kind (portions of) purchase orders not subject to the Clearing Process will go through a manual clearing process run by DTC. Portfolio Deposits that include government securities must be delivered through the Federal Reserve Bank wire transfer system (“Federal Reserve System”). Fund Deposits that include cash may be delivered through the Clearing Process or the Federal Reserve System. In-kind deposits of securities for orders outside the Clearing Process must be delivered through the Federal Reserve System (for government securities) or through DTC (for corporate securities).

Foreign Securities

Because the portfolio securities of the Fund may trade on days that each Exchange is closed or are otherwise not Business Days for the Fund, shareholders may not be able to redeem their shares of the Fund, or to purchase or sell shares of the Fund on each Exchange, on days when the NAV of the Fund could be significantly affected by events in the relevant foreign markets.

Purchasing Creation Units

Portfolio Deposit

The consideration for a Creation Unit generally consists of the deposit securities and a Cash Component. Together, the deposit securities and the Cash Component constitute the “Portfolio Deposit.” The Cash Component serves the function of compensating for any differences between the net asset value per Creation Unit and the deposit securities. Thus, the Cash Component is equal to the difference between (x) the net asset value per Creation Unit of the Fund and (y) the market value of the deposit securities. If (x) is more than (y), the Authorized Participant will pay the Cash Component to the Fund. If (x) is less than (y), the Authorized Participant will receive the Cash Component from the Fund.

On each Business Day, prior to the opening of business on each Exchange (currently 9:30 a.m., Eastern Time), the Adviser through the Custodian makes available through NSCC the name and amount of each deposit security in the current Portfolio Deposit (based on information at the end of the previous Business Day) for the Fund and the (estimated) Cash Component, effective through and including the previous Business Day, per Creation Unit. The deposit securities announced are applicable to purchases of Creation Units until the next announcement of deposit securities.

The deposit securities may change and as rebalancing adjustments and corporate action events of a relevant index, if any, are reflected from time to time by the Adviser in the Fund’s portfolio. The deposit securities may also change in response to the rebalancing and/or constitution of a relevant index. These adjustments will reflect changes known to the Adviser on the date of announcement to be in effect by the time of delivery of the Portfolio Deposit.

Payment of any stamp duty or the like shall be the sole responsibility of the Authorized Participant purchasing a Creation Unit. The Authorized Participant must ensure that all deposit securities properly denote change in beneficial ownership.

Custom Orders and Cash-in-Lieu

The Fund may, in its sole discretion, permit or require the substitution of an amount of cash (“cash-in-lieu”) to be added to the Cash Component to replace any deposit security. The Fund may permit or require cash-in-lieu when, for example, a deposit security may not be available in sufficient quantity for delivery or may not be eligible for transfer through the systems of DTC or the Clearing Process. Similarly, the Fund may permit or require cash in lieu of deposit securities when, for example, the Authorized Participant or its underlying investor is restricted under U.S. or local securities laws or policies from transacting in one or more deposit securities. The Fund will comply with the federal securities laws in accepting deposit securities including that the deposit securities are sold in transactions that would be exempt from registration under the Securities Act. All orders involving cash-in-lieu, as well as certain other types of orders, are considered to be “Custom Orders.”

Purchase Orders

To order a Creation Unit, an Authorized Participant must submit an irrevocable purchase order to the Distributor.

Timing of Submission of Purchase Orders

An Authorized Participant must submit an irrevocable purchase order no later than the earlier of (i) 4:00 p.m. Eastern Time or (ii) the closing time of the bond markets and/or the trading session on each Exchange, on any Business Day in order to receive that Business Day's NAV ("Cut-off Time"). The Cut-off Time for Custom Orders is generally two hours earlier. The Business Day the order is deemed received by the Distributor is referred to as the "Transmittal Date." An order to create Creation Units is deemed received on a Business Day if (i) such order is received by the Distributor by the Cut-off Time on such day and (ii) all other procedures set forth in the Participant Agreement are properly followed. Persons placing or effectuating custom orders and/or orders involving cash should be mindful of time deadlines imposed by intermediaries, such as DTC and/or the Federal Reserve Bank wire system, which may impact the successful processing of such orders to ensure that cash and securities are transferred by the "Settlement Date," which is generally the Business Day immediately following the Transmittal Date ("T+1").

Orders Using the Clearing Process

If available, (portions of) orders may be settled through the Clearing Process. In connection with such orders, such trade instructions are transmitted on behalf of the Authorized Participant, as necessary to effect the creation order. Pursuant to such trade instructions, the Authorized Participant agrees to deliver the requisite Portfolio Deposit to the Fund, together with such additional information as may be required by the Distributor. Cash Components will be delivered using either the Clearing Process or the Federal Reserve System.

Orders Outside the Clearing Process

If the Clearing Process is not available for (portions of) an order, Portfolio Deposits will be made outside the Clearing Process. Orders outside the Clearing Process must state that the DTC Participant is not using the Clearing Process and that the creation of Creation Units will be effected through DTC. The Portfolio Deposit transfer must be ordered by the DTC Participant on the Transmittal Date in a timely fashion so as to ensure the delivery of deposit securities (whether standard or custom) through DTC to the Fund account by 11:00 a.m., Eastern time, on T+1. The Cash Component, along with any cash-in-lieu and Transaction Fee, must be transferred directly to the Custodian through the Federal Reserve System in a timely manner so as to be received by the Custodian no later than 12:00 p.m., Eastern Time, on T+1. If the Custodian does not receive both the deposit securities and the cash by the appointed time, the order may be cancelled. A cancelled order may be resubmitted the following Business Day but must conform to that Business Day's Portfolio Deposit. Authorized Participants that submit a cancelled order will be liable to the Fund for any losses incurred by the Fund in connection therewith.

Orders involving foreign deposit securities are expected to be settled outside the Clearing Process. Thus, upon receipt of an irrevocable purchase order, the Distributor will notify the Adviser and the Custodian of such order. The Custodian, who will have caused the appropriate local sub-custodian(s) of the Fund to maintain an account into which an Authorized Participant may deliver deposit securities (or cash-in-lieu), with adjustments determined by the Fund, will then provide information of the order to such local sub-custodian(s). The ordering Authorized Participant will then deliver the deposit securities (and any cash-in-lieu) to the Fund's account at the applicable local sub-custodian. The Authorized Participant must also make available on or before the contractual settlement date, by means satisfactory to the Fund, immediately available or same day funds in U.S. dollars estimated by the Fund to be sufficient to pay the Cash Component and Transaction Fee. When a relevant local market is closed due to local market holidays, the local market settlement process will not commence until the end of the local holiday period. Settlement must occur by 2:00 p.m., Eastern Time, on the contractual settlement date.

Acceptance of Purchase Order

All questions as to the number of shares of each security in the deposit securities and the validity, form, eligibility and acceptance for deposit of any securities to be delivered shall be determined by the Fund. The Fund's determination shall be final and binding.

The Fund reserves the right to reject or revoke acceptance of a purchase order transmitted to it under certain circumstances including but not limited to (a) the order is not in proper form; (b) the investor(s), upon obtaining the shares ordered, would own 80% or more of the currently outstanding shares of the Fund; (c) the deposit securities delivered do not conform to the deposit securities for the applicable date; (d) the acceptance of the Portfolio Deposit would, in the opinion of counsel, be unlawful; or (e) in the event that circumstances outside the control of the Trust, the Distributor and the Adviser make it for all practical purposes impossible to process purchase orders. Examples of such circumstances include acts of God; public service or utility problems resulting in telephone, telecopy or computer failures; fires, floods or extreme weather conditions; market conditions or activities causing trading halts; systems failures involving computer or other informational systems affecting the Trust, the Distributor, DTC, NSCC, the Adviser, the Custodian, a sub-custodian or any other participant in the creation process; and similar extraordinary events. The Distributor shall notify an Authorized Participant of its rejection of the order. The Fund, the Custodian, any sub-custodian and the Distributor are under no duty, however, to give notification of any defects or irregularities in the delivery of Portfolio Deposits, and they shall not incur any liability for the failure to give any such notification.

Issuance of a Creation Unit

Once the Fund has accepted an order, upon next determination of the Fund's NAV, the Fund will confirm the issuance of a Creation Unit, against receipt of payment, at such NAV. A confirmation of acceptance will be transmitted to the Authorized Participant that placed the order.

Except as provided below, a Creation Unit will not be issued until the Fund obtains good title to the deposit securities and the Cash Component, along with any cash-in-lieu and Transaction Fee. The delivery of Creation Units will generally occur no later than T+1 except with respect to certain foreign securities.

In certain cases, Authorized Participants will create and redeem Creation Units on the same trade date. In these instances, the Trust reserves the right to settle these transactions on a net basis.

With respect to orders involving foreign deposit securities, when the applicable local sub-custodian(s) have confirmed to the Custodian that the deposit securities (or cash-in-lieu) have been delivered to the Fund's account at the applicable local sub-custodian(s), the Distributor and the Adviser shall be notified of such delivery, and the Fund will issue and cause the delivery of the Creation Unit. While, as stated above, Creation Units are generally delivered on T+1, the Fund may settle Creation Unit transactions on a basis other than T+1, in order to accommodate foreign market holiday schedules, to account for different treatment among foreign and U.S. markets of dividend record dates and ex-dividend dates (that is the last day the holder of a security can sell the security and still receive dividends payable on the security), and in certain other circumstances.

The Fund may issue a Creation Unit prior to receiving good title to the deposit securities, under the following circumstances. Pursuant to the applicable Participant Agreement, the Fund may issue a Creation Unit notwithstanding that (certain) deposit securities have not been delivered, in reliance on an undertaking by the relevant Authorized Participant to deliver the missing deposit securities as soon as possible, which undertaking is secured by such Authorized Participant's delivery to and maintenance with the Custodian of collateral having a value equal to at least 115% of the value of the missing deposit securities ("Collateral"), as adjusted by time to time by the Adviser. Such Collateral will have a value greater than the NAV of the Creation Unit on the date the order is placed. Such Collateral must be delivered no later than 2:00 p.m., Eastern Time, on T+1. The only Collateral that is acceptable to the Fund is cash in U.S. Dollars.

While (certain) deposit securities remain undelivered, the Collateral shall at all times have a value equal to at least 115% (as adjusted by the Adviser) of the daily marked-to-market value of the missing deposit securities. At any time, the Fund may use the Collateral to purchase the missing securities, and the Authorized Participant will be liable to the Fund for any costs incurred thereby or losses resulting therefrom, whether or not they exceed the amount of the Collateral, including any Transaction Fee, any amount by which the purchase price of the missing deposit securities exceeds the market value of such securities on the Transmittal Date, brokerage and other transaction costs. The Trust will return any unused Collateral once all of the missing securities have been received by the Fund. More information regarding the current procedures for collateralization is available from the Distributor.

Cash Purchase Method

When cash purchases of Creation Units are available or specified for the Fund, they will be effected in essentially the same manner as in-kind purchases. In the case of a cash purchase, the investor must pay the cash equivalent of the Portfolio Deposit. In addition, cash purchases will be subject to Transaction Fees, as described above.

Redeeming a Creation Unit

Redemption Basket

The consideration received in connection with the redemption of a Creation Unit generally consists of an in-kind basket of designated securities (“Redemption Securities”) and a Cash Component. Together, the Redemption Securities and the Cash Component constitute the “Redemption Basket.”

There can be no assurance that there will be sufficient liquidity in Shares in the secondary market to permit assembly of a Creation Unit. In addition, investors may incur brokerage and other costs in connection with assembling a Creation Unit.

The Cash Component serves the function of compensating for any differences between the net asset value per Creation Unit and the Redemption Securities. Thus, the Cash Component is equal to the difference between (x) the net asset value per Creation Unit of the Fund and (y) the market value of the Redemption Securities. If (x) is more than (y), the Authorized Participant will receive the Cash Component from the Fund. If (x) is less than (y), the Authorized Participant will pay the Cash Component to the Fund.

If the Redemption Securities on a Business Day are different from the deposit securities, prior to the opening of business on each Exchange (currently 9:30 a.m., Eastern Time), the Adviser through the Custodian makes available through NSCC the name and amount of each Redemption Security in the current Redemption Basket (based on information at the end of the previous Business Day) for the Fund and the (estimated) Cash Component, effective through and including the previous Business Day, per Creation Unit. If the Redemption Securities on a Business Day are different from the deposit securities, all redemption requests that day will be processed outside the Clearing Process.

The Redemption Securities may change as rebalancing adjustments and corporate action events of the Underlying Index are reflected from time to time by the Adviser in the Fund’s portfolio. The Redemption Securities may also change in response to the rebalancing and/or reconstitution of a relevant index, if any. These adjustments will reflect changes known to the Adviser on the date of announcement to be in effect by the time of delivery of the Redemption Basket.

The right of redemption may be suspended or the date of payment postponed: (i) for any period during which the NYSE is closed (other than customary weekend and holiday closings); (ii) for any period during which trading on the NYSE is suspended or restricted; (iii) for any period during which an emergency exists as a result of which disposal of the Shares or determination of an ETF’s NAV is not reasonably practicable; or (iv) in such other circumstances as permitted by the SEC, including as described below.

Custom Redemptions and Cash-in-Lieu

The Fund may, in its sole discretion, permit or require the substitution of cash-in-lieu to be added to the Cash Component to replace any Redemption Security. The Fund may permit or require cash-in-lieu when, for example, a Redemption Security may not be available in sufficient quantity for delivery or may not be eligible for transfer through the systems of DTC or the Clearing Process. Similarly, the Fund may permit or require cash-in-lieu of Redemption Securities when, for example, the Authorized Participant or its underlying investor is restricted under U.S. or local securities law or policies from transacting in one or more Redemption Securities. The Fund will comply with the federal securities laws in satisfying redemptions with Redemption Securities, including that the Redemption Securities are sold in transactions that would be exempt from registration under the Securities Act. All redemption requests involving cash-in-lieu are considered to be “Custom Redemptions.”

Redemption Requests

To redeem a Creation Unit, an Authorized Participant must submit an irrevocable redemption request to the Distributor.

An Authorized Participant submitting a redemption request is deemed to represent to the Fund that it or, if applicable, the investor on whose behalf it is acting, (i) owns outright or has full legal authority and legal beneficial right to tender for redemption the Creation Unit to be redeemed and can receive the entire proceeds of the redemption, and (ii) all of the Shares that are in the Creation Unit to be redeemed have not been borrowed, loaned or pledged to another party nor are they the subject of a repurchase agreement, securities lending agreement or such other arrangement that would preclude the delivery of such Shares to the Fund. The Fund reserves the absolute right, in its sole discretion, to verify these representations, but will typically require verification in connection with higher levels of redemption activity and/or short interest in the Fund. If the Authorized Participant, upon receipt of a verification request, does not provide sufficient verification of the requested representations, the redemption request will not be considered to be in proper form and may be rejected by the Fund.

Timing of Submission of Redemption Requests

An Authorized Participant must submit an irrevocable redemption order no later than the Cut-off Time. The Cut-off Time for Custom Orders is generally two hours earlier. The Business Day the order is deemed received by the Distributor is referred to as the “Transmittal Date.” A redemption request is deemed received if (i) such order is received by the Distributor by the Cut-off Time on such day and (ii) all other procedures set forth in the Participant Agreement are properly followed. Persons placing or effectuating Custom Redemptions and/or orders involving cash should be mindful of time deadlines imposed by intermediaries, such as DTC and/or the Federal Reserve System, which may impact the successful processing of such orders to ensure that cash and securities are transferred by the Settlement Date, as defined above.

Requests Using the Clearing Process

If available, (portions of) redemption requests may be settled through the Clearing Process. In connection with such orders, such trade instructions as are necessary to effect the redemption are transmitted on behalf of the Authorized Participant. Pursuant to such trade instructions, the Authorized Participant agrees to deliver the requisite Creation Unit(s) to the Fund, together with such additional information as may be required by the Distributor. Cash Components will be delivered using either the Clearing Process or the Federal Reserve System, as described above.

Requests Outside the Clearing Process

If the Clearing Process is not available for (portions of) an order, Redemption Baskets will be delivered outside the Clearing Process. Orders outside the Clearing Process must state that the DTC Participant is not using the Clearing Process and that the redemption will be effected through DTC. The Authorized Participant must transfer or cause to be transferred the Creation Unit(s) of shares being redeemed through the book-entry system of DTC so as to be delivered through DTC to the Custodian by 10:00 a.m., Eastern Time, on received T+1. In addition, the Cash Component must be received by the Custodian by 12:00 p.m., Eastern Time, on T+1. If the Custodian does not receive the Creation Unit(s) and Cash Component by the appointed times on T+1, the redemption will be rejected, except in the circumstances described below. A rejected redemption request may be resubmitted the following Business Day.

Orders involving foreign Redemption Securities are expected to be settled outside the Clearing Process. Thus, the Adviser and the Custodian will be notified upon receipt of an irrevocable redemption request. The Custodian will then provide information of the redemption to the Fund's local sub-custodian(s). The redeeming Authorized Participant, or the investor on whose behalf is acting, will have established appropriate arrangements with a broker-dealer, bank or other custody provider in each jurisdiction in which the Redemption Securities are customarily traded and to which such Redemption Securities (and any cash-in-lieu) can be delivered from the Fund's accounts at the applicable local sub-custodian(s).

Acceptance of Redemption Requests

All questions as to the number of shares of each security in the deposit securities and the validity, form, eligibility and acceptance for deposit of any securities to be delivered shall be determined by the Trust. The Trust's determination shall be final and binding.

Delivery of Redemption Basket

Once the Fund has accepted a redemption request, upon next determination of the Fund's NAV, the Fund will confirm the issuance of a Redemption Basket, against receipt of the Creation Unit(s) at such NAV, any cash-in-lieu and Transaction Fee. A Creation Unit tendered for redemption and the payment of the Cash Component, any cash-in-lieu and Transaction Fee will be effected through DTC. The Authorized Participant, or the investor on whose behalf it is acting, will be recorded on the book-entry system of DTC.

The Redemption Basket will generally be delivered to the redeeming Authorized Participant within T+1. Except under the circumstances described below, however, a Redemption Basket generally will not be issued until the Creation Unit(s) are delivered to the Fund, along with the Cash Component, any cash-in-lieu and Transaction Fee.

In certain cases, Authorized Participants will create and redeem Creation Units on the same trade date. In these instances, the Trust reserves the right to settle these transactions on a net basis.

With respect to orders involving foreign Redemption Securities, the Fund may settle Creation Unit transactions on a basis other than T+1 in order to accommodate foreign market holiday schedules, to account for different treatment among foreign and U.S. markets of dividend record dates and ex-dividend dates (that is the last day the holder of a security can sell the security and still receive dividends payable on the security), and in certain other circumstances. When a relevant local market is closed due to local market holidays, the local market settlement process will not commence until the end of the local holiday period.

Cash Redemption Method

When cash redemptions of Creation Units are available or specified for the Fund, they will be effected in essentially the same manner as in-kind redemptions. In the case of a cash redemption, the investor will receive the cash equivalent of the Redemption Basket minus any Transaction Fees, as described above.

TAX STATUS

The following discussion is general in nature and should not be regarded as an exhaustive presentation of all possible tax ramifications. All shareholders should consult a qualified tax adviser regarding their investment in the Fund.

The Fund intends to qualify and elect to be treated as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Tax Code"), and intends to continue to so qualify, which requires compliance with certain requirements concerning the sources of its income, diversification of its assets, and the amount and timing of its distributions to shareholders. Such qualification does not involve supervision of management or investment practices or policies by any government agency or bureau. By so qualifying, the Fund should not be subject to federal income or excise tax on its net investment income or net capital gain, which are distributed to shareholders in accordance with the applicable timing requirements. Net investment income and net capital gain of the Fund will be computed in accordance with Section 852 of the Tax Code.

Net investment income is made up of dividends and interest less expenses. Net capital gain for a fiscal year is computed by taking into account any capital loss carryforward of the Fund. Capital losses incurred after January 31, 2011 may now be carried forward indefinitely and retain the character of the original loss. Under pre-enacted laws, capital losses could be carried forward to offset any capital gains for eight years, and carried forward as short-term capital, irrespective of the character of the original loss. Capital loss carry forwards are available to offset future realized capital gains. To the extent that these carry forwards are used to offset future capital gains it is probable that the amount offset will not be distributed to shareholders.

The Fund intends to distribute all of its net investment income, any excess of net short-term capital gains over net long-term capital losses, and any excess of net long-term capital gains over net short-term capital losses in accordance with the timing requirements imposed by the Tax Code and therefore should not be required to pay any federal income or excise taxes. Distributions of net capital gain, if any, will be made annually no later than December 31 of each year. Both types of distributions will be in cash.

To be treated as a regulated investment company under Subchapter M of the Tax Code, the Fund must also (a) derive at least 90% of its gross income from dividends, interest, payments with respect to securities loans, net income from certain publicly traded partnerships and gains from the sale or other disposition of securities or foreign currencies, or other income (including, but not limited to, gains from options, futures or forward contracts) derived with respect to the business of investing in such securities or currencies, and (b) diversify its holding so that, at the end of each fiscal quarter, (i) at least 50% of the market value of the Fund's assets is represented by cash, U.S. government securities and securities of other regulated investment companies, and other securities (for purposes of this calculation, generally limited in respect of any one issuer, to an amount not greater than 5% of the market value of the Fund's assets and 10% of the outstanding voting securities of such issuer) and (ii) not more than 25% of the value of its assets is invested in the securities of (other than U.S. government securities or the securities of other regulated investment companies) any one issuer, two or more issuers that the Fund controls and that are determined to be engaged in the same or similar trades or businesses, or the securities of certain publicly traded partnerships.

If the Fund fails to qualify as a regulated investment company under Subchapter M in any fiscal year, it will be treated as a corporation for federal income tax purposes. As such that Fund would be required to pay income taxes on its net investment income and net realized capital gains, if any, at the rates generally applicable to corporations. Shareholders of the Fund generally would not be liable for income tax on the Fund's net investment income or net realized capital gains in their individual capacities. Distributions to shareholders, whether from the Fund's net investment income or net realized capital gains, would be treated as taxable dividends to the extent of current or accumulated earnings and profits of the Fund.

The Fund is subject to a 4% nondeductible excise tax on certain undistributed amounts of ordinary income and capital gain under a prescribed formula contained in Section 4982 of the Tax Code. The formula requires payment to shareholders during a calendar year of distributions representing at least 98% of the Fund's ordinary income for the calendar year and at least 98.2% of its capital gain net income (i.e., the excess of its capital gains over capital losses) realized during the one-year period ending October 31 during such year plus 100% of any income that was neither distributed nor taxed to the Fund during the preceding calendar year. Under ordinary circumstances, the Fund expects to time its distributions so as to avoid liability for this tax.

The following discussion of tax consequences is for the general information of shareholders that are subject to tax. Shareholders that are IRAs or other qualified retirement plans are exempt from income taxation under the Tax Code.

Distributions of taxable net investment income and the excess of net short-term capital gain over net long-term capital loss are taxable to shareholders as ordinary income.

Distributions of net capital gain ("capital gain dividends") generally are taxable to shareholders as long-term capital gain; regardless of the length of time the shares of the Trust have been held by such shareholders.

Certain U.S. shareholders, including individuals and estates and trusts, are subject to an additional 3.8% Medicare tax on all or a portion of their “net investment income,” which should include dividends from the Fund and net gains from the disposition of shares of the Fund. U.S. shareholders are urged to consult their own tax advisers regarding the implications of the additional Medicare tax resulting from an investment in the Fund.

Redemption of Fund shares by a shareholder will result in the recognition of taxable gain or loss in an amount equal to the difference between the amount realized and the shareholder’s tax basis in his or her Fund shares. Such gain or loss is treated as a capital gain or loss if the shares are held as capital assets. However, any loss realized upon the redemption of shares within six months from the date of their purchase will be treated as a long-term capital loss to the extent of any amounts treated as capital gain dividends during such six-month period. All or a portion of any loss realized upon the redemption of shares may be disallowed to the extent shares are purchased (including shares acquired by means of reinvested dividends) within 30 days before or after such redemption.

Distributions of taxable net investment income and net capital gain will be taxable as described above, whether received in additional cash or shares. Shareholders electing to receive distributions in the form of additional shares will have a cost basis for federal income tax purposes in each share so received equal to the net asset value of a share on the reinvestment date.

All distributions of taxable net investment income and net capital gain, whether received in shares or in cash, must be reported by each taxable shareholder on his or her federal income tax return. Dividends or distributions declared in October, November or December as of a record date in such a month, if any, will be deemed to have been received by shareholders on December 31, if paid during January of the following year. Redemptions of shares may result in tax consequences (gain or loss) to the shareholder and are also subject to these reporting requirements.

Under the Tax Code, the Fund will be required to report to the Internal Revenue Service all distributions of taxable income and capital gains as well as gross proceeds from the redemption or exchange of Fund shares, except in the case of certain exempt shareholders. Under the backup withholding provisions of Section 3406 of the Tax Code, distributions of taxable net investment income and net capital gain and proceeds from the redemption or exchange of the shares of a regulated investment company may be subject to withholding of federal income tax in the case of non-exempt shareholders who fail to furnish the investment company with their taxpayer identification numbers and with required certifications regarding their status under the federal income tax law, or if the Fund is notified by the IRS or a broker that withholding is required due to an incorrect TIN or a previous failure to report taxable interest or dividends. If the withholding provisions are applicable, any such distributions and proceeds, whether taken in cash or reinvested in additional shares, will be reduced by the amounts required to be withheld.

Options, Futures, Forward Contracts and Swap Agreements

To the extent such investments are permissible for the Fund, the Fund’s transactions in options, futures contracts, hedging transactions, forward contracts, straddles and foreign currencies will be subject to special tax rules (including mark-to-market, constructive sale, straddle, wash sale and short sale rules), the effect of which may be to accelerate income to the Fund, defer losses to the Fund, cause adjustments in the holding periods of the Fund’s securities, convert long-term capital gains into short-term capital gains and convert short-term capital losses into long-term capital losses. These rules could therefore affect the amount, timing and character of distributions to shareholders.

To the extent such investments are permissible, certain of the Fund’s hedging activities (including its transactions, if any, in foreign currencies or foreign currency-denominated instruments) are likely to produce a difference between its book income and its taxable income. If the Fund’s book income exceeds its taxable income, the distribution (if any) of such excess book income will be treated as (i) a dividend to the extent of the Fund’s remaining earnings and profits (including earnings and profits arising from tax-exempt income), (ii) thereafter, as a return of capital to the extent of the recipient’s basis in the shares, and (iii) thereafter, as gain from the sale or exchange of a capital asset. If the Fund’s book income is less than taxable income, the Fund could be required to make distributions exceeding book income to qualify as a regulated investment company that is accorded special tax treatment.

Passive Foreign Investment Companies

Investment by the Fund in certain passive foreign investment companies (“PFICs”) could subject the Fund to a U.S. federal income tax (including interest charges) on distributions received from the company or on proceeds received from the disposition of shares in the company, which tax cannot be eliminated by making distributions to Fund shareholders. However, the Fund may elect to treat a PFIC as a qualified electing fund (“QEF”), in which case the Fund will be required to include its share of the company’s income and net capital gains annually, regardless of whether it receives any distribution from the company.

The Fund also may make an election to mark the gains (and to a limited extent losses) in such holdings “to the market” as though it had sold and repurchased its holdings in those PFICs on the last day of the Fund’s taxable year. Such gains and losses are treated as ordinary income and loss. The QEF and mark-to-market elections may accelerate the recognition of income (without the receipt of cash) and increase the amount required to be distributed for the Fund to avoid taxation. Making either of these elections, therefore, may require the Fund to liquidate other investments (including when it is not advantageous to do so) to meet its distribution requirement, which also may accelerate the recognition of gain and affect the Fund’s total return.

Foreign Currency Transactions

The Fund’s transactions in foreign currencies, foreign currency-denominated debt securities and certain foreign currency options, futures contracts and forward contracts (and similar instruments) may give rise to ordinary income or loss to the extent such income or loss results from fluctuations in the value of the foreign currency concerned.

Foreign Taxation

Income received by the Fund from sources within foreign countries may be subject to withholding and other taxes imposed by such countries. Tax treaties and conventions between certain countries and the U.S. may reduce or eliminate such taxes. If more than 50% of the value of the Fund’s total assets at the close of its taxable year consists of securities of foreign corporations, the Fund may be able to elect to “pass through” to the Fund’s shareholders the amount of eligible foreign income and similar taxes paid by the Fund. If this election is made, a shareholder generally subject to tax will be required to include in gross income (in addition to taxable dividends actually received) his or her pro rata share of the foreign taxes paid by the Fund, and may be entitled either to deduct (as an itemized deduction) his or her pro rata share of foreign taxes in computing his or her taxable income or to use it as a foreign tax credit against his or her U.S. federal income tax liability, subject to certain limitations. In particular, a shareholder must hold his or her shares (without protection from risk of loss) on the ex-dividend date and for at least 15 more days during the 30-day period surrounding the ex-dividend date to be eligible to claim a foreign tax credit with respect to a gain dividend. No deduction for foreign taxes may be claimed by a shareholder who does not itemize deductions. Each shareholder will be notified within 60 days after the close of the Fund’s taxable year whether the foreign taxes paid by the Fund will “pass through” for that year.

Generally, a credit for foreign taxes is subject to the limitation that it may not exceed the shareholder’s U.S. tax attributable to his or her total foreign source taxable income. For this purpose, if the pass-through election is made, the source of the Fund’s income will flow through to shareholders of the Fund. With respect to the Fund, gains from the sale of securities will be treated as derived from U.S. sources and certain currency fluctuation gains, including fluctuation gains from foreign currency-denominated debt securities, receivables and payables will be treated as ordinary income derived from U.S. sources. The limitation on the foreign tax credit is applied separately to foreign source passive income, and to certain other types of income. A shareholder may be unable to claim a credit for the full amount of his or her proportionate share of the foreign taxes paid by the Fund. The foreign tax credit can be used to offset only 90% of the revised alternative minimum tax imposed on corporations and individuals and foreign taxes generally are not deductible in computing alternative minimum taxable income.

Original Issue Discount and Pay-In-Kind Securities

Current federal tax law requires the holder of a U.S. Treasury or other fixed income zero coupon security to accrue as income each year a portion of the discount at which the security was purchased, even though the holder receives no interest payment in cash on the security during the year. In addition, pay-in-kind securities will give rise to income, which is required to be distributed and is taxable even though the Fund holding the security receives no interest payment in cash on the security during the year.

Some of the debt securities (with a fixed maturity date of more than one year from the date of issuance) that may be acquired by the Fund may be treated as debt securities that are issued originally at a discount. Generally, the amount of the original issue discount ("OID") is treated as interest income and is included in income over the term of the debt security, even though payment of that amount is not received until a later time, usually when the debt security matures. A portion of the OID includable in income with respect to certain high-yield corporate debt securities (including certain pay-in-kind securities) may be treated as a dividend for U.S. federal income tax purposes.

Some of the debt securities (with a fixed maturity date of more than one year from the date of issuance) that may be acquired by the Fund in the secondary market may be treated as having market discount. Generally, any gain recognized on the disposition of, and any partial payment of principal on, a debt security having market discount is treated as ordinary income to the extent the gain, or principal payment, does not exceed the "accrued market discount" on such debt security. Market discount generally accrues in equal daily instalments. The Fund may make one or more of the elections applicable to debt securities having market discount, which could affect the character and timing of recognition of income.

Some debt securities (with a fixed maturity date of one year or less from the date of issuance) that may be acquired by the Fund may be treated as having acquisition discount, or OID in the case of certain types of debt securities. Generally, the Fund will be required to include the acquisition discount, or OID, in income over the term of the debt security, even though payment of that amount is not received until a later time, usually when the debt security matures. The Fund may make one or more of the elections applicable to debt securities having acquisition discount, or OID, which could affect the character and timing of recognition of income.

The Fund that holds the foregoing kinds of securities may be required to pay out as an income distribution each year an amount that is greater than the total amount of cash interest the Fund actually received. Such distributions may be made from the cash assets of the Fund or by liquidation of portfolio securities, if necessary (including when it is not advantageous to do so). The Fund may realize gains or losses from such liquidations. In the event the Fund realizes net capital gains from such transactions, its shareholders may receive a larger capital gain distribution, if any, than they would in the absence of such transactions.

Shareholders of the Fund may be subject to state and local taxes on distributions received from the Fund and on redemptions of the Shares.

A brief explanation of the form and character of the distribution accompany each distribution. In January of each year, the Fund issues to each shareholder a statement of the federal income tax status of all distributions.

Shareholders should consult their tax advisers about the application of federal, state and local and foreign tax law in light of their particular situation.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Cohen & Company, Ltd., 1350 Euclid Ave., Suite 800, Cleveland, Ohio 44115, serves as the Fund's independent registered public accounting firm for the current fiscal year. The firm provides services including (i) audit of annual financial statements, and (ii) assistance and consultation in connection with SEC filings. A related entity, Cohen & Co Advisory, LLC, provides tax services.

LEGAL COUNSEL

Thompson Hine LLP, 41 South High Street, Suite 1700, Columbus, Ohio 43215, serves as the Trust's legal counsel.

CONSOLIDATED FINANCIAL STATEMENTS

A copy of the Fund's Semi-Annual and Annual Consolidated Financial Statement Reports included in Form N-CSR, when issued, may be obtained upon request and without charge by calling 1 (855) 772-8488 during normal business hours or by visiting www.simplify.us/etfs. Because the Fund has not yet commenced operations, no financial statements are available for the Fund as of the date of this SAI.

Policies and Procedures

Simplify Asset Management, Inc. (“SAMI” or the “Company”) has the authority to vote proxies with respect of securities in client accounts (“Client Securities”) over which the Company has voting discretion. In such cases, the Company will cast proxy votes in a manner that is consistent with the best interests of the Company’s clients. Where the Company undertakes proxy voting responsibilities on behalf of multiple clients, it shall consider whether it should have different voting policies for some or all of these different clients, depending on the investment strategy and objectives of each client. These proxy voting policies and procedures are designed to deal with the complexities which may arise in cases where the Company’s interests conflict or appear to conflict with the interests of its clients and to provide a copy of proxy voting and these procedures upon client request. SAMI will also make available the record of the Company’s votes promptly upon request.

Unless contractually obligated to vote in a certain manner, the Company will reach its voting decisions independently, after appropriate investigation. It does not generally intend to delegate its decision-making or to rely on the recommendations of any third party, although it may take such recommendations into consideration. Where the Company deviates from the guidelines listed below, or depends upon a third party to make the decision, the reasons shall be documented. SAMI may consult with such other experts, such as CPA’s, investment bankers, attorneys, etc., as it deems necessary to help reach informed decisions.

The CCO is responsible for monitoring the effectiveness of this policy.

SAMI generally will monitor proposed corporate actions and proxy issues regarding client securities and may take any of the following actions based on the best interests of its clients: (i) determine how to vote the proxies; (ii) abstain; or (iii) follow the recommendations of an independent proxy voting service in voting the proxies.

In general, the Company will determine how to vote proxies based on reasonable judgment of the vote most likely to produce favorable financial results for its clients. Proxy votes generally will be cast in favor of proposals that maintain or strengthen the shared interests of shareholders. Proxy votes generally will be cast against proposals having the opposite effect. The Company will always consider each side of each proxy issue.

Non-Voting of Proxies

SAMI will generally not vote proxies in the following situations:

- Where the Company and client have agreed in advance to limit the conditions under which the Company would exercise voting authority;
 - Proxies are received for equity securities where, at the time of receipt, the Company’s position, across all clients that it advises, is less than, or equal to, 1% of the total outstanding voting equity (an “immaterial position”); or
 - Where the Company has determined that refraining is in the best interest of the client, such as when the cost to the client of voting the proxy is greater than the expected benefit of voting (e.g. voting a foreign security that is required to be made in person).
- Proxies are received for equity securities where, at the time of receipt, the Company’s clients no longer hold that position.

Management Proposals

Absent good reason to the contrary, the Company will generally give substantial weight to management recommendations regarding voting. This is based on the view that management is usually in the best position to know which corporate actions are in the best interests of common shareholders as a whole.

SAMI will generally vote for routine matters proposed by issuer management, such as setting a time or place for an annual meeting, changing the name or fiscal year of the company, or voting for directors in favor of the management proposed slate. Other routine matters in which the Company will generally vote along with company management include: appointment of auditors; fees paid to board members; and change in the board structure. The Company will generally vote along with management as long as the proposal does not: i) measurably change the structure, management, control or operations of the company; ii) measurably change the terms of, or fees or expenses associated with, an investment in the company; and (iii) the proposal is consistent with customary industry standards and practices, as well as the laws of the state of incorporation applicable to the company. Routine matters may not necessitate the same level of analysis than non-routine matters.

Non-Routine Matters

Non-routine matters include such things as:

- Amendments to management incentive plans;
- The authorization of additional common or preferred stock;
- Initiation or termination of barriers to takeover or acquisition;
- Mergers or acquisitions;
- Changes in the state of incorporation;
- Corporate reorganizations;
- Term limits for board members; and
- “Contested” director slates.

In non-routine matters, the Company will attempt to be generally familiar with the questions at issue. Non-routine matters will be voted on a case-by-case basis given the complexity of many of these issues. When determining how to vote non-routine matters the Company shall conduct an issue-specific analysis, giving consideration to the potential effect on the value of a client’s investments, documentation of the analysis shall be maintained in the Company’s proxy voting files.

Processing Proxy Votes

The CCO will be responsible for determining whether each proxy is for a “routine” matter, as described above, and whether the policy and procedures set forth herein actually address the specific issue. For proxies that are not clearly “routine”, the Company, in conjunction with the CCO, will determine how to vote each such proxy by applying these policies and procedures. Upon making a decision, the proxy will be executed and returned for submission to the issuer. SAMI’s proxy voting record will be updated at the time the proxy is submitted.

An independent proxy voting advisory and research firm may be appointed as a “Proxy Service” for voting the Company’s proxies after approval by the CCO.

Periodic Testing

The Company shall evaluate compliance by periodically sampling the proxy votes it casts on behalf of its clients by sampling proxy votes that relate to proposals that are non-routine matters and require more issue-specific analysis (e.g., mergers and acquisition transactions, dissolutions, conversions, or consolidations).

Conflicts of Interest

Conflicts of interest between the Company or a principal of the Company and the Company's clients with respect to a proxy issue conceivably may arise, for example, from personal or professional relationships with an issuer or with the directors, candidates for director, or senior executives of an issuer.

Potential conflicts of interest between the Company and its clients may arise when the Company's relationships with an issuer or with a related third party actually conflict, or appear to conflict, with the best interests of the Company's clients.

If the issue is specifically addressed in these policies and procedures, the Company will vote in accordance with these policies. In a situation where the issue is not specifically addressed in these policies and procedures and an apparent or actual conflict exists, the Company shall either: i) delegate the voting decision to an independent third party; ii) inform clients of the conflict of interest and obtain advance consent of a majority of such clients for a particular voting decision; or iii) obtain approval of a voting decision from the Company's CCO, who will be responsible for documenting the rationale for the decision made and voted.

In all such cases, the Company will make disclosures to clients of all material conflicts and will keep documentation supporting its voting decisions.

If the CCO determines that a material conflict of interest exists, the following procedures shall be followed:

1. SAMI may disclose the existence and nature of the conflict to the client(s) owning the securities, and seek directions on how to vote the proxies;
2. SAMI may abstain from voting, particularly if there are conflicting client interests (for example, where client accounts hold different client securities in a competitive merger situation); or
3. SAMI may follow the recommendations of an independent proxy voting service in voting the proxies.

Disclosure to Clients

A summary of the Company's proxy voting policy will be included in the Company's Disclosure Brochure. The full text of the Company's proxy voting policy will be provided to clients upon request.

Proxy Advisory Firm

When the Company retains a proxy advisory firm to provide research, voting recommendations or voting execution services, the Company shall conduct reasonable oversight to ensure the proxy adviser's recommendations are consistent with the Company's proxy voting policies and in the best interest of the Company's clients and investors. The level of oversight may vary depending on (1) the scope of the investment adviser's voting authority, and (2) the type of functions and services that the investment adviser has retained the proxy advisory firm to perform.

Periodic Advisory Firm Testing

The Company shall periodically evaluate the proxy services provided by third party providers which should consider the services, recommendations made by the provider and how the provider voted, as applicable, and consider the steps enumerated below.

When conducting oversight of a proxy advisory firm, the Company should consider taking the following steps:

- whether the proxy advisory firm has the capacity and competency to adequately analyze the matters for which the investment adviser is responsible for voting including the adequacy and quality of the proxy advisory firm's staffing, personnel, and/or technology;
- the adequacy of disclosures the proxy advisory firm has provided regarding its methodologies in formulating voting recommendations, such that the Company can understand the factors underlying the proxy advisory firm's voting recommendations
- the effectiveness of the proxy advisory firm's policies and procedures for obtaining current and accurate information relevant to matters included in its research and on which it makes voting recommendations;
- the Company's access to the proxy advisory firm's sources of information and methodologies used in formulating voting recommendations or executing voting instructions;
- the nature of any third-party information sources that the proxy advisory firm uses as a basis for its voting recommendations;
- whether the proxy advisory firm has adequate policies and procedures to identify, disclose, and address actual and potential conflicts of interest.

Class Action Lawsuits

From time to time, securities held in the accounts of clients will be the subject of class action lawsuits. SAMI has no obligation to determine if securities held by the client are subject to a pending or resolved class action lawsuit. It also has no duty to evaluate a client's eligibility or to submit a claim to participate in the proceeds of a securities class action settlement or verdict. Furthermore, the Company has no obligation or responsibility to initiate litigation to recover damages on behalf of clients who may have been injured because of actions, misconduct, or negligence by corporate management of issuers whose securities are held by clients.

Where the Company receives written or electronic notice of a class action lawsuit, settlement, or verdict directly relating to a client account, it will forward all notices, proof of claim forms, and other materials, to the client. Electronic mail is acceptable where appropriate if the client has authorized contact in this manner.

Each Controlled Foreign Corporation was formed under and is subject to the laws of the Cayman Islands. The financial statements of each Cayman Controlled Foreign Corporation are consolidated with the financial statements of its respective fund.

Item 30. Indemnification

Pursuant to the Agreement and Declaration of Trust (the “Declaration”), every person who is, or has been, a Trustee, officer, or employee of the Trust, including persons who serve at the request of the Trust as directors, trustees, officers, employees or agents of another organization in which the Trust has an interest as a shareholder, creditor or otherwise (“Covered Person”), shall be indemnified by the Trust to the fullest extent permitted by law against liability and against all expenses reasonably incurred or paid by him in connection with any claim, action, suit or proceeding in which he becomes involved as a party or otherwise by virtue of his being or having been such a Trustee, director, officer, employee or agent and against amounts paid or incurred by him in settlement thereof.

No indemnification shall be provided under the Declaration to a Covered Person to the extent such indemnification is prohibited by applicable federal law.

The Underwriting Agreement provides that the Registrant agrees to indemnify and hold harmless Foreside Financial Services, LLC (the “Distributor”), its affiliates and each of their respective directors, officers and employees and agents and any person who controls the Distributor within the meaning of Section 15 of the Securities Act of 1933 against any loss, liability, claim, damages or expense (including the reasonable cost of investigating or defending any alleged loss, liability, claim, damages or expense and reasonable counsel fees incurred in connection therewith) that the Distributor may incur arising out of or based upon: (i) Distributor serving as distributor for the Trust in compliance with this Agreement and applicable law; (ii) the allegation of any wrongful act of the Trust or any of its directors, officers, employees or affiliates in connection with its duties and responsibilities in this Agreement; (iii) any claim that the Registration Statement, Prospectus, Statement of Additional Information, product description, shareholder reports, Marketing Materials and advertisements specifically approved by the Registrant and the Adviser/Sub-Adviser or other information filed or made public by the Registrant (as from time to time amended) included an untrue statement of a material fact or omitted to state a material fact required to be stated therein or necessary in order to make the statements therein (and in the case of the Prospectus, Statement of Additional Information and product description, in light of the circumstances under which they were made) not misleading under the Securities Act, or any other statute or the common law; (iv) the breach by the Registrant of any obligation, representation or warranty contained in this Agreement; or (v) the Registrant’s failure to comply in any material respect with applicable securities laws.

Item 31. Business and Other Connections of the Investment Adviser

A description of any other business, profession, vocation, or employment of a substantial nature in which the Adviser or each Sub-Adviser is set forth in the applicable Fund's Prospectus in the section entitled "Management" and Statement of Additional Information in the section titled "Investment Adviser".

The information required by this Item 31 with respect to each director, officer or partner of the Adviser is incorporated by reference to the Adviser's Form ADV (File No. 801-119255). The Adviser's Form ADV may be obtained, free of charge, at the SEC's website at www.adviserinfo.sec.gov. The information required by this Item 31 with respect to each director, officer or partner of the Sub-Adviser (Volt Equity, LLC) is incorporated by reference to the Sub-Adviser's Form ADV (File No. 801-119673). The information required by this Item 31 with respect to each director, officer or partner of the Sub-Adviser (Propel Bio Management, LLC) is incorporated by reference to the Sub-Adviser's Form ADV (File No. 801-126889). The information required by this Item 31 with respect to each director, officer or partner of the Sub-Adviser (Asterozoa Capital, LLC) is incorporated by reference to the Sub-Adviser's Form ADV (File No. 801-122731). The information required by this Item 31 with respect to each director, officer or partner of the Sub-Adviser (System 2 Advisors, L.P.) is incorporated by reference to the Sub-Adviser's Form ADV (File No. 801-76820). The information required by this Item 31 with respect to each director, officer or partner of the Sub-Adviser (Gamma Asset Management LLC) is incorporated by reference to the Sub-Adviser's Form ADV (File No. 801-129754). The information required by this Item 31 with respect to each director, officer or partner of the Sub-Adviser (FCO Advisors LP) is incorporated by reference to the Sub-Adviser's Form ADV (File No. 801-112293). The information required by this Item 31 with respect to each director, officer or partner of the Sub-Adviser (Kayne Anderson Capital Advisors, L.P.) is incorporated by reference to the Sub-Adviser's Form ADV (File No. 801-46991). The information required by this Item 31 with respect to each director, officer or partner of the Sub-Adviser (Piper Sandler & Co.) is incorporated by reference to the Sub-Adviser's Form ADV (File No. 801-108049). The information required by this Item 31 with respect to each director, officer or partner of the Sub-Adviser (Ancorato) is incorporated by reference to the Sub-Adviser's Form ADV (File No. 801-126757). A Sub-Adviser's Form ADV may be obtained, free of charge, at the SEC's website at www.adviserinfo.sec.gov. The information required by this Item 31 with respect to each director, officer or partner of Altis Partners (Jersey) Limited is incorporated by reference to its NFA Registration (NFA ID: 0358093). Information regarding Altis Partners (Jersey) Limited NFA Registration is available, free of charge, at the NFA's website at www.nfa.futures.org.

(h)(16)	Amendment to the Fund Administration and Accounting Agreement
(i)	Legal Opinion and Consent of Thompson Hine LLP
(m)(4)	Amended 12b-1 Distribution and Service Plan

Amendment to Exhibit A of the Management Agreement
Between
Simplify Exchange Traded Funds
and
Simplify Asset Management Inc.

This amendment (the "Amendment") to the Management Agreement (the "Agreement") by and between Simplify Exchange Traded Funds (the "Trust") and Simplify Asset Management Inc. ("SAMI") is entered into with effect as of the respective per-fund effective dates listed below (each an "Effective Date").

WHEREAS, the Trust and SAMI (the "Parties") desire to amend Exhibit A of the Agreement to reflect the addition of funds; and

NOW THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby agree as follows:

1. Capitalized terms not otherwise defined herein shall have the meanings set forth in Agreement.
2. Exhibit A of the Agreement is hereby deleted in its entirety and replaced by the Exhibit A attached hereto.
3. Except as expressly amended hereby, all of the provisions of the Agreement shall remain unamended and in full force and effect to the same extent as if fully set forth herein.
4. This Amendment shall be governed by, and the provisions of this Amendment shall be construed and interpreted under and in accordance with, the laws of the State of Delaware.

IN WITNESS WHEREOF, the Parties hereto have caused this Amendment to be executed in their names and on their behalf by and through their duly authorized officers.

MANAGEMENT AGREEMENT

TO: Simplify Asset Management Inc. (the “Adviser”)

Simplify DBi CTA Managed Futures Index Cayman Fund Limited (the “Company”) herewith confirms its agreement with you. The Company has been organized to engage in the business of a controlled foreign corporation that holds and trades certain securities and instruments for the benefit of Simplify DBi CTA Managed Futures Index ETF (the “Fund”), a series of Simplify Exchange Traded Funds (the “Trust”) an open-end management investment company that is organized as a Delaware statutory trust.

Pursuant to a management agreement you currently serve (or will serve) as the sole investment adviser to the Fund (the “Fund Management Agreement”) upon commencement of investment operations in 2026.

The Company was created to hold and trade certain securities and instruments in furtherance of the Fund’s investment strategy, and solely for the benefit of the Fund. Accordingly, this Management Agreement is being entered into such that you shall be able to act as the sole investment manager of the Company and provide certain other services, as more fully set forth below, in furtherance of the services being provided in accordance with the Fund Management Agreement. Accordingly, the Company agrees with you as follows effective upon the first issuance of participating shares by the Fund.

1. ADVISORY SERVICES

Subject to the supervision of the Board of Directors of the Company (the “Board of Directors”), you will provide or arrange to be provided to the Company such investment advice as you in your discretion deem advisable pursuant to the investment program of the Fund and consistent with the Fund’s investment objective and policies. You will determine or arrange for others to determine the securities and other instruments to be purchased or invested in for the Company, the portfolio securities and other instruments to be held or sold by the Company and the portion of the Company’s assets to be held uninvested, subject always to the Company’s and the Fund’s respective investment objective, policies and restrictions, as each of the same shall be from time to time in effect, and subject further to such policies and instructions as the Board of Trustees of the Trust (the “Board of Trustees”) and Board of Directors may from time to time establish. You will furnish such reports, evaluations, information or analyses to the Company as the Board of Directors may request from time to time or as you may deem to be desirable. You also will advise and assist the officers of the Company in taking such steps as are necessary or appropriate to carry out the decisions of the Board of Directors and the appropriate committees of the Board of Directors regarding the conduct of the business of the Company. You may delegate any of the responsibilities, rights or duties described above to one or more persons, provided you notify the Company and agree that such delegation does not relieve you from any liability hereunder.

The Adviser shall provide at least sixty (60) days’ prior written notice to the Company of any change in the ownership or management of the Adviser, or any event or action that may constitute a change in control. The Adviser shall provide prompt notice of any change in the portfolio manager(s) responsible for the day-to-day management of the Company.

2. ALLOCATION OF CHARGES AND EXPENSES

You will pay all operating expenses of the Company, including the compensation and expenses of any employees of the Company and of any other persons rendering any services to the Company; clerical and shareholder service staff salaries; office space and other office expenses; fees and expenses incurred by the Company in connection with membership in investment company organizations; legal, auditing and accounting expenses; all fees and disbursements in connection with the incorporation of the Company as an exempted company in the Cayman Islands (including registrar fees, disbursements and legal fees); registered office fees; annual fees payable to the Registrar of Companies in the Cayman Islands; insurance expenses; fees and expenses of the custodian, transfer agent, dividend disbursing agent, plan agent, administrator, accounting and pricing services agent, underwriter and any other service provider of the Company; expenses, including clerical expenses, of issue, sale, redemption or repurchase of shares of the Company; the cost of preparing and distributing reports and notices to shareholders, the cost of printing or preparing membership certificates or any other documents, statements; expenses of membership meetings and proxy solicitations; advertising, promotion and other expenses incurred directly or indirectly in connection with the Company; and all other operating expenses not specifically assumed by the Company.

The Company will pay all interest expenses, taxes, brokerage expenses, Rule 12b-1 fees (if any), acquired fund fees and expenses, expenses incidental to a meeting of the Company's shareholders and the management fee payable to you under this Agreement.

You may obtain reimbursement from the Company, at such time or times as you may determine in your sole discretion, for any of the expenses advanced by you which the Company is obligated to pay, and such reimbursement shall not be considered to be part of your compensation pursuant to this Agreement.

3. COMPENSATION OF THE MANAGER

For all of the services to be rendered as provided in this Agreement, as of the last business day of each month, the Company will pay you a fee based on the average value of the daily net assets of the Company and paid at an annual rate as set forth on the Exhibit executed with respect to the Company and attached hereto.

4. EXECUTION OF PURCHASE AND SALE ORDERS

In connection with purchases or sales of portfolio securities and other instruments for the account of the Company, it is understood that you will arrange for the placing of all orders for the purchase and sale of portfolio securities and other instruments for the account with brokers or dealers selected by you, subject to review of this selection by the Board of Directors from time to time. You will be responsible for the negotiation and the allocation of principal business and portfolio brokerage. In the selection of such brokers or dealers and the placing of such orders, you are directed at all times to seek for the Company the best qualitative execution, taking into account such factors as price (including the applicable brokerage commission or dealer spread), the execution capability, financial responsibility and responsiveness of the broker or dealer and the brokerage and research services provided by the broker or dealer.

You agree to generally seek favorable prices and commission rates that are reasonable in relation to the benefits received. In seeking best qualitative execution, you are authorized to select brokers or dealers who also provide brokerage and research services to the Company and/or the other accounts over which you exercise investment discretion. You are authorized to pay a broker or dealer who provides such brokerage and research services a commission for executing a Company portfolio transaction which is in excess of the amount of commission another broker or dealer would have charged for effecting that transaction if you determine in good faith that the amount of the commission is reasonable in relation to the value of the brokerage and research services provided by the executing broker or dealer. The determination may be viewed in terms of either a particular transaction or your overall responsibilities with respect to the Company and to accounts over which you exercise investment discretion. The Company and you understand and acknowledge that, although the information may be useful to the Company and you, it is not possible to place a dollar value on such information. The Board of Directors shall periodically review the commissions paid by the Company to determine if the commissions paid over representative periods of time were reasonable in relation to the benefits to the Company.

A broker's or dealer's sale or promotion of Fund shares shall not be a factor considered by your personnel responsible for selecting brokers to effect securities transactions on behalf of the Company. You and your personnel shall not enter into any written or oral agreement or arrangement to compensate a broker or dealer for any promotion or sale of Fund shares by directing to such broker or dealer (i) the Company's portfolio securities or other instruments transactions or (ii) any remuneration, including but not limited to, any commission, mark-up, mark down or other fee received or to be received from the Company's portfolio transactions through such broker or dealer. However, you may place Company portfolio transactions with brokers or dealers that sell or promote shares of the Fund provided the Board of Trustees has adopted policies and procedures under Rule 12b-1(h) under the Investment Company Act of 1940, as amended (the "Act") and such transactions are conducted in compliance with those policies and procedures.

Subject to the provisions of the Act, and other applicable law, you, any of your affiliates or any affiliates of your affiliates may retain compensation in connection with effecting the Company's portfolio transactions, including transactions effected through others. If any occasion should arise in which you give any advice to your clients concerning the shares of the Company, you will act solely as investment counsel for such client and not in any way on behalf of the Company.

5. PROXY VOTING

You will vote all proxies solicited by or with respect to the issuers of securities in which assets of the Company may be invested from time to time. Such proxies will be voted in a manner that you deem, in good faith, to be in the best interest of the Company and in accordance with your proxy voting policy. You agree to provide a copy of your proxy voting policy, and any amendments thereto, to the Company prior to the execution of this Agreement.

6. CODE OF ETHICS

You have adopted a written code of ethics complying with the requirements of Rule 17j-1 under the Act and will provide the Company with a copy of the code and evidence of its adoption. Within 45 days of the last calendar quarter of each year while this Agreement is in effect, you will provide to the Board of Directors a written report that describes any issues arising under the code of ethics since the last report to the Board of Directors, including, but not limited to, information about material violations of the code and sanctions imposed in response to the material violations; and which certifies that you have adopted procedures reasonably necessary to prevent access persons (as that term is defined in Rule 17j-1) from violating the code.

7. SERVICES NOT EXCLUSIVE/USE OF NAME

Your services to the Company pursuant to this Agreement are not to be deemed to be exclusive, and it is understood that you may render investment advice, management and other services to others, including other registered investment companies, provided, however, that such other services and activities do not, during the term of this Agreement, interfere in a material manner, with your ability to meet all of your obligations with respect to rendering services to the Company.

The Company and you acknowledge that all rights to the name "Simplify Asset" or any variation thereof belong to you, and that the Company is being granted a limited license to use such words in the names of any class. In the event you cease to be the adviser to the Company, the Company's right to the use of the name "Simplify Asset" shall automatically cease on the ninetieth day following the termination of this Agreement. The right to the name may also be withdrawn by you during the term of this Agreement upon ninety (90) days' written notice by you to the Company. Nothing contained herein shall impair or diminish in any respect, your right to use the name "Simplify Asset" in the name of, or in connection with, any other business enterprises with which you are or may become associated. There is no charge to the Company for the right to use this name.

8. LIMITATION OF LIABILITY OF MANAGER

You may rely on information reasonably believed by you to be accurate and reliable. Except as may otherwise be required by the Act or the rules thereunder, neither you nor your directors, officers, employees, shareholders, members, agents, control persons or affiliates (each an "Exculpated Party" and together the "Exculpated Parties") of any thereof shall be subject to any liability for, or any damages, expenses or losses incurred by the Company in connection with, any error of judgment, mistake of law, any act or omission connected with or arising out of any services rendered under, or payments made pursuant to, this Agreement or any other matter to which this Agreement relates, except by reason of willful misfeasance, bad faith or gross negligence (as gross negligence is construed under Delaware law) on the part of any such persons in the performance of your duties under this Agreement, or by reason of reckless disregard by any of such persons of your obligations and duties under this Agreement.

Any person, even though also a director, officer, employee, shareholder, member or agent of you, who may be or become a director, officer, employee or agent of the Company shall be deemed, when rendering services to the Company or acting on any business of the Company (other than services or business in connection with your duties hereunder), to be rendering such services to or acting solely for the Company and not as a director, officer, employee, shareholder, member, or agent of you, or one under your control or direction, even though paid by you.

An Exculpated Party who is expressly granted rights under this Agreement and who is not a party to this Agreement shall have the rights under the Contracts (Rights of Third Parties) Act (as amended) to enforce the terms of this Agreement as if it were a party thereto. Notwithstanding any term of this Agreement, the consent of or notice to any Exculpated Party who is not a party to this Agreement shall not be required for any termination, rescission or agreement to any variation, waiver, assignment, novation, release or settlement under this Agreement at any time.

9. INSURANCE COVERAGE

At all times during the term of this Agreement, you will maintain an Errors & Omissions policy with coverage of at least \$1,000,000. Upon request, you will provide the Company with proof of coverage issued by a reputable insurance company.

10. DURATION AND TERMINATION OF THIS AGREEMENT

The term of this Agreement shall begin on the date of the first issuance of participating shares by the Fund and shall continue in effect with respect to the Company for a period of two years. This Agreement shall continue in effect from year to year thereafter, subject to termination as hereinafter provided, if such continuance is approved at least annually by (a) a majority of the outstanding voting securities of the Company or by vote of the Board of Directors, cast in person at a meeting called for the purpose of voting on such approval, and (b) by vote of a majority of the Directors of the Company who are not parties to this Agreement or "interested persons" of any party to this Agreement, cast in person at a meeting called for the purpose of voting on such approval. This Agreement shall terminate, without notice, upon the termination of the Fund Management Agreement. This Agreement may, on sixty (60) days written notice, be terminated with respect to the Company, at any time without the payment of any penalty, by the Board of Directors, by a vote of a majority of the outstanding voting securities of the Company, or by you. This Agreement shall automatically terminate in the event of its assignment.

11. AMENDMENT OF THIS AGREEMENT

No provision of this Agreement may be changed, waived, discharged or terminated orally, and no amendment of this Agreement shall be effective until approved by the Board of Directors, including a majority of the Directors who are not interested persons of you or of the Company, cast in person at a meeting called for the purpose of voting on such approval, and (if required under interpretations of the Act by the Securities and Exchange Commission or its staff) by vote of the holders of a majority of the outstanding voting securities of the Company.

12. LIMITATION OF LIABILITY TO COMPANY PROPERTY

It is expressly agreed that the obligations of the Company hereunder shall not be binding upon any of the Directors, officers, employees, agents or nominees of the Company, or any shareholders of the Company, personally, but bind only the Company. The execution and delivery of this Agreement have been authorized by the Directors of the Company and signed by officers of the Company, acting as such, and neither such authorization by such Directors nor such execution and delivery by such officers shall be deemed to have been made by any of them individually or to impose any liability on any of them personally, but shall bind only the property of the Company. A copy of the Memorandum and Articles of Association is registered with the Registrar of Companies of the Cayman Islands.

13. SEVERABILITY

In the event any provision of this Agreement is determined to be void or unenforceable, such determination shall not affect the remainder of this Agreement, which shall continue to be in force.

14. BOOKS AND RECORDS

In compliance with the requirements of Rule 31a-3 under the Act, you agree that all records which you maintain for the Company are the property of the Company and you agree to surrender promptly to the Company such records upon the Company's request. You further agree to preserve for the periods prescribed by Rule 31a-2 under the Act all records which you maintain for the Company that are required to be maintained by Rule 31a-1 under the Act.

15. QUESTIONS OF INTERPRETATION

(a) This Agreement shall be governed by the laws of the Cayman Islands.

(b) For the purpose of this Agreement, the terms "assignment," "majority of the outstanding voting securities," "control" and "interested person" shall have their respective meanings as defined in the Act and rules and regulations thereunder, subject, however, to such exemptions as may be granted by the Securities and Exchange Commission under the Act; and the term "brokerage and research services" shall have the meaning given in the Securities Exchange Act of 1934.

(c) Any question of interpretation of any term or provision of this Agreement having a counterpart in or otherwise derived from a term or provision of the Act shall be resolved by reference to such term or provision of the Act and to interpretation thereof, if any, by the United States courts or in the absence of any controlling decision of any such court, by the Securities and Exchange Commission or its staff. In addition, where the effect of a requirement of the Act, reflected in any provision of this Agreement, is revised by rule, regulation, order or interpretation of the Securities and Exchange Commission or its staff, such provision shall be deemed to incorporate the effect of such rule, regulation, order or interpretation.

16. NOTICES

Any notices under this Agreement shall be in writing, addressed and delivered or mailed postage paid to the other party at such address as such other party may designate for the receipt of such notice. Until further notice to the other party, it is agreed that the address of the Company and the Adviser is 10845 Griffith Peak Drive, 2/F, Las Vegas, NV 89135

17. CONFIDENTIALITY

You agree to treat all records and other information relating to the Company and the securities holdings of the Company as confidential and shall not disclose any such records or information to any other person unless (i) the Board of Directors has approved the disclosure or (ii) such disclosure is compelled by law. In addition, you, and your officers, directors and employees are prohibited from receiving compensation or other consideration, for themselves or on behalf of the Company, as a result of disclosing the Company's portfolio holdings. You agree that, consistent with your code of ethics, neither you nor your officers, directors or employees may engage in personal securities transactions based on nonpublic information about the Company's portfolio holdings.

18. COUNTERPARTS

This Agreement may be executed in any number of counterparts, including by portable document format (PDF), DocuSign or any similar method (and the parties to this Agreement shall be entitled to rely on any such electronic signature for the purposes of the Electronic Transactions Act (as amended) of the Cayman Islands), each of which shall be deemed an original and all of which taken together shall constitute one and the same instrument.

19. BINDING EFFECT

Each of the undersigned expressly warrants and represents that he has the full power and authority to sign this Agreement on behalf of the party indicated, and that his signature will operate to bind the party indicated to the foregoing terms.

20. CAPTIONS

The captions in this Agreement are included for convenience of reference only and in no way define or delimit any of the provisions hereof or otherwise affect their construction or effect.

If you are in agreement with the foregoing, please sign the form of acceptance on the accompanying counterpart of this letter and return such counterpart to the Company, whereupon this letter shall become a binding contract upon the date thereof.

Yours very truly,

NINETEENTH AMENDMENT TO ETF DISTRIBUTION AGREEMENT

This nineteenth amendment ("Amendment") to the ETF Distribution Agreement (the "Agreement") novated as of September 30, 2021, by and between Simplify Exchange Traded Funds ("Trust") and Foreside Financial Services, LLC ("Foreside") is entered into with effect as of February 17, 2026 (the "Effective Date").

WHEREAS, Trust and Foreside ("Parties") desire to amend Exhibit A of the Agreement to reflect an updated Funds list; and

WHEREAS, Section 8(b) of the Agreement requires that all amendments and modifications to the Agreement be in writing and executed by the Parties.

NOW THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby agree as follows:

1. Capitalized terms not otherwise defined herein shall have the meanings set forth in Agreement.
2. Exhibit A of the Agreement is hereby deleted in its entirety and replaced by Exhibit A attached hereto.
3. Except as expressly amended hereby, all the provisions of the Agreement shall remain unamended and in full force and effect to the same extent as if fully set forth herein.
4. This Amendment shall be governed by, and the provisions of this Amendment shall be construed and interpreted under and in accordance with, the laws of the State of Delaware.

IN WITNESS WHEREOF, the parties hereto have caused this Amendment to be executed in their names and on their behalf by and through their duly authorized officers, as of the Effective Date.

**AMENDMENT
TO
CUSTODY AGREEMENT**

This Amendment ("Amendment") is made with effect as of December 18, 2025 ("Effective Date"), by and between Simplify Exchange Traded Funds (the "Trust"), on behalf of its series listed on Appendix I to the Agreement (as defined below) and THE BANK OF NEW YORK MELLON ("BNY").

BACKGROUND:

- A. BNY and the Trust entered into a Custody Agreement dated as of July 14, 2020, as amended to date, (the "Agreement") relating to BNY's provision of services to the Trust and its series.
- B. The parties desire to amend the Agreement as set forth herein.

TERMS:

The parties hereby agree that:

- 1. Appendix I to the Agreement is hereby deleted in its entirety and replaced with Appendix I attached hereto.
 - 2. Miscellaneous.
 - (a) As hereby amended and supplemented, the Agreement shall remain in full force and effect.
 - (b) The Agreement, as amended hereby, constitutes the complete understanding and agreement of the parties with respect to the subject matter thereof and supersedes all prior communications with respect thereto.
 - 3. Signatures; Counterparts. The parties expressly agree that this Amendment may be executed in one or more counterparts and expressly agree that such execution may occur by manual signature on a physically delivered copy of this Amendment, by a manual signature on a copy of this Amendment transmitted by facsimile transmission, by a manual signature on a copy of this Amendment transmitted as an imaged document attached to an email, or by "Electronic Signature", which is hereby defined to mean inserting an image, representation or symbol of a signature into an electronic copy of this Amendment by electronic, digital or other technological methods. Each counterpart executed in accordance with the foregoing shall be deemed an original, with all such counterparts together constituting one and the same instrument. The exchange of executed counterparts of this Amendment or of executed signature pages to counterparts of this Amendment, in either case by facsimile transmission or as an imaged document attached to an email transmission, shall constitute effective execution and delivery of this Amendment and may be used for all purposes in lieu of a manually executed and physically delivered copy of this Amendment.
-

IN WITNESS WHEREOF, each of the parties hereto has caused this Amendment to be executed as of the Effective Date by its duly authorized representative indicated below. An authorized representative, if executing this Amendment by Electronic Signature, affirms authorization to execute this Amendment by Electronic Signature and that the Electronic Signature represents an intent to enter into this Amendment and an agreement with its terms.

**AMENDMENT
TO
TRANSFER AGENCY AND SERVICE AGREEMENT**

This Amendment ("Amendment") is made with effect as of December 18, 2025 ("Effective Date"), by and between SIMPLIFY EXCHANGE TRADED FUNDS (the "Trust"), on behalf of each of its series listed on Appendix A to the Agreement (as defined below), and THE BANK OF NEW YORK MELLON ("BNY Mellon").

BACKGROUND:

- A. BNY Mellon and the Trust entered into a Transfer Agency and Service Agreement dated as of July 14, 2020, as amended to date, (the "Agreement") relating to BNY Mellon's provision of services to the Trust and its series.
- B. The parties desire to amend the Agreement as set forth herein.

TERMS:

The parties hereby agree that:

- 1. Appendix A to the Agreement is hereby deleted in its entirety and replaced with Appendix A attached hereto.
 - 2. Miscellaneous.
 - (a) As hereby amended and supplemented, the Agreement shall remain in full force and effect.
 - (b) The Agreement, as amended hereby, constitutes the complete understanding and agreement of the parties with respect to the subject matter thereof and supersedes all prior communications with respect thereto.
 - 3. Signatures; Counterparts. The parties expressly agree that this Amendment may be executed in one or more counterparts and expressly agree that such execution may occur by manual signature on a physically delivered copy of this Amendment, by a manual signature on a copy of this Amendment transmitted by facsimile transmission, by a manual signature on a copy of this Amendment transmitted as an imaged document attached to an email, or by "Electronic Signature", which is hereby defined to mean inserting an image, representation or symbol of a signature into an electronic copy of this Amendment by electronic, digital or other technological methods. Each counterpart executed in accordance with the foregoing shall be deemed an original, with all such counterparts together constituting one and the same instrument. The exchange of executed counterparts of this Amendment or of executed signature pages to counterparts of this Amendment, in either case by facsimile transmission or as an imaged document attached to an email transmission, shall constitute effective execution and delivery of this Amendment and may be used for all purposes in lieu of a manually executed and physically delivered copy of this Amendment.
-

IN WITNESS WHEREOF, each of the parties hereto has caused this Amendment to be executed as of the Effective Date by its duly authorized representative indicated below. An authorized representative, if executing this Amendment by Electronic Signature, affirms authorization to execute this Amendment by Electronic Signature and that the Electronic Signature represents an intent to enter into this Amendment and an agreement with its terms.

**AMENDMENT
TO
FUND ADMINISTRATION AND ACCOUNTING AGREEMENT**

This Amendment ("Amendment") is made with effect as of December 18, 2025 ("Effective Date"), by and between SIMPLIFY EXCHANGE TRADED FUNDS (the "Trust"), on behalf of each of its series listed on Exhibit A to the Agreement (as defined below), and THE BANK OF NEW YORK MELLON ("BNY Mellon").

BACKGROUND:

- A. BNY Mellon and each Trust entered into a Fund Administration and Accounting Agreement dated as of July 14, 2020, as amended to date, (the "Agreement") relating to BNY Mellon's provision of services to the Trust and its series (each a "Series").
- B. The parties desire to amend the Agreement as set forth herein.

TERMS:

The parties hereby agree that:

- 1. Exhibit A to the Agreement is hereby deleted in its entirety and replaced with Exhibit A attached hereto.
 - 2. Miscellaneous.
 - (a) As hereby amended and supplemented, the Agreement shall remain in full force and effect.
 - (b) The Agreement, as amended hereby, constitutes the complete understanding and agreement of the parties with respect to the subject matter thereof and supersedes all prior communications with respect thereto.
 - 3. Signatures; Counterparts. The parties expressly agree that this Amendment may be executed in one or more counterparts and expressly agree that such execution may occur by manual signature on a physically delivered copy of this Amendment, by a manual signature on a copy of this Amendment transmitted by facsimile transmission, by a manual signature on a copy of this Amendment transmitted as an imaged document attached to an email, or by "Electronic Signature", which is hereby defined to mean inserting an image, representation or symbol of a signature into an electronic copy of this Amendment by electronic, digital or other technological methods. Each counterpart executed in accordance with the foregoing shall be deemed an original, with all such counterparts together constituting one and the same instrument. The exchange of executed counterparts of this Amendment or of executed signature pages to counterparts of this Amendment, in either case by facsimile transmission or as an imaged document attached to an email transmission, shall constitute effective execution and delivery of this Amendment and may be used for all purposes in lieu of a manually executed and physically delivered copy of this Amendment.
-

IN WITNESS WHEREOF, each of the parties hereto has caused this Amendment to be executed as of the Effective Date by its duly authorized representative indicated below. An authorized representative, if executing this Amendment by Electronic Signature, affirms authorization to execute this Amendment by Electronic Signature and that the Electronic Signature represents an intent to enter into this Amendment and an agreement with its terms.

Simplify Exchange Traded Funds
10845 Griffith Peak Drive, 2/F
Las Vegas, NV 89135

Dear Board Members:

This letter is in response to your request for our opinion in connection with the filing of Post-Effective Amendment No. 205 to the Registration Statement, File Nos. 333-238475 and 811-23570 (the “Registration Statement”), of Simplify Exchange Traded Funds (the “Trust”).

We have examined a copy of the Trust’s Agreement and Declaration of Trust, the Trust’s By-Laws, the Trust’s record of the various actions by the Trustees thereof, and all such agreements, certificates of public officials, certificates of officers and representatives of the Trust and others, and such other documents, papers, statutes and authorities as we deem necessary to form the basis of the opinion hereinafter expressed. We have assumed the genuineness of the signatures and the conformity to original documents of the copies of such documents supplied to us as copies thereof.

Based upon the foregoing, we are of the opinion that, after the Post-Effective Amendment No. 205 is effective for purposes of applicable federal and state securities laws, the shares of each fund listed on the attached Exhibit A (the “Funds”), if issued in accordance with the then current Prospectus and Statement of Additional Information of the applicable Fund, will be legally issued, fully paid and non-assessable.

The opinions expressed herein are limited to matters of Delaware statutory trust law and United States Federal law as such laws exist today; we express no opinion as to the effect of any applicable law of any other jurisdiction. We assume no obligation to update or supplement our opinion to reflect any facts or circumstances that may hereafter come to our attention, or changes in law that may hereafter occur.

We hereby give you our permission to file this opinion with the Securities and Exchange Commission as an exhibit to Post-Effective Amendment No. 205 to the Registration Statement and we consent to all references to us in Post-Effective Amendment No. 205. This opinion may not be filed with any subsequent amendment, or incorporated by reference into a subsequent amendment, without our prior written consent. This opinion is prepared for the Trust and its shareholders, and may not be relied upon by any other person or organization without our prior written approval.

Very truly yours,

RULE 12b-1 DISTRIBUTION AND SERVICE PLAN

1. The Trust. Simplify Exchange Traded Funds (the “Trust”) is an open-end management investment company registered as such under the Investment Company Act of 1940, as amended (the “1940 Act”), and is authorized to issue separate series (each such series is referred to herein as a “Fund” and collectively the “Funds”).

2. The Plan. The Trust desires to adopt a Rule 12b-1 Distribution and Service Plan pursuant to Rule 12b-1 under the 1940 Act with respect to the shares of beneficial interest (“Shares”) of the Funds which are identified on Exhibit A hereof, as it may be amended from time to time to add or remove a Fund or Funds, and the Board of Trustees of the Trust (the “Board of Trustees”) has determined that there is a reasonable likelihood that adoption of this Distribution and Service Plan (the “Plan”) will benefit each such Fund (the “Designated Fund”) and its holders of Shares. Accordingly, each Designated Fund hereby adopts this Plan in accordance with Rule 12b-1 under the 1940 Act on the following terms and conditions (capitalized terms not otherwise defined herein have the meanings assigned thereto in the Funds’ registration statement under the 1940 Act and under the Securities Act of 1933, as amended, as such registration statement is amended by any amendments thereto at the time in effect).

3. The Distributor. The Trust has entered into a written Distribution Agreement with Foreside Financial Services, LLC (the “Distributor”), pursuant to which the Distributor will act as the exclusive distributor with respect to the creation and distribution of Creation Unit size aggregations of Shares as described in the Funds’ registration statement (“Creation Units”).

4. Payments.

(a) The Trust may pay a monthly fee not to exceed 0.25% per annum of each Fund’s average daily net assets to reimburse the Distributor for actual amounts expended to finance any activity primarily intended to result in the sale of Creation Units of each Fund or the provision of investor services, including but not limited to (i) delivering copies of the Trust’s then-current prospectus to prospective purchasers of such Creation Units; (ii) marketing and promotional services including advertising; (iii) facilitating communications with beneficial owners of shares of the Fund; and (iv) such other services and obligations as are set forth in the Distribution Agreement. Such payments shall be made within ten (10) days of the end of each calendar month. The determination of daily net assets shall be made at the close of business each day throughout the month and computed in the manner specified in the then current Prospectus for the determination of the net asset value of Creation Units.

(b) Distribution expenses incurred in any one year in excess of 0.25% of each Fund’s average daily net assets may be reimbursed in subsequent years subject to the annual 0.25% limit and subject further to the approval of the Board of Trustees including a majority of the Trustees who are not “interested persons” of the Trust (as defined in the 1940 Act) and who have no direct or indirect financial interest in the operation of this Plan or in any agreement related to this Plan (the “Independent Trustees”).

(c) The Distributor may use all or any portion of the amount received pursuant to this Plan to compensate securities dealers or other persons that are Authorized Participants for providing distribution assistance, including broker-dealer and shareholder support and educational and promotional services, pursuant to agreements with the Distributor, or to pay any of the expenses associated with other activities authorized under Section 4(a) hereof.

5. Effective Date. This Plan shall become effective upon approval by a vote of both a majority of the Board of Trustees and a majority of the Independent Trustees, cast in person at a meeting called for the purpose of voting on this Plan.

6. Term. This Plan shall, unless terminated as hereinafter provided, remain in effect with respect to the Designated Fund for one year from its effective date and shall continue thereafter, provided that its continuance is specifically approved at least annually by a vote of both a majority of the Trustees and a majority of the Independent Trustees, cast in person at a meeting called for the purpose of voting on this Plan.

7. Amendment. This Plan may be amended at any time by the Board of Trustees, provided that (a) any amendment to increase materially the amount to be spent for the services provided for in Section 4 hereof shall be effective only upon approval by a vote of a majority of the outstanding voting securities (as such term is defined in the 1940 Act) of the Designated Fund, and (b) any material amendment of this Plan shall be effective only upon approval by a vote of both a majority of the Board of Trustees and a majority of the Independent Trustees, cast in person at a meeting called for the purpose of voting on such amendment.

8. Termination. This Plan may be terminated at any time, without payment of any penalty, by vote of a majority of the Independent Trustees, or by vote of a majority of the outstanding voting securities (as such term is defined in the 1940 Act) of the Designated Fund. In the event of termination or non-continuance of this Plan, the Trust may reimburse any expense which it incurred prior to such termination or non-continuance, provided that such reimbursement is specifically approved by both a majority of the Board of Trustees and a majority of the Independent Trustees.

9. Assignment. This plan will not be terminated by an assignment; however, an assignment will terminate any agreement under the plan involving any such assignment.

10. Reports. While this Plan is in effect, the Distributor shall provide to the Trustees, and the Trustees shall review, at least quarterly, a written report of the amounts expended pursuant to the Plan and the purposes for which such expenditures were made.

11. Records. The Trust shall preserve copies of this Plan, each agreement related hereto and each report referred to in Section 10 hereof for a period of at least six years from the date of the Plan, agreement and report, the first two years in an easily accessible place.

12. Independent Trustees. While this Plan is in effect, the selection and nomination of Independent Trustees shall be committed to the discretion of the Trustees who are not "interested persons" of the Trust (as defined in the 1940 Act).

13. Severability. If any provision of the Plan shall be held or made invalid by a court decision, statute, rule or otherwise, the remainder of the Plan shall not be affected thereby.

Re: Simplify Exchange Traded Funds, File Nos. 333-238475 and 811-23570

Dear Ladies and Gentlemen:

On behalf of Simplify Exchange Traded Funds, a registered investment company (the “Trust”), we hereby submit, via electronic filing, Post-Effective Amendment No. 205 (the “Amendment”) to the Trust’s Registration Statement under the Securities Act of 1933, as amended (the “Securities Act”). The Amendment is filed pursuant to Rule 485(b) promulgated under the Securities Act. We have reviewed the Amendment in accordance with Rule 485(b)(4) and represent that this update does not contain any disclosure that would render it ineligible to become effective pursuant to Rule 485(b). The main purpose of this filing is to make completing edits and file exhibits related to Simplify DBi CTA Managed Futures Index ETF. If you have any questions, please contact the undersigned at (614) 469-3238 or JoAnn Strasser at (614) 469-3265.

Very truly yours,
